Levinas The Frankfurt School And Psychoanalysis:

Levinas, The Frankfurt School and Psychoanalysis C Fred Alford, 2002-01-30 Original and provocative engagingly written C Fred Alford counters Levinas's notorious obscurity with a goodly dose of transparency John Lechte Macquarrie University Abstract and evocative writing in what can only be described as the language of prophecy Emmanuel Levinas has become everything to everyone We pretend we get it writing in much the same style so as to say whatever we wanted to say in the first place The Levinas Effect it has been called the ability of Levinas's texts to say anything the reader wants to hear so that Levinas becomes a deconstructionist theologian proto feminist or even a reconciler of postmodern ethics and rabbinical Judaism

Levinas, the Frankfurt School and Psychoanalysis C. Fred Alford, 2002 Insightful and accessible critique of postmodern ethics The Oxford Handbook of Levinas Michael L. Morgan, 2019-04-10 Emmanuel Levinas 1906 1995 emerged as an influential philosophical voice in the final decades of the twentieth century and his reputation has continued to flourish and increase in our own day His central themes the primacy of the ethical and the core of ethics as our responsibility to and for others speak to readers from a host of disciplines and perspectives However his writings and thought are challenging and difficult The Oxford Handbook of Levinas contains essays that aim to clarify and engage Levinas and his writings in a number of ways Some focus on central themes of his work others on the ways in which he read and was influenced by figures from Plato Hobbes Descartes and Kant to Blanchot Husserl Heidegger and Derrida And there are essays on how his thinking has been appropriated in moral and political thought psychology film criticism and more and on the relation between his thinking and religious themes and traditions Finally several essays deal primarily with how readers have criticized him and found him wanting The volume exposes and explores both the depth of Levinas's philosophical work and the range of applications to which it has been put with special attention to clarifying why his interests in the human condition the crisis of civilization the centrality and character of ethics and morality and the very meaning of human experience should be of interest to the widest range of readers

Derrida and the Future of the Liberal Arts Mary Caputi,Vincent J. Del Casino, Jr.,2013-04-11 Derrida and the Future of the Liberal Arts highlights the Derridean assertion that the university must exist without condition as a bastion of intellectual freedom and oppositional activity whose job it is to question mainstream society Derrida argued that only if the life of the mind is kept free from excessive corporate influence and political control can we be certain that the basic tenets of democracy are being respected within the very societies that claim to defend democratic principles This collection contains eleven essays drawn from international scholars working in both the humanities and social sciences and makes a well grounded and comprehensive case for the importance of Derridean thought within the liberal arts today Written by specialists in the fields of philosophy literature history sociology geography political science animal studies and gender studies each essay traces deconstruction s contribution to their discipline explaining how it helps keep alive the unconditional contrapuntal mission of the university The book offers a forceful and persuasive corrective to the current assault on the liberal arts

Donald Winnicott and the Politics of Care Joanna Kellond,2022-03-20 This book explores the significance of psychoanalyst Donald Winnicott s ideas for contemporary debates about care Locating Winnicott in relation to a range of fields including psychology philosophy sociology critical theory and feminist theory it examines the implications of his thinking for understanding and transforming the relationship between care and society Winnicott was unique amongst psychoanalysts for the emphasis he placed on care in the development of subjectivity The book unpacks Winnicott s understanding of care and assesses its relevance for conceptions of social responsibility justice and transformation In a world where care is in crisis how might we theorise the conditions necessary for the development of caring subjectivities and is it possible to infer a relationship between those conditions and progressive social change This unique book will be of interest to readers in psychosocial studies politics and anyone concerned with thinking about the relationship between care and social transformation

The Politics and Pedagogy of Mourning Timothy Secret,2015-02-26 Jacques Derrida famously stated in *Specters of Marx* that a justice worthy of the name must call us to render justice not only to the living but also to the dead In *The Politics and Pedagogy of Mourning* Timothy Secret argues that offering a persuasive account of such a duty requires establishing a discussion among the 20th century s three key thinkers on death Heidegger Levinas and Freud Despite arguing that none of these three figures discourses offers us a complete account of our duty to the dead and that it remains impossible to unify them into a single consistent and correct approach Secret nevertheless offers an account of how Derrida managed to produce an always singular articulation of these discourses in each of the acts of eulogy he offered for his philosophical contemporaries This is one of the first monographs to pay particular attention to the key role any contemporary account of the ethics of eulogy must grant to the revolutionary theoretical work on the materiality of

crypts and phantoms offered by the psychoanalysts Nicolas Abraham and Maria Torok Their work is shown to supplement major limitations in traditional philosophical accounts of the ethical relation The account of eulogy as a privileged space where different discourses act on each other under the pressure of responding responsibly to an always singular loss proves itself essential reading not only for those interested in understanding Derrida's overtly political works but also offers an account of a performative training in negotiating aporias that arise in political society the result of which is a pedagogy in the art of civility whose relevance today is more timely than ever

Morality on the Edge Jolanta Saldukaitytė, Luc Anckaert, This volume couples and examines Modernity and the Holocaust in Lithuania through the lens of Western moral philosophy especially the ethics of Emmanuel Levinas The Holocaust appears not as an abstract event but as a real situation involving real choices real actions of real people In rethinking moral problems and dilemmas the volume draws on various diaries written in the Vilnius and Kaunas ghettos as historical testimonies These sources reveal in all their concreteness the fragility of human freedom the difficulty of ethical choice and the vulnerability of human beings Contributing authors also seek to understand the responsibility of philosophy itself how it is tested and what it has to say when confronted with violence and evil At the far edge of extremity the Holocaust surely tests the limits of our concepts our language and our theoretical and practical paradigms The evil of the Holocaust after all is not a theoretical or hypothetical question but rather concerns the concrete death of millions of people No doubt the Holocaust is a tragedy suffered by the Jewish people but it is as well a traumatic event for all humanity it is our issue

