L'histoire Secrète Des Ballets Rubes:

Dynastic Marriages 1612/1615 Margaret M. McGowan, 2016-04-29 The union of the two royal houses the Habsburgs and the Bourbons in the early seventeenth century illustrates the extent to which marriage was a tool of government in Renaissance Europe and festivals a manifestation of power and cultural superiority With contributions from scholars representing a range of disciplines this volume provides an all round view of the sequence of festivals and events surrounding the dynastic marriages which were agreed upon in 1612 but not celebrated until 1615 owing to the constant interruption of festivities by protestant uprisings The occasion inspired an extraordinary range of records from exchanges of political pamphlets descriptions of festivities visual materials the music of songs and ballets and the impressions of witnesses and participants The study of these remarkable sources shows how a team of scholars from diverse disciplines can bring into focus again the creative genius of artists painters architects and costume designers musicians and poets experts in equestrianism in pyrotechnics and in the use of symbolic languages Their artistic efforts were staged against a background of intense political diplomacy and continuing civil strife and yet the determination of Marie de Médicis and her advisers and of the Duke of Lerma brought to a triumphant conclusion negotiations and spectacular commemorations whose legacy was to inform festival art throughout European courts for decades In addition to printed and manuscript sources the volume identifies ways of giving future researchers access to festival texts and studies through digitization making the book both an in depth analysis of a particular occasion and a blueprint for future engagement with digital festival resources

The Ballets of Maurice Ravel Deborah Mawer, 2017-07-05 Maurice Ravel as composer and scenario writer collaborated with some of the greatest ballet directors choreographers designers and dancers of his time including Diaghilev Ida Rubinstein Benois and Nijinsky In this book the first study dedicated to Ravel's ballets Deborah Mawer explores these relationships and argues that ballet music should not be regarded in isolation from its associated arts Indeed Ravel's views on ballet and other stage works privilege a synthesized aesthetic The first chapter establishes a historical and critical context for Ravel's scores engaging en route with multimedia theory Six main ballets from *Daphnis et Chloé* through to *Bolshoi* are considered holistically alongside themes such as childhood fantasy waltzing and neoclassicism Each work is examined in terms of its evolution premiere critical reception and reinterpretation through to the present new findings result from primary source research undertaken especially in Paris The final chapter discusses the reasons for Ravel's collaborations and the strengths and weaknesses of his interpersonal relations Mawer emphasizes the importance of the performative dimension in realizing Ravel's achievement and proposes that the composer's large scale oeuvre can in a sense be viewed as a balletic undertaking In so doing this book adds significantly to current research interest in artistic production and interplay in early twentieth century Paris
