**Images of Cardiff** "South Wales Echo",2011-06-01 Ship owners brought men from the West Indies Africa Europe the Orient and the Middle East to make the port of Cardiff a thriving cosmopolitan town which was to develop into a proud capital city It was in 1905 that Cardiff was given the title of a cit *Understanding Urban Tourism* Martin Selby,2003-12-18 Despite the formidable growth of urban tourism there has been little of the critical engagement that one would expect from the social sciences the rich potential of contemporary social science for urban tourism has yet to be realized Martin Selby's textbook makes available to practitioners and students seeking to understand the phenomenon of tourism in towns and cities the methods and concepts that are currently enhancing and transforming our understanding of society in other areas of the social sciences With an emphasis on image culture and experience the author draws upon the cultural turn to explain the human aspects of the urban tourism phenomenon The discussions emphasize the significance of urban tourism within debates upon the contemporary city postmodernity and the pursuit of social science Clearly written with case studies and further reading this book should be welcomed by students and lecturers in geography tourism planning and sociology

Reinventing a Small, Worldly City Ana Gonçalves,2016-11-10 Focusing on Cardiff the capital city of Wales in the UK this book reflects on a contemporary small European city its development characteristics and present struggles Following a century in which it was dubbed the world's coaltropolis the decline in demand for coal meant that Cardiff endured an acute process of de industrialisation In seeking to address this and the related high levels of unemployment it has experienced a process of cultural and social reinvention since the 1980s and more significantly after Wales turned into a devolved nation in the late 1990s Cardiff's development from a small port into a capital city is examined and special attention is paid to the city's cultural and social transformation in recent decades that has relied on the expansion of specific cultural clusters and tourism which have been decisive for the transformation of its cultural identity and in shaping the city's individual and collective memories and identities Cardiff epitomises a quintessential case of urban reinvention cultural regeneration and social transformation lying between two apparently contradictory paradigms the need to respond to global demands and the effort to maintain its cultural distinctiveness and Welsh roots Therefore it sets the scene for a wider reflection on small cities especially in the European setting and what generally characterises these cities their liveability cultural creativity and community empowerment as well as the fact that they facilitate mobility and social interaction These worldly cities the book contends present interesting opportunities and challenges at the urban economic social and cultural levels that rely on more human scale people based approaches to cities thus defying existing urban hierarchies and categorisations **Augmented Images** Lars C. **Modern Memory** Andrew Blaikie,2010-03-22 This highly original study explores how different but connected ways of seeing infuse relationships between place and belonging Its argument is that all memories whether fleeting glimpses or elaborated narratives necessarily invoke imagined pasts tenement life island cultures vanished moralities even the origins of social science But do these multiple recollections share a common frame of reference Are perceptions conditioned by a collective social imaginary Visions of nation and community from Adam Ferguson s ideas on the development of civil society through John Grierson s pioneering of documentary film to the structures of feeling in popular fiction reflect the impact of modernity on Scottish culture since the late eighteenth century While landscape as the symbolic face of Scotland and its attendant mental contours have been produced and debated in many genres including travel literature social commentary novels and magazines changes in the means of capturing and presenting images particularly the emergent possibilities of the photograph have affected the ways we identify and remember The analysis adopts a broadly sociological approach but its range lends equal appeal to social historians cultural geographers and particularly those pursuing visual or memory studies