Lesch, 2022 In an age of declining religiosity and rising nationalism how can we form strong social bonds without racism demagoguery and xenophobia In *Solidarity in a Secular Age* Charles H. T. Lesch responds to this question by narrating an untold story of European political theology and spotlighting a neglected strand of modern Jewish philosophy to propose a new theory of liberal democratic solidarity Radically revising political theory's relationship to religion he challenges us to rethink and rebuild our social bond

Speaking Politically Eleni Philippou, 2021-04-21 In this monograph Theodor Adorno's philosophy engages with postcolonial texts and authors that emerge out of situations of political extremity apartheid South Africa war torn Sri Lanka Pinochet's dictatorship and the Greek military junta This book is ground breaking in two key ways first it argues that Adorno can speak to texts with which he is not historically associated and second it uses Adorno's theory to unlock the liberatory potential of authors or novels traditionally understood to be apolitical While addressing Adorno's uneven critical response and dissemination in the Anglophone literary world the book also showcases Adorno's unique reading of the literary text both in terms of its innate historical content and formal aesthetic attributes Such a reading refuses to read postcolonial texts exclusively as political documents a problematic but changing tendency within postcolonial studies In short the book operates as a two way conversation asking What can Adorno's concepts give to certain literary texts but also reciprocally What can those texts give

to our conventional understanding of Adorno and his applicability This book is an act of rethinking the literary in Adornian terms and rethinking Adorno through the literary *Evil and Human Agency* Arne Johan Vetlesen, 2005-12-01 Evil is a poorly understood phenomenon In this provocative 2005 book Professor Vetlesen argues that to do evil is to intentionally inflict pain on another human being against his or her will and causing serious and foreseeable harm Vetlesen investigates why and in what sort of circumstances such a desire arises and how it is channeled or exploited into collective evil doing He argues that such evil doing pitting whole groups against each other springs from a combination of character situation and social structure By combining a philosophical approach inspired by Hannah Arendt a psychological approach inspired by C Fred Alford and a sociological approach inspired by Zygmunt Bauman and bringing these to bear on the Holocaust and ethnic cleansing in the former Yugoslavia Vetlesen shows how closely perpetrators victims and bystanders interact and how aspects of human agency are recognized denied and projected by different agents **On the Arab Revolts and the Iranian**

Revolution Arshin Adib-Moghaddam, 2013-10-10 On the Arab Revolts and the Iranian Revolution Power and Resistance Today is the first comparative analysis of two central political events that have altered our world forever the Arab uprisings which started in Tunisia and the Iranian revolution in 1979 Adib Moghaddam demonstrates how contemporary forms of protest are changing our understanding about the way power and resistance function In a theoretical tour de force which is substantiated with a range of primary material he argues that acts of protest in Tehran to Cairo can be entirely linked to the same act in New York London Madrid and Athens Breaking through the east west north south divide Adib Moghaddam shows how the Arab revolts promise to shift the discourse away from the idea that Arabs and Muslims are peculiar that Middle Eastern Studies cannot be linked to political theory that the dynamics of rebellion there are fundamentally different from the politics of revolt here Adib Moghaddam argues that the dialectics of power and resistance are truly universal and that they are unfolding within a globalised political context that is increasingly interconnected In order to illuminate this argument theoretically the study is organised around conceptual terms that feed into forms of power and resistance such as revolution radicalism dissent knowledge neighbour and reform These terms and concepts are discussed and deconstructed via an empirical discussion of pivotal events beyond the non western world demonstrating that for a long time and without realising it we have been living in the end times of unitary categories such as west and east **The Worldliness of a Cosmopolitan**

Education William F. Pinar, 2009-08-04 Pinar positions himself against three pressing problems of the profession the crime of collectivism that identity politics commits the devaluation of academic knowledge by the programmatic preoccupations of teacher education and the effacement of educational experience by standardized testing A cosmopolitan curriculum Pinar argues juxtaposes the abstract and the concrete the collective and the individual history and biography politics and art public service and private passion Such a curriculum provides passages between the subjective and the social and in so doing engenders that worldliness a cosmopolitan education invites Such worldliness is vividly discernible in the lives of three heroic

individuals Jane Addams 1860 1935 Laura Bragg 1881 1978 and Pier Paolo Pasolini 1922 1975 What these disparate individuals demonstrate is the centrality of subjectivity in the cultivation of cosmopolitanism Subjectivity takes form in the world and the world is itself reconstructed by subjectivity's engagement with it In this intriguing thought provoking and nuanced work Pinar outlines a cosmopolitan curriculum focused on passionate lives in public service providing one set of answers to how the field accepts and attends to the inextricably interwoven relations among intellectual rigor scholarly erudition and intense but variegated engagement with the world

and futile world and more infest the story not unlike the Baobab trees dreaded by the little prince Those already familiar with The Little Prince will find in The Anguished and the Enchanted a new way of regarding what has perhaps become a favorite or even a beloved book Those unfamiliar with the original work will discover a sometimes tragic sometimes sympathetic sometimes harrowing account of the lengths to which persons will go in their struggle to find or to escape from meaningful places for themselves in the world of adults
