Mary MacLeod Rivett,2021-09-01 A well researched guide covering all facets of island life perfect for anyone looking to diversify their knowledge of Scottish history Scottish Field The Outer Hebrides lie forty miles to the west of mainland Scotland forming a barrier to the North Atlantic Culturally distinct from early prehistory the islands contain a wealth of historical and archaeological monuments including the standing stones at Callanish the magnificent St Clement's church at Rodal as well as numerous brochs castles Pitish houses croft houses and industrial and military buildings In addition to descriptions of key historic sites from prehistory onwards and gazetteers covering every place of historical interest this book also traces the development of the modern environment and landscape of the islands enabling the visitor to appreciate the sites within their historical and cultural context In short this is an excellent and informative book one which I suspect many people will carry in the glove compartment of their car while driving north or south through these islands Stornoway Gazette

Cladh Hallan - Roundhouses and the dead in the Hebridean Bronze Age and Iron Age Mike Parker Pearson, Jacqui Mulville, Helen Smith, Peter Marshall, 2021-10-31 This first of two volumes presents the archaeological evidence of a long sequence of settlement and funerary activity from the Beaker period Early Bronze Age c 2000 BC to the Early Iron Age c 500 BC at the unusually long occupied site of Cladh Hallan on South Uist in the Western Isles of Scotland Particular highlights of its sequence are a cremation burial ground and pyre site of the 18th 16th centuries BC and a row of three Late Bronze Age sunken floored roundhouses constructed in the 10th century BC Beneath these roundhouses four inhumation graves contained skeletons two of which were remains of composite collections of body parts with evidence for post mortem soft tissue preservation prior to burial They have proved to be the first evidence for mummification in Bronze Age Britain Cladh Hallan's remarkable stratigraphic sequence preserved in the machair sand of South Uist includes a unique 500 year sequence of roundhouse life in Late Bronze Age and Iron Age Britain One of the most important results of the excavation has come from intensive environmental and micro debris sampling of house floors and outdoor areas to recover patterns of discard and to interpret the spatial use of 15 domestic interiors from the Late Bronze Age to the Early Iron Age From Cladh Hallan's roundhouse floors we gain intimate insights into how daily life was organized within the house where people cooked ate worked and slept Such evidence rarely survives from prehistoric houses in Britain or Europe and the results make a profound contribution to long running debates about the sunwise organisation of roundhouse activities Activity at Cladh Hallan ended with the construction and abandonment of two unusual double roundhouses in the Early Iron Age One appears to have been a smokery and steam room and the other was used for metalworking

Archaeology Is Anthropology S. Gillespie, 2012-04-17 Archaeology and anthropology have come a long way in the past half century and the 1950s thinking concerning the relationship between the two is increasingly considered irrelevant However the placement of archaeology within the discipline of anthropology has always been uneasy and was just as much a half century and more ago as it is now Is archaeology only now on the brink of divorce after decades of pleas for mutual respect and cooperation have finally proven inadequate Watson 1995 Is separation the only alternative left to sustain and further archaeology and to finally shake off a second class status to sociocultural anthropology that archaeologists have long contested Willey and Sabloff 1993 152 In what sense can we profess that archaeology is still anthropology This volume evaluates the reasons proffered for separation against those in favor of maintaining the identity and practice of archaeologists as anthropologists Arguments for the separation of archaeology from the discipline of which it has been a part for over a century take several different forms weighing various intellectual factors historical methodological and theoretical Recent changes in the practice of archaeology and in the organization of professional societies must also be considered

The Iron Age in Northern Britain Dennis W. Harding, 2004-08-26 The Iron Age in Northern Britain examines the impact of the Roman expansion northwards and the native response to the Roman occupation on both sides of the frontiers It traces the emergence of historically recorded communities in the post Roman period and looks at the clash of cultures between Celts and Romans Picts and Scots Northern Britain has too often been seen as peripheral to a core located in south eastern England Unlike the Iron Age in southern Britain the story of which can be conveniently terminated with the Roman conquest the Iron Age in northern Britain has no such horizon to mark its end The Roman presence in southern and eastern Scotland was militarily intermittent and left untouched large tracts of Atlantic Scotland for which there is a rich legacy of Iron Age settlement continuing from the mid first millennium BC to the period of Norse settlement in the late first millennium AD Here D W Harding shows that northern Britain was not peripheral in the Iron Age it simply belonged to an Atlantic European mainstream different from southern England and its immediate continental neighbours

Francis Thompson,1988-09 From the Butt of Lewis in the north to Barra Head in the south the Western Islands form a unique part of Scotland a rocky chain of islands 130 miles long cut off from the Mainland by the Minch as effectively as the Channel separates Britain as a whole from the rest of Europe Despite their diversity in history and landscape Harris and Lewis North and South Uist Benbecula Barra and the smaller islands have been united by the struggle against a sometimes harsh environment and the first to maintain their independent economic and cultural identity whether against the Fife Adventurers in 1598 or the land clearances of Victorian times which saw so many superfluous Islanders dispatched overseas But The Western Islands of Scotland is not a nostalgic look at a people in retreat Illustrated with outstanding color and black and white photographs which emphasize the megaliths castles crafts and seamanship Francis Thompson records a linguistic and cultural heritage which is now staging a forceful comeback after centuries of retreat Many famous names have had connections with the Islands MacAulay and Gladstone among them while the traditions of the folktale and the ceilidh

continue to produce successors to the Gaelic bard Ian Lom and the storyteller Donald MacPhee Francis Thompson concludes with a look at the appeal of the Islands to outsiders many of whom are attracted to crofting as a self sufficient green form of farming *The Cambridge World History of Food* Kenneth F.
