Ancient Letter Form Stanley E. Porter, Sean A. Adams, 2010-03-22 Throughout the last century there has been continuous study of Paul as a writer of letters Although this fact was acknowledged by previous generations of scholars it was during the twentieth century that the study of ancient letter writing practices came to the fore and began to be applied to the study of the letters of the New Testament This volume seeks to advance the discussion of Paul's relationship to Greek epistolary traditions by evaluating the nature of ancient letters as well as the individual letter components These features are evaluated alongside Paul's letters to better understand Paul's use and adaptations of these traditions in order to meet his

communicative needs **The Pauline Letters** David Oliver Smith, 2022-06-17 In *The Pauline Letters A Rhetorical Analysis* David Oliver Smith unveils his revolutionary discovery that the apostle Paul divided his letters into structured literary units as he wrote them These literary units are based upon repeated words phrases and abstract concepts and are invariably patterned into chiasmic parallel or hybrid structures Using his technique of rhetorical analysis Smith sets out each literary unit in the seven undisputed letters of Paul After the structures of the literary units have been exposed the units reveal interpolations that disrupt Paul's original structure When the interpolations revealed by this technique are compared with interpolations heretofore proposed by Pauline scholars there are some surprising results Smith also uses his technique to analyze the Deutero Pauline letters to determine whether any of those letters exhibit the same literary attributes as the undisputed letters **Interpreting the Pauline Epistles** Thomas R. Schreiner, 2011-05-01 Leading Pauline studies expert

Thomas Schreiner provides an updated guide to the exegesis of the New Testament epistles traditionally assigned to Paul The first edition helped thousands of students dig deeper into studying the New Testament epistles This new edition is revised throughout to account for changes in the field and to incorporate the author's maturing judgments The book helps readers understand the nature of first century letters do textual criticism investigate historical and introductory issues probe theological context and much more *The Apostle Paul* Porter, 2016 There are many introductions to the life thought and letters of Paul the apostle Some concentrate upon his life while others focus upon his thought and still others on his letters A few of them like this book try to integrate all three of them including on occasion material from the book of Acts into a useful portrait of the man and what he said and thought as revealed through his letters from preface *Re-examining Paul's*

Letters Bo Reicke, 2001-10 A re examination of the dating of the deutero Pauline letters that contradicts the generally accepted thesis that these letters were written after Paul's death

The Formation of the Pauline Corpus of Letters C. Leslie Mitton, 2009-01-29 We know a good deal about the life of the Apostle Paul and are also reasonably well informed about the circumstances connected with the writing of his letters Concerning however the collecting of those letters together how why when and where this was done we are curiously ignorant The conventional answer has been that it happened gradually as an almost inevitable imperceptible process The arguments however on which this answer is based cannot claim to be conclusive and in recent years two scholars in the United States have challenged the whole assumption In this book Dr Mitton presents both points of view and the arguments by which they are supported and invites the reader to give consideration to the less familiar theory

Interpolations in the Pauline Letters William Walker, Jr., 2002-02-01 In this fundamental and at times provocative study Walker demonstrates that Paul's letters contain later non Pauline additions or interpolations and that such interpolations can sometimes be identified with relative confidence He begins by establishing that interpolations are to be assumed simply on a priori grounds that direct text critical evidence is not essential for their recognition that the burden of proof in their identification is lighter than most have assumed and that specific evidence for interpolation is often available Successive chapters then argue that 1 Cor 11 3 16 1 Cor 2 6 16 1 Cor 12 31b 14 1a and Rom 1 18 2 29 are in fact non Pauline interpolations and Walker goes on to summarize arguments for the same conclusion regarding five additional passages A brief epilogue addresses the question of interpolations and the canonical authority of scripture

Seven Pauline letters Peter F. Ellis, 1982 *The Pauline Letters* Leander E. Keck, Victor Paul Furnish, 1984

The Pauline Canon Stanley E. Porter, 2004-01-01 The Pauline letters continue to provoke scholarly discussion This volume includes papers that raise questions regarding the canon of Pauline writings Some essays treat a single dimension or single letters while others deal with the entire canonical formation process

The Letters to Timothy and Titus Philip H. Towner, 2006-07-12 The most accessible most broadly pitched full length commentary on Timothy and Titus this NICNT volume explores Paul's three letters to Timothy and Titus within their historical religious and cultural settings In his introduction Towner sets out the rationale for his historical approach questions certain assumptions of recent critical scholarship and establishes the uniqueness and individuality of each letter Significantly Towner's work displays unprecedented interaction with four recent major commentaries on these Pauline letters Centered on an outstanding translation of the Greek text and including thorough footnotes bibliographical citations and indexes Towner's commentary on Timothy and Titus is sure to become a standard reference for busy pastors students and scholars

Neglected Endings Jeffrey A. D. Weima, 1994-01-01 **Letters in Primitive Christianity** William G. Doty, 2014-12-02 Here at last is the synthesis of the diverse research on the letters of the early Christians the primary medium for primitive Christian business theology and teaching With unusual clarity William G Doty discusses both the cultural setting of the letters and the literary aspects of

the epistles of the early Christians to offer further clues to these people and their times Singling out Paul's letters Doty analyzes their formal and structural features and examines their importance as the norm for the early church Other New Testament letters which disclose the development of a long series of writings in that form are also explored The Pauline Epistles John Muddiman, John Barton, 2010-04-22 The Oxford Bible Commentary is a Bible study and reference work for 21st century students and readers that can be read with any modern translation of the Bible It offers verse by verse explanation of every book of the Bible by the world's leading biblical scholars From its inception OBC has been designed as a completely non denominational commentary carefully written and edited to provide the best scholarship in a readable style for readers from all different faith backgrounds It uses the traditional historical critical method to search for the original meaning of the texts but also brings in new perspectives and insights literary sociological and cultural to bring out the expanding meanings of these ancient writings and stimulate new discussion and further enquiry Newly issued in a series of part volumes the OBC is now available in an affordable and portable format for the commentaries to the Pauline Epistles Includes a general introduction to using the Commentary in addition to an introduction to study of the New Testament and to the Pauline Corpus in particular **Pauline Parallels** Fred O. Francis, J. Paul Sampley, 1984-08-01 The Pauline Parallels has been redesigned and revised in order to provide an improved practical tool for students seeking to understand the Pauline corpus of letters In his letters Paul echoes the structure of the common letter he employs rhetorical devices and he often repeats themes and images The Pauline Parallels provides a ready efficient comprehensive way to study the letters structurally formally and thematically by gathering relevant passages from all the letters onto the page or folio for immediate comparison The Pauline Parallels is the analog for the Pauline letters of a gospel parallels The Pauline Parallels is a sequential presentation of each of the ten chief letters attributed to Paul Romans 1 and 2 Corinthians Galatians Ephesians Philippians Colossians 1 and 2 Thessalonians and Philemon Each letter is divided into sense units or paragraphs of discourse these paragraphs as they are designated are numbered consecutively from the salutation of Romans to the closing remarks of Philemon Paragraph numbers are then used as the basis of the presentation of the materials in the Pauline Parallels and function effectively in a system of cross referencing Paul, His Letters, and Acts (Library of Pauline Studies) Thomas E.
