E. J. Cowdrey,2003-01-02 Lanfranc of Pavia was archbishop of Canterbury from 1070 to 1089 and so for nineteen critical years in the history of the Anglo Norman church and kingdom after the Norman conquest of 1066 He came to Canterbury with long experience of intellectual and ecclesiastical currents including reforming currents in mid eleventh century western Europe At first concerned with the liberal arts after migrating to Normandy he turned to sacred study he commented upon the Pauline Epistles and engaged Berengar of Tours in eucharistic controversy He became prominent in the flourishing monastic life of Normandy at Bec and as abbot of Duke William s foundation of Saint Etienne at Caen At Canterbury he was King William s loyal and effective collaborator in renewing and reordering church life using councils as a principal means By no means a court prelate Lanfranc may be best characterized as a monk archbishop a role in which he was reinforced by being ex officio abbot of a cathedral monastery at Canterbury Canterbury s prestige and interests were a major concern Lanfranc claimed for

the see a primacy over the whole British Isles Towards the great pope of his day Gregory VII 1073 85 he was surprisingly cool This is the first full scholarly study of Lanfranc for thirty years It reconsiders his career and outstanding achievements in all major aspects focusing on his qualities of wisdom diligence and statesmanship It is an intelligent and considered historical biography which brings Lanfranc out from the shadow of his successor St Anselm and reveals him as among the very greatest of the archbishops of Canterbury *Calixtus the Second, 1119-1124* Mary Stoll, 2004 This new interpretation of the reign of Calixtus II 1119 1124 challenges the conventional analysis explaining why this life long opponent of the emperor Henry V agreed to compromise over imperial investitures of bishops in the Concordat of Worms of 1122

The Letters of Peter of Celle Peter (of Celle, Bishop of Chartres), 2001 Peter of Celle was a figure of great authority and influence in twelfth century France His letters offer unique insight into the ideals and values of the monastic world at a critical turning point for western religion This is the first translation of his correspondence and the first complete modern edition *Proceedings of the Battle Conference in Dublin, 1997* Christopher Harper-Bill, 1998

Stealing Obedience Katherine O'Brien O'Keeffe, 2012-04-28 Narratives of monastic life in Anglo Saxon England depict individuals as responsible agents in the assumption and performance of religious identities To modern eyes however many of the choices they make would actually appear to be compulsory Stealing Obedience explores how a Christian notion of agent action where freedom incurs responsibility was a component of identity in the last hundred years of Anglo Saxon England and investigates where agency in the modern sense might be sought in these narratives Katherine O'Brien O'Keeffe looks at Benedictine monasticism through the writings of Ifric Anselm Osbern of Canterbury and Goscelin of Saint Bertin as well as liturgy canon and civil law chronicle dialogue and hagiography to analyse the practice of obedience in the monastic context Stealing Obedience brings a highly original approach to the study of Anglo Saxon narratives of obedience in the adoption of religious identity

Encountering Islam on the First Crusade Nicholas Morton, 2016-07-14 The First Crusade 1095 9 has often been characterised as a head to head confrontation between the forces of Christianity and Islam For many it is the campaign that created a lasting rupture between these two faiths Nevertheless is such a characterisation borne out by the sources Engagingly written and supported by a wealth of evidence Encountering Islam on the First Crusade offers a major reinterpretation of the crusaders attitudes towards the Arabic and Turkic peoples they encountered on their journey to Jerusalem Nicholas Morton considers how they interpreted the new peoples civilizations and landscapes they encountered sights for which their former lives in Western Christendom had provided little preparation Morton offers a varied picture of cross cultural relations depicting the Near East as an arena in which multiple protagonists were pitted against each other Some were fighting for supremacy others for their religion and many simply for survival

English Diplomatic Practice in the Middle Ages Pierre Chaplais, 1981-07-01 Though many historians date the practice of diplomacy to the Renaissance Pierre Chaplais shows that medieval kings relied on a network of diplomats and special envoys to conduct international relations War peace marriage agreements ransoms

The Chair of Peter, Or, The Papacy Considered in Its Institution, Development, and Organization, and in the Benefits Which, for Over Eighteen Centuries, it Has Conferred on Mankind John Nicholas Murphy, 1885

Bishop and Chapter in Twelfth-Century England Everett U. Crosby, 2003-10-30 This book is the first detailed examination on a comparative basis of the economic and political relations between the bishops and their cathedral clergy in England during the century and a half after the Conquest In particular it is a study of the structure and historical development of the mensal endowments and the redistribution of wealth which led in the course of time to the establishment of the chapter as a largely independent body with substantial political power A description of the constitutional importance of the mensa and its treatment in recent scholarly writing is followed by a discussion of property rights and liberties in the church and the role of the bishop in ecclesiastical and civil government The core of the book consists of an analysis based on contemporary sources of the episcopal and capitular organisation in each of the ten monastic and seven secular sees

The Normans in Europe Elisabeth M. C. Van Houts, 2000-12-15 This book provides a selection from the abundant source material generated by the Normans and the peoples they conquered It takes a wide European perspective on the Normans assessing and explaining Norman expansion their political and social organization and their eventual decline The Normans in Europe explores the process of assimilation between Scandinavians and Franks and the emergence of Normandy the internal organization of the principality with a variety of source materials from chronicles miracle stories and chapters the role of women and children in Norman society and a variety of other areas

Norman Rule in Normandy, 911-1144 Mark S. Hagger, 2017 In around 911 the Viking adventurer Rollo was granted the city of Rouen and its surrounding district by the Frankish King Charles the Simple Two further grants of territory followed in 924 and 933 But while Frankish kings might grant this land to Rollo and his son William Longsword these two Norman dukes and their successors had to fight and negotiate with rival lords hostile neighbours kings and popes in order to establish and

maintain their authority over it This book explores the geographical and political development of what would become the duchy of Normandy and the relations between the dukes and these rivals for their lands and their subjects fidelity It looks too at the administrative machinery the dukes built to support their regime from their toll collectors and vicomtes an official similar to the English sheriff to the political theatre of their courts and the buildings in which they were staged At the heart of this exercise are the narratives that purport to tell us about what the dukes did and the surviving body of the dukes diplomas Neither can be taken at face value and both tell us as much about the concerns and criticisms of the dukes subjects as they do about the strength of the dukes authority The diplomas in particular because most of them were not written by scribes attached to the dukes households but rather by their beneficiaries can be used to recover something of how the dukes subjects saw their rulers as well as something of what they wanted or needed from them Ducal power was the result of a dialogue and this volume enables both sides to speak Mark Hagger is a senior lecturer in medieval history at Bangor University
