Images Of The Feminine In Rembrandts Work:

Images of the Feminine in Rembrandt's Work Anat Gilboa, 2003 This study focuses on certain ideas and positions that define the woman in Rembrandt's work In six chapters several aspects of the woman or feminine image are discussed the development of female themes throughout Rembrandt's work spirituality as embodied by Mary the mother of Christ portraiture showing the women in her social context the nude and the erotic Rembrandt's intimate companions Saskia van Uylenburgh Geertge Dirckx and Hendrickje Stoffels and goddesses and heroines **The Visible and the Invisible** Daniela Hammer-Tugendhat, 2015-03-10 The book addresses the scientific debates on Rembrandt Metsu Vermeer and Hoogstraten that are currently taking place in art history and cultural studies These focus mainly on the representation of gender difference the relationship between text and image and the emotional discourse They are also an appeal for art history as a form of cultural studies that analyses the semantic potential of art within discursive and social contemporary practices Dutch painting of the seventeenth century reflects its relationship to visible reality It deals with ambiguities and contradictions As an avant garde artistic media it also contributes to the emergence of a subjectivity towards the modern bourgeois It discards subject matter from its traditional fixation with iconology and evokes different imaginations and semantizations aspects that have not been sufficiently taken into account in previous research The book is to be understood as an appeal for art history as a form of cultural science that analyses the semantic potential of art within discursive and social contemporary practices and at the same time demonstrates its relevance today Works by Rembrandt Metsu Vermeer Hoogstraten and others serve as exemplary case studies for addressing current debates in art history and cultural studies such as representation of gender difference relationship between text and image and emotional discourse Power and Image in Early Modern Europe Jessica Goethals, Valerie McGuire, 2009-05-27 Are images and spectacles fundamental mediators of power relationships in the West This book draws upon the language of cultural studies to investigate a contemporary hypothesis in the shifting ideological landscape of early modern Europe Apparently aesthetic choices by artists may also have been the means to consolidate and subvert institutionalized or non institutionalized bodies of power Meanwhile communities in Europe reacted to the intrinsic power of the image in literature and letters commenting upon both its use and abuse Both diachronic and geographic connections are made among disparate but important moments of image making in the twelfth through seventeenth centuries The influence of Descartes is traced from La Rochefoucauld and the communal spectacles of the Ancien Régime salon to the Netherlands and Rembrandt's sketch Death of the Virgin Shakespeare bears similar anxieties about Joan of Arc's transgression of gender boundaries in Henry VI as does Castiglione's Courtier when serving the Renaissance Prince Spenser's dilemma about the non difference between fiction and history resolves itself in the same way as does the Byzantine rejection of iconoclasm Other articles in the collection examine anomie in Vatican frescoes by Giorgio Vasari corporeal decay and the supernatural as spectacle on the early modern English stage and affective self perception and

