Images in Transition Abba Rubin, 1984-11-07 Ch 1 pp 3 46 surveys the history of the return of the Jews to England from the Marranos in the 16th century to the debate on the readmission of the Jews in Cromwell's time and the debate on the Jew Bill in 1753 which rekindled latent antisemitism. The rest of the book examines numerous novels and plays which reflected the current attitude towards Jews. The negative stereotype predominated at first e.g. in works by Dryden, Defoe, Smollett in particular Richardson and in the revival of Shakespeare's Merchant of Venice in the mid 18th century but a change occurred in 1793 when Richard Cumberland depicted the Jew as a positive character in his play The Jew. Thereafter more favorable portrayals appeared in English literature based on knowledge and on experience of the Jewish reality rather than on ignorance and prejudice until by 1830 the numbers of negative and positive portrayals were equal. The Jewess in Nineteenth-Century British Literary Culture Nadia Valman, 2007-04-12. Stories about Jewesses proliferated in nineteenth century Britain as debates about the place of the Jews in the nation raged. While previous scholarship has explored the prevalence of antisemitic stereotypes in this period, Nadia Valman argues that the figure of the Jewess, virtuous, appealing and sacrificial, reveals how hostility towards Jews was accompanied by pity, identification and desire. Reading a range of texts from popular romance to the realist novel, she investigates how the complex figure of the Jewess brought the instabilities of nineteenth century religious, racial and national identity into uniquely sharp focus. Tracing the narrative of the Jewess from its beginnings in Romantic and Evangelical literature and reading canonical writers including Walter Scott, George Eliot and Anthony Trollope alongside more minor figures such as Charlotte Elizabeth Tonna, Grace Aguilar and Amy Levy, Valman demonstrates the remarkable persistence of this narrative and its myriad transformations across the century.

The English Novel, 1700-1740 Robert Letellier, 2003-02-28. The English novel written between 1700 and 1740 remains a comparatively neglected area. In addition to Daniel Defoe whose Robinson Crusoe and Moll Flanders are landmarks in the history of English fiction, many other authors were at work. These included such women as Penelope Aubin, Jane Barker, Mary Davys and Eliza Haywood who made a considerable contribution to widening the range of emotional responses in fiction. These authors and many others continued

writing in the genres inherited from the previous century such as criminal biographies the Utopian novel the science fictional voyage and the epistolary novel This annotated bibliography includes entries for these works and for critical materials pertinent to them The volume first seeks to establish the existing studies of the era along with anthologies It then provides entries for a wide ranging selection of works which cover fictional theoretical historical political and cultural topics to provide a comprehensive background to the unfolding and understanding of prose fiction in the early 18th century This is followed by an alphabetical listing of novels their editions and any critical material available on each The next section provides a chronological record of significant and enduring works of fiction composed or translated in this period The volume concludes with extensive indexes

The Abyss Niall Ferguson, 2012-10-23 Excerpted from Niall Ferguson's sprawling bestseller *The War of the World* *The Abyss* now stands on its own as one of the most thrilling short histories of World War I ever written This is not a conventional military history about battles and generals Rather *The Abyss* examines how World War I saw the birth of total war fought between societies as much as armies and must therefore be understood in terms of the financial crises it unleashed the multinational empires it destroyed and the hateful ideas it propagated The most remarkable thing about the war Ferguson shows us is how shockingly unexpected it was At a time when economic integration and technology seemed to be rendering war between great powers impossible World War I was the moment when that process went into reverse and the lethal forces of ethnic disintegration took over Now on the cusp of the 100th anniversary of its outbreak we can see World War I as much more than just four years of industrialized slaughter Weaving together the economics of empire and the ideology of race and featuring an original preface by the author as well as a teaser from his new paperback *Civilization* *The Abyss* is world history at its finest

Re-Viewing Thomas Holcroft, 1745-1809 A.A. Markley, 2016-04-08 Thomas Holcroft was a central figure of the 1790s whose texts played an important role in the transition toward Romanticism In this the first essay collection devoted to his life and work the contributors reassess Holcroft's contributions to a remarkable range of literary genres drama poetry fiction autobiography political philosophy and to the project of revolutionary reform in the late eighteenth century The self educated son of a cobbler Holcroft transformed himself into a popular playwright influential reformist novelist and controversial political radical But his work is not important merely because he himself was a remarkable character but rather because he was a hinge figure between laboring Britons and the dissenting intelligentsia between Enlightenment traditions and developing Romantic concerns and between the world of self made hack writers and that of established critics Enhanced by an updated and corrected chronology of Holcroft's life and work key images and a full bibliography of published scholarship this volume makes way for more concerted and focused scholarship and teaching on Holcroft Taken together the essays in this collection situate Holcroft's self fashioning as a member of London's literati his central role among the London radical reformers and intelligentsia and his theatrical innovations within ongoing explorations of the late eighteenth century public sphere of letters and debate

Male Envy Mervyn Nicholson, 1999-01-01 Taking as his central argument that relations between males in western society are deeply colored if not actually determined by envy Mervyn Nicholson ranges across disciplines and eras in a fascinating utterly unique analysis of this taboo subject This book presents a series of motifs that are associated with male envy locating each in a particular historical context and illustrating it with examples drawn from literature film and popular culture Unlike earlier treatments of envy by psychoanalysts or feminist theorists this book moves beyond mere illustration of the problem to actually construct a theory about how the code of Male Envy shapes social consciousness in modern culture A truly pathbreaking work *Male Envy* merits a close reading by gender theorists literary critics and social psychologists *The*

Eighteenth Century, 1974 *William Congreve* Laurence Bartlett, 1996-07-28 William Congreve 1670 1729 was an English author known as one of the last great Restoration comic playwrights whose best known works include *The Old Bachelor* *Love for Love* and *The Way of the World* This work updates and expands upon Bartlett s *William Congreve A Reference Guide* 1979 It contains substantial new scholarship on the playwright influenced by new literary perspectives including New Historicism Feminism Marxism and Deconstructionism Entries are arranged according to year of publication and briefly describe the thesis of each book With subject index **Elmer Diktonius** George C. Schoolfield, 1985-08-20 The poems of Elmer

Diktonius place him in the forefront of literary expressionism His idylls and his novel give him high rank among Northern

Europe's greatest literary innovators in the twentieth century. He has an unusual drama because of his ambiguous involvement with the politics of the left and his hesitation between internationalism and a deep Finnish patriotism. George C. Schoolfield provides the uninitiated reader with a biographical and critical overview of Diktonius's life and work and calls attention to his artistic triumphs, defeats, and contradictions. **Richard Cumberland** Chris D. Martz, 1991 **Guido Gezelle** Hermine J. Van Nuis, 1986-02-21 In this first English language study of one of Flanders' greatest poets, Hermine J. van Nuis presents an overview of Guido Gezelle's major poetry collections and focuses upon his evolution as a poet and thinker. The author places Gezelle's poetry within its significant cultural and political contexts and analyzes his major poetry collections in terms of the circumstances of his life that shaped them. Synthesizing various critical viewpoints expressed in Netherlandic scholarship, van Nuis demonstrates how Gezelle's poetic technique paved the way for modern Dutch poetry. The volume is complete with a selected bibliography, notes, references, and a chronology of the poet's life.
