

Images Of A Constitution

Alexander Buhmann

Images Of A Constitution:

Images of a Constitution William E. Conklin, 2024-07-01 Originally published in 1989 in this remarkable conjunction of constitutional theory jurisprudence literary theory constitutional law and political theory William Conklin first tells us what a constitution is not it is not a text nor a compendium of judicial and legislative decisions interpreting a text nor a set of doctrines nor moral political values nor customs nor a priori conceptions A constitution he argues is an image which exists through the legal consciousness of a community Using a wide range of Canadian judicial decisions as examples Conklin shows that the classic cases have been those where the boundaries of two conflicting images clashed In each instance the subject matter itself collapses into a search for a coherent image of what a constitution is all about The dominant image of a constitution in Canadian judicial discourse has been a rationalist one emanating from the Enlightenment understanding of knowledge Turning to academic writings on Canadian federalism law Conklin goes on to identify clearly the boundaries of three versions of rationalism and to show that Canadian scholars have shared with judges the dominant image of rationalism In the third part of his essay the author makes a prescriptive claim namely that a text such as the Canadian Charter of Rights and Freedoms arguably raises issues which the rationalist image of a constitution precludes as legitimate inquiries He identifies a further general image of a constitution in Canadian legal discourse a teleological one which is rooted in the writings and judgments of Ivan Rand Finally he uses the contours of the Rand image to work out a further image of constitution an image that allows lawyers to entertain issues of both theory and social cultural practice thereby placing them in a position to alleviate the pain and suffering of those in need Constitutional Design: Image of State and Age Игорь Барццц, 2019-07-10 The purpose of this paper is to comprehend explore and describe Constitutional Design as a phenomenon of constitutional theory and practice from the perspective of its usage as a criterion for the assessment of the aesthetics beauty and topology of constitutions as well as a set of tools of legal linguistics and legal writing The author pays special attention to the evolution of constitutional design as such constitutional and legal thought their dependence on profound changes in the course of development of the society law and culture

Constitution Day Molly Aloian, 2009 There is a day to celebrate being an American citizen and this book explains how and why the holiday came to be **Thomas Jefferson Didn't Sign the Constitution** Barbara M. Linde, 2016-12-15 When many think of the Constitution they think of the Founding Fathers Thomas Jefferson John Adams Benjamin Franklin but neither Jefferson nor Adams even signed it Facts like this will surprise readers while further information will enlighten them about both the crucial document called the U S Constitution as well as about its creation and ratification This essential volume is a significant addition to any elementary social studies collection *The Oxford Handbook of Political Ideologies* Michael Freeden, Lyman Tower Sargent, Marc Stears, 2013-08-15 This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations The diversity of ideology studies is represented by a mixture of the range of theories that

illuminate the field combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones Ideologies however are always with us The Handbook is divided into three sections The first is divided into three sections The first reflects some of the latest thinking about the development of ideology on an historical dimension from the standpoints of conceptual history Marx studies social science theory and history and leading schools of continental philosophy The second includes some of the most recent interpretations and theories of ideology all of which are sympathetic in their own ways to its exploration and close investigation even when judiciously critical of its social impact This section contains many of the more salient contemporary accounts of ideology The third focuses on the leading ideological families and traditions as well as on some of their cultural and geographical manifestations incorporating both historical and contemporary perspectives Each chapter is written by an expert in their field bringing the latest approaches and understandings to their task The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions

Images of Blood in American Cinema Kjetil Rødje, 2016-03-09 Through studying images of blood in film from the mid 1950s to the end of the 1960s this path breaking book explores how blood as an audio visual cinematic element went from predominately operating as a signifier providing audiences with information about a film s plot and characters to increasingly operating in terms of affect potentially evoking visceral and embodied responses in viewers Using films such as The Return of Dracula The Tinger Blood Feast Two Thousand Maniacs Color Me Blood Red Bonnie and Clyde and The Wild Bunch R dje takes a novel approach to film history by following one audio visual element through an exploration that traverses established standards for film production and reception This study does not heed distinctions regarding to genres horror western gangster or models of film production exploitation independent studio productions but rather maps the operations of cinematic images across marginal as well as more traditionally esteemed cinematic territories The result is a book that rethinks and reassembles cinematic practices as well as aesthetics and as such invites new ways to investigate how cinematic images enter relations with other images as well as with audiences

The United States Constitution Therese M. Shea, 2013-08-01 Though the shortest single document constitution in the world the US Constitution has bound our nation together since 1789 The Constitution and the term constitutional are bandied about in the media a lot but many people don t even know what s in the document Readers of this book will discover its content article by article as well as look at the Bills of Rights and other amendments Fun facts enliven the text and sidebars delve into lesser known constitutional issues

The U.S. Constitution Jean Kinney Williams, 2003-09 Explains what the Constitution is how and why it was formed and who controls it

Constitutional Semiotics Martin Belov, 2022-06-30 This book offers an outline of the foundations of a theory of constitutional semiotics It provides a systematic account of the concept of constitutional semiotics and its role in the representation and signification of meaning in

constitution constitutional law and constitutionalism The book explores the constitutional signification of meaning that is stretched between rational entrenchment and constitutional imagination It provides a critical assessment of the rationalist entrapment of constitutional modernity and justifies the need to turn to shadow constitutionalisms textual symbolic imaginary and visual constitutionalism The book puts forward innovative incentives for constitutional analysis based on constitutional semiotics as a paradigm for representation of meaning in rational textual symbolic imaginary and visual constitutionalism The book focuses on the textual imaginative and visual discourse of constitutionalism which is built upon collective constitutional imaginaries and on the peculiar normativity of constitutional geometry and constitutional mythology as borderline phenomena entrenched in rational textual symbolic imaginary and visual constitutionalism The book analyses concepts such as constitutional text and texture authoritative constitutional narratives and authoritative constitutional narrators constitutional semiotic community constitutional utopia constitutional taboo normative ideology and normative ideas constitutional myth and mythology constitutional symbolism constitutional code and constitutional geometric form It explores the textual entrenchment of constitutionalism and its repercussions for representation and signification of meaning