subjectivity in the scoring of Italian opera not as just a conference volume but as an organic group of essays on early modernity. The essays span an impressive number of cultures from Byzantium to England, Italy and Spain to the Netherlands and theorize the image from a number of disciplinary vantage points. Not surprisingly, art history and theatre are well represented but so are music history and literary studies. Most of the essays are short but sufficiently developed to allow for thoughtful arguments on the status of the visual in early modern culture on the stage, on the page and as artistic and musical representation. They do deliver fine close readings and leave me sufficiently intrigued to want to return to or familiarize myself with the original texts. I come away from this collection encouraged about the state of graduate studies in Europe and North America. Jane Tylus, Professor of Italian and Comparative Literature and Vice Provost for Academic Affairs, New York University. The essays are interdisciplinary and touch upon many themes that lie outside my own field of specialization. I was therefore surprised and pleased to find them not only original and instructive but also inviting and accessible to the non-specialist. Although they range far with respect to chronology and theoretical suppositions, they are coherently united in their concern for the functioning of the image in the conservation, revision or critique of socio-political power in their respective cultural contexts. I will mention three essays representing three different fields as striking examples of disparate images used to consolidate, reconstruct or overthrow the dominant powers of their times. Kathryn Falzareno's essay 'Mother's Milk and Deborah's Sword' is a close reading of Shakespeare's portrayal of Joan of Arc in *Henry VI*. It is a close analysis of the paradoxical status of Joan, Saint of the French, strumpet for the English, Christian warrior maiden, contrasting with Deborah in the Ancient Testament. The dominant and totally unexpected image which brings together the contradictions embodied by Joan are the breasts, the source of nurture in the figure of Mary but an encumbrance for the mythological amazons who removed one breast to facilitate their use of the bow. Ljubica Ilic's 'Echo and Narcissus: Labyrinths of the Self' is an elegant reading of echo music, the apparently impossible translation of the Ovidian story into music and opera. Ovid's story represents the nymph Echo as the auditory equivalent of Narcissus, reflection echoing sound as reflecting light. Ovid's echo myth undoubtedly influenced opera by Jacopo Peri during the time of the Medici and then Monteverdi in the musical setting of *Orfeo*. Finally, Elissa Auerbach's 'Taking Mary's Pulse: Cartesianism and Modernity in Rembrandt's Death of the Virgin' is a brilliant commentary on the Dutch painter's rendering of an ancient theme, the dormition of the Virgin, but at the center of the painting is the figure of a physician taking the pulse of her limp hand. The intrusion of this scientific element in the ancient iconography of the event of Mary's death is the unmistakable sign of the wave of modernity that swept over the Netherlands with the popularity of Cartesian philosophy and science. John Freccero, Professor of Italian and Comp Lit, NYU.

Mary Magdalene, Iconographic Studies from the Middle Ages to the Baroque Michelle Erhardt, Amy Morris, 2012-11-21. Examines the iconographic inventions in Magdalene imagery and the contextual factors that shaped her representation in visual art from the fourteenth to the seventeenth centuries. Women and Portraits in Early Modern Europe Andrea

Pearson,2016-12-05 As one of the first books to treat portraits of early modern women as a discrete subject this volume considers the possibilities and limits of agency and identity for women in history and with particular attention to gender as categories of analysis for women s images Its nine original essays on Italy the Low Countries Germany France and England deepen the usefulness of these analytical tools for portraiture Among the book s broad contributions it dispels false assumptions about agency s possibilities and limits showing how agency can be located outside of conventional understanding and conversely how it can be stretched too far It demonstrates that agency is compatible with relational gender analysis especially when alternative agencies such as spectatorship are taken into account It also makes evident the importance of aesthetics for the study of identity and agency The individual essays reveal among other things how portraits broadened the traditional parameters of portraiture explored transvestism and same sex eroticism appropriated aspects of male portraiture to claim those values for their sitters and as sites for gender negotiation resistance and debate invoked considerable relational anxiety Richly layered in method the book offers an array of provocative insights into its subject

The Ashgate Research Companion to Dutch Art of the Seventeenth Century Wayne Franits,2017-07-05 Despite the tremendous number of studies produced annually in the field of Dutch art over the last 30 years or so and the strong contemporary market for works by Dutch masters of the period as well as the public s ongoing fascination with some of its most beloved painters until now there has been no comprehensive study assessing the state of research in the field As the first study of its kind this book is a useful resource for scholars and advanced students of seventeenth century Dutch art and also serves as a springboard for further research Its 19 chapters divided into three sections and written by a team of internationally renowned art historians address a wide variety of topics ranging from those that might be considered traditional to others that have only drawn scholarly attention comparatively recently Dutch Paintings in the Metropolitan Museum of Art Walter A. Liedtke,Metropolitan Museum of Art (New York, N.Y.),2007 Presents a catalog that surveys the Dutch paintings found in the Metropolitan Museum of Art **Sex and Slaughter in the Tent of Jael** Colleen M. Conway,2017 This book traces the retelling of the biblical story from Judges 4 5 in ancient retellings of the Bible visual art poems plays and novels The books shows how these cultural productions of an old biblical story intersect with broader conversations about the often conflicted and sometimes violent relationship between women and men *The Adulteress Before Christ, a Picture by Rembrandt* Charles Sedelmeyer,Abraham Bredius,1912 Rembrandt and the Female Nude Eric Jan Sluijter,Rembrandt Harmenszoon van Rijn,2006 Rembrandt s extraordinary paintings of female nudes Andromeda Susanna Diana and her Nymphs Dana Bathsheba as well as his etchings of nude women have fascinated many generations of art lovers and art historians But they also elicited vehement criticism when first shown described as against the grain anticlassical even ugly and unpleasant However Rembrandt chose conventional subjects kept close to time honored pictorial schemes and was well aware of the high prestige accorded to the depiction of the naked female body Why then do these

