**Divine Images and Human Imaginations in Ancient Greece and Rome**, 2015-08-27 The polytheistic religious systems of ancient Greece and Rome reveal an imaginative attitude towards the construction of the divine One of the most important instruments in this process was certainly the visualisation Images of the gods transformed the divine world into a visually experienceable entity comprehensible even without a theoretical or theological superstructure For the illiterates images were together with oral traditions and rituals the only possibility to approach the idea of the divine for the intellectuals images of the gods could be allegorically transcended symbols to reflect upon Based on the art historical and textual evidence this volume offers a fresh view on the historical literary and artistic significance of divine images as powerful visual media of religious and intellectual communication **Images of Eternal Beauty in Funerary Verse** **Inscriptions of the Hellenistic and Greco-Roman Periods** Andrzej Wypustek, 2012-11-01 In *Images of Eternal Beauty in Funerary Verse* Andrzej Wypustek provides a study of various forms

of poetic heroization that became increasingly widespread in Greek funerary epigram. The deceased were presented as eternally young heroes oblivious of old age and death as stars shining with an eternal brightness in heavens or in Ether or as the ones chosen by the gods abducted by them to their home in the heavens or married to them in the other world following the examples of Ganymede, Adonis, Hylas and Persephone. The author demonstrates that for all their diversity the common feature of these verse inscriptions was the praise of beauty of the dead. *Greek Myth and Western Art* Karl Kilinski, 2013. This richly illustrated book examines the legacy of Greek mythology in Western art from the classical era to the present. Tracing the emergence, survival and transformation of key mythological figures and motifs from ancient Greece through the modern era, it explores the enduring importance of such myths for artists and viewers in their own time and over the millennia that followed. Image and Myth Luca Giuliani, 2013-09-11. On museum visits we pass by beautiful well preserved vases from ancient Greece but how often do we understand what the images on them depict. In *Image and Myth* Luca Giuliani tells the stories behind the pictures, exploring how artists of antiquity had to determine which motifs or historical and mythic events to use to tell an underlying story while also keeping in mind the tastes and expectations of paying clients. Covering the range of Greek style and its growth between the early Archaic and Hellenistic periods, Giuliani describes the intellectual, social and artistic contexts in which the images were created. He reveals that developments in Greek vase painting were driven as much by the times as they were by tradition: the better known the story, the less leeway the artists had in interpreting it. As literary culture transformed from an oral tradition in which stories were always in flux to the stability of written texts, the images produced by artists eventually became nothing more than illustrations of canonical works. At once a work of cultural and art history, *Image and Myth* builds a new way of understanding the visual culture of ancient Greece.

A Homeric Catalogue of Shapes Charlayn von Solms, 2019-11-14. In the popular imagination, Homer as author of the *Iliad* and the *Odyssey* epitomises poetic genius. So when scholars proposed that the Homeric epics were not the unique creation of an individual author but instead reflected a traditional compositional system developed by generations of singer-poets, swathes of assumptions about the poems and their author were swept aside and called into question. Much had to be re-evaluated through a new lens. The creative process described by scholars for the Homeric epics shares many key attributes with the modern visual art forms of collage and its less familiar variant, sculptural assemblage. *A Homeric Catalogue of Shapes* describes a series of twelve sculptures that together function as an abstract portrait of Homer, not a depiction of him as an individual but as a compositional system. The technique by which the artworks were produced reflects the poetic method that scholars termed oral formulaic. In both of these creative processes, the artwork is constructed from pre-existing elements such as phrases, characters and plot lines in the epics and objects, fragmented items and borrowed forms in the sculptures. The artist-author presents a largely unknown characterisation of Homeric poetics in a manner that emphasizes the extent and complexity of this Homer's artistry. **The Spirit of Secular Art** Robert Nelson, 2007 THE SPIRIT OF SECULAR ART explains the spiritual prestige of art Various theorists have discussed how art has an aura or indefinable magic This book explains how when and why it gained its spiritual properties The idea that all art is somehow spiritual even though not religious is often assumed this book while narrating the historical trajectory of art in the most accessible language reveals how the mysteries of religious practice are abstracted and saved through all stages of secularisation in European culture THE SPIRIT OF SECULAR ART presents a coherent theory defining the sacred basis of Western aesthetics It evocatively describes the afterlife of the holy from Ancient Greece to the present and outlines how the mysterious institution of art can be explained in material terms Unlike other books in the genre THE SPIRIT OF SECULAR ART radically deconstructs traditional art history in terms of prestige and the value of the non material The book functions as an alternative critical history of art integrated with the histories of literature and belief a philosophical essay on the fundamental values of art and religion and a critique of the spiritual conceits of contemporary aesthetics and art appreciation

*The Classical Review* , 1889 *Jesus, Paul,*

*Luke-Acts, and 1 Clement* David L. Balch, 2023-06-19 In this book the author draws on two original sources on a Greek biographer historian and rhetorician Dionysius of Halicarnassus as well as on Pompeian domestic art and architecture Generally NT scholars read texts but Greeks and ancient Romans loved beauty The walls and floors of their houses were decorated with thousands of colorful frescoes and mosaics art that two millennia later is still on display in Pompeii Christians lived and worshipped in those typical houses relating the art to NT texts generates many intriguing new questions What stories myths did Greeks and Romans see every day What were their sports and how violent were they Many NT scholars know as much or more Latin than they do Greek and they therefore cite the Latin historian Livy rather than the Greek Dionysius who wrote a century before the first Christian historian Luke Dionysius rhetoric expressed values shared across cultures by Greeks Romans and Jews e g by the historian and rhetorician Josephus some values that Luke also shares Dionysius makes clear that cities and ethnic groups had to praise how they treated emigrant foreigners questions handled differently by Josephus and by Luke This enables new interpretations of Jesus inaugural speech in Luke 4 and of Peter s second Pentecost speech in Acts 10
