*Cold Light* Edmund Newton Harvey, 1927

*Screendance* Douglas Rosenberg, 2012-05-17 The relationship between the practice of dance and the technologies of representation has excited artists since the advent of film Dancers choreographers and directors are increasingly drawn to screendance the practice of capturing dance as a moving image mediated by a camera While the interest in screendance has grown in importance and influence amongst artists it has until now flown under the academic radar Emmy nominated director and auteur Douglas Rosenberg s groundbreaking book considers screendance as both a visual art form as well as an extension of modern and post modern dance without drawing artificial boundaries between the two Both a history and a critical framework *Screendance Inscribing the Ephemeral Image* is a new and important look at the subject As he reconstructs the history and influences of screendance Rosenberg presents a theoretical guide to navigating the boundaries of an inherently collaborative art form Drawing on psycho analytic literary materialist queer and feminist modes of analysis Rosenberg explores the relationships between camera and subject director and dancer and the ephemeral nature of dance and the fixed nature of film This interdisciplinary approach allows for a broader discussion of issues of hybridity and mediatized representation as they apply to dance on film Rosenberg also discusses the audiences and venues of screendance and the tensions between commercial and fine art cultures that the form has confronted in recent years The surge of screendance festivals and courses at universities around the world has exposed the friction that exists between art which is generally curated and dance which is generally programmed Rosenberg explores the cultural implications of both methods of reaching audiences and ultimately calls for a radical new way of thinking of both dance and film that engages with critical issues rather than simple advocacy