works deviate so radically from the depictions of nude women by other artists To answer this question Eric Jan Sluiter in *Rembrandt and the Female Nude* examines Rembrandt's paintings and etchings against the background of established pictorial traditions in the Netherlands and Italy Exploring Rembrandt's intense dialogue with the works of predecessors and peers Sluiter demonstrates that more than any other artist Rembrandt set out to incite the greatest possible empathy in the viewer an approach that had far reaching consequences for the moral and erotic implications of the subjects Rembrandt chose to depict In this richly illustrated study Sluiter presents an innovative approach to Rembrandt's views on the art of painting his attitude towards antiquity and Italian art of the Renaissance his sustained rivalry with the works of other artists his handling of the moral and erotic issues inherent in subjects with female nudes and the nature of his artistic choices

Subject as Aporia in Early Modern Art Alexander Nagel, 2017-07-05 The studies in this volume focus on works of art that generate bafflement and that make that difficulty of reading part of their rhetorical structure These are works whose subjects are not easily identifiable or can be readily associated with more than one subject at the same time works that take a subject into a new genre or format pagan into Christian for example or vice versa and thus destabilize the subject itself works that concentrate on the marginal rather than the central episode and works that introduce elements of the preparatory phase the indeterminacy that are native to the sketch or drawing for example into the realm of finished works Unable to settle on a single reading the effort of interpretation doubles back on its own procedures This aporia according to Aristotle serves as the initial impulse to philosophical inquiry Although the works studied here are in many ways exceptional the aporias they raise register larger structural problems belonging to the artistic culture as a whole Between 1400 and 1700 we see the emergence of new formats new genres new subjects and new techniques as well as new venues for the display of art It is an implicit thesis of this book that the systemic shifts occurring in the early modern period made the emergence of aporetic works of art and of aporia as a problem for art a structural inevitability Historical Dictionary of the Netherlands Joop W. Koopmans, Arend H. Huussen Jr., 2007-05-22 The Netherlands frequently but erroneously called Holland is one of the most densely populated countries in the world In the past few decades it has been undergoing many transformations made possible by its dynamic and fast moving political landscape It has shifted from fierce nationalism toward a self image of tolerance and permissiveness the national identity and self consciousness has slowly eroded through decolonization and immigration Unfortunately several murders of prominent controversial politicians have started yet another shift away from tolerance and economic stagnation has bred pessimism Nonetheless despite many trials and tribulations there has been real progress and the Dutch have perhaps done a better job of coming to terms with their limitations than many others in the world The second edition of the *Historical Dictionary of the Netherlands* contains more than 700 cross referenced dictionary entries on individual topics spanning the Netherlands political economic and social system along with short biographies on important figures who have shaped the Netherlands history Supplementing the entries are a list of acronyms and

abbreviations a chronology an introduction appendixes and a bibliography making this a superb quick reference on the Netherlands *The Connoisseur* ,1912 **The Illustrated London News** ,1848 *A Catalogue Raisonné of the Works of the Most Eminent Dutch, Flemish, and French Painters: Rembrandt van Rhyn* John Smith (dealer in pictures, London),1836
