power Andrew Fuller challenged it in its self professed point of greatest strength the virtue encouraged by its principles of theistic rationality Do the extended implications of its principles compare favorably with Calvinism in the development of virtue Using their own writings and the admissions they make concerning piety and virtue among Socinians Fuller compared both systems in their tendency to convert profligates to a life of holiness to convert professed unbelievers their development of a standard of morality to encourage love to God candor and benevolence toward men encourage humility and charity promote love for Christ and veneration of Scripture develop happiness cheerfulness gratitude obedience and heavenly mindedness in the followers of the respective systems If challenged that he is being judgmental and has focused on subjective criteria Fuller replied that he is merely engaging the Socinians at the place where they have invited investigation Fuller intended to lay bare the emptiness of the Socinian boast to virtue The work first was published in 1793 **Singing in a Foreign Land** Karen A. Weisman,2018-07-19 In Singing in a Foreign Land Karen A Weisman examines the uneasy literary inheritance of British cultural and poetic norms by early nineteenth century Anglo Jewish authors Focusing on a range of subgenres from elegies to pastorals to psalm translations Weisman shows how the writers she studies engaged with the symbolic resources of English poetry such as the land of England itself from which they had been historically alienated Weisman looks at the self conscious explorations of lyric form by Emma Lyon the elegies for members of the British royal family penned by Hyman Hurwitz the ironic reflections on hybrid identities written by sisters Celia and Marion Moss and the poems of Grace Aguilar that explicitly join lyric effusion to Jewish historical concerns These poets were well versed in both Jewish texts and mainstream literary history and Weisman argues that they model an extreme example of Romantic self reflexivity they implicitly lament their own inability fully to appropriate inherited Romantic ideals about nature and transcendence even while acknowledging that those ideals are already deeply ironized by such figures as Coleridge Shelley and Wordsworth And because they do not possess a secure history binding them to the landscape of British hearth and home they recognize the need to create in their lyric poetry a stable narrative of identity within England and within the King s English even as they gesture toward the impossibility and sometimes even the undesirability of doing so Singing in a Foreign Land reveals how these Anglo Jewish poets caught between their desire to enter the English lyric tradition and their inability as Jews to share in the full religious and cultural Romantic heritage asserted a subtle cultural authority in their poems that recognized an alienation from their own expressive resources *The Dictionary of National Biography, Founded in 1882 by George Smith* Sir Leslie Stephen,Sir Sidney Lee,1917 *Essential Papers on Jewish-Christian Relations in the United States* Naomi W.