Measuring Country Image Alexander Buhmann,2016-08-29 Alexander Buhmann develops a new model for measuring the constitution and effects of country images by combining well established concepts from national identity theory and attitude theory with a recent model from reputation management The model is operationalized and tested in two surveys Results show how different cognitive and affective dimensions of the country image affect each other and ultimately lead to the facilitation of behavioral intentions The book introduces a theory grounded approach to clarify the dimensionality of the country image It is the first to operationalize and test the dimensions of the country image by combining formative and reflective measures in a mixed specified model *Conceptual Change and the Constitution* Terence Ball,John Greville Agard Pocock,1988 In this volume distinguished historians and political scientists examine the linguistic and conceptual dimension of the American Founding They analyze political discourse during the short span of years from the Revolution through ratification **Constitution Translated for Kids** Cathy Travis,2008 Constitution Translated for Kids is a simple translation of the entire U S Constitution written at the 5th grade level With the original 1787 text alongside a translation this is the first ever side by side look at our most supreme legal and political document This book is an excellent learning tool for teachers and parents A teacher s guide and resources are also available on the author s website *Mechanistic Images in Geometric Form* Jesper Lützen,2005-05-12 This book gives an analysis of Hertz s posthumously published Principles of Mechanics in its philosophical physical and mathematical context In a period of heated debates about the true foundation of physical sciences Hertz s book was conceived and highly regarded as an original and rigorous foundation for a mechanistic research program Insisting that a law like account of nature would require hypothetical unobservables Hertz viewed physical theories as mental images of the world rather than the true design behind the phenomena This paved the way for the modern conception of a

model Rejecting the concept of force as a coherent basic notion of physics he built his mechanics on hidden masses the ether and rigid connections and formulated it as a new differential geometric language Recently many philosophers have studied Hertz's image theory and historians of physics have discussed his forceless mechanics The present book shows how these aspects as well as the hitherto overlooked mathematical aspects form an integrated whole which is closely connected to the mechanistic world view of the time and which is a natural continuation of Hertz's earlier research on electromagnetism Therefore it is also a case study of the strong interactions between philosophy physics and mathematics Moreover the book presents an analysis of the genesis of many of the central elements of Hertz's mechanics based on his manuscripts and drafts Hertz's research program was cut short by the advent of relativity theory but its image theory influenced many philosophers as well as some physicists and mathematicians and its geometric form had a lasting influence on advanced expositions of mechanics

What Is the Constitution? Jennifer Way, 2015-07-15 In this book readers will learn about the Constitutional Convention of 1787 and how the delegates compromised on various issues so that all the colonies would ratify the Constitution The checks and balances between the three branches of government are outlined as well as the relationship between the federal and state governments The amendment process and the passage of the Bill of Rights are also explained

Computer Vision and Image Processing Balasubramanian Raman, Subrahmanyam Murala, Ananda Chowdhury, Abhinav Dhall, Puneet Goyal, 2022-07-23 This two volume set CCIS 1567 1568 constitutes the refereed proceedings of the 6th International Conference on Computer Vision and Image Processing CVIP 2021 held in Rupnagar India in December 2021 The 70 full papers and 20 short papers were carefully reviewed and selected from the 260 submissions The papers present recent research on such topics as biometrics forensics content protection image enhancement super resolution restoration motion and tracking image or video retrieval image image video processing for autonomous vehicles video scene understanding human computer interaction document image analysis face iris emotion sign language and gesture recognition 3D image video processing action and event detection recognition medical image and video analysis vision based human GAIT analysis remote sensing and more

Constitutional Rights Jill Sherman, 2016-08-15 Freedom of speech freedom of religion and freedom of the press are three of the core American values outlined in the Constitution Constitutional Rightsexplains these and other rights contained in one of America's key founding documents Clear text helpful sidebars and color photographs give readers a compelling overview of this important subject Features include fast facts a table of contents a glossary additional resources and an index Aligned to Common Core Standards and correlated to state standards Core Library is an imprint of Abdo Publishing a division of ABDO

Understanding the US Constitution James Wolfe, Lesli J. Favor, Ph.D., 2015-07-15 The United States Constitution is our country's founding document providing the framework for our government and judicial system Explore the goals intentions and debates of the framers of the constitution to understand how and why our nation continues to live by and interpret its principles today

The U.S. Constitution Sadie

Silva,2021-12-15 The Constitution is arguably the most important document in the United States today It forms the basis of all laws that are passed in the country and the Supreme Court s interpretation of the document has influenced countless court decisions and new policies For these reasons it s crucial for all American citizens to have at least a basic knowledge of what the Constitution contains Readers are given an overview of this important document helping them think critically about proposed laws in the 21st century Exciting fact boxes sidebars and photographs add to this essential reading experience

Belief, Bodies, and Being Deborah Orr,2006 InBelief Bodies and Being thirteen distinguished contributors present diverse and illuminating viewpoints on feminist issues of embodiment materialism and agency from feminist and postmodernist philosophical perspectives

The United States Constitution Avery Elizabeth Hurt,2018-12-15 John Adams said that the United States was a nation of laws Of all the United States laws the legal principles laid out in the U S Constitution are the foundation of the country The document defines the country s deepest ideals its highest standards and its wildest ambitions The Constitution has served as the nation s guiding star for over two hundred years with only twenty seven amendments in all that time Understanding it is the one sure way to understand the best of what the United States can be which this book allows for your readers
