Liang Chi Chao And Modern Chinese Liberalism:

Liang Chi-chao and Modern Chinese Liberalism Philip C. Huang, 1972 *The Discourse of Race in Modern China* Frank Dikötter, 2015 Dikötter writes accessible history and has won the prestigious BBC Samuel Johnson Prize for his book *Mao's Great Famine*. The author shows how and why notions of race became so widespread in China now updated to include the continuation of this trend into the twenty-first century. He examines how Western notions of scientific racism have played out in China.

Unmasking Ideology in Imperial and Colonial Archaeology Bonnie Effros, Guolong Lai, 2018-12-31 This volume addresses the entanglement between archaeology, imperialism, colonialism, capitalism, and war. Popular sentiment in the West has tended to embrace the adventure rather than ponder the legacy of archaeological explorers. Allegations by imperial powers of discovering archaeological sites or saving world heritage from neglect or destruction have often provided the pretext for expanding political influence. Consequently, citizens have often fallen victim to the imperial war machine, seeing their lands confiscated, their artifacts looted, and the ancient remains in their midst commercialized. Spanning the globe with case studies from East Asia, Siberia, Australia, North and South America, Europe, and Africa, sixteen contributions written by archaeologists, art historians, and historians from four continents offer unusual breadth and depth in the assessment of various claims to patrimonial heritage contextualized by the imperial and colonial ventures of the last two centuries and their postcolonial legacy.

Law and Politics in Modern China Sharron Gu, 2009 This is an original interdisciplinary study of Chinese law, its language, and political institution. Evolving within a complex literary framework over thousands of years, Chinese language has lost its conceptual distinctiveness to its multilevel and overlapping meanings and connotations. Chinese law has become inflated with contrary rulings and exceptions. This mass of rules requires an extra-lingual legal authority to redefine boundaries and specify applications. This book follows and continues the author's *The Boundaries of Meaning and the Formation of Law*. McGill University Press, by illustrating how language shapes the formation, application, and administration of law in various cultural environments. *Law and Politics in Modern China* is an important book for those interested in Chinese history, culture, law, and politics. It also provides refreshing insights about the way that law continues to function after its language matures and creates contradictions and loopholes within its system of rules, one of the most important issues facing Western legal administration in the immediate future.

Asia and the Great War Guoqi Xu, 2017 There is no single volume that shines a light on Asia's collective involvement in the First World War and the impact that war had on its societies. Moreover, no volume in any language explores the experiences Asian countries shared as they became embroiled with divergent results in the war and its repercussions. *Asia and the Great War* moves beyond the national or even international level by presenting a shared history from non-national and transnational perspectives. Asian involvements make the Great War not only a true world war but also a great war. The war generated forces that would transform Asia both internally and externally. Asian involvement in the First World War is a unique chapter in both Asian and world history with

Asian participation transforming the meaning and implications of the broader conflict Asia and the Great War also takes steps to recover memories of the war and re evaluate the war in its Asian contexts Asia s part in the war and the part the war played in the collective development of Asia represent the first steps of the long journey to full national independence and international recognition This volume aims to bring the Great War more fully into Asian history and the people of Asia into the international history of the war in the hope that the shared history could lay the groundwork for a shared future What the Rest Think of the West Laura Nader,2015-09-08 Over the past few centuries as Western civilization has enjoyed an expansive and flexible geographic domain Westerners have observed other cultures with little interest in a return gaze In turn these other civilizations have been similarly disinclined when they have held sway Clearly though an external frame of reference outstrips introspection we cannot see ourselves as others see us Unprecedented in its scope What the Rest Think of the West provides a rich historical look through the eyes of outsiders as they survey and scrutinize the politics science technology religion family practices and gender roles of civilizations not their own The book emphasizes the broader figurative meaning of looking west in the scope of history Focusing on four civilizations Islamic Japanese Chinese and South Asian Nader has collected observations made over centuries by scholars diplomats missionaries travelers merchants and students reflecting upon their own Wests These writings derive from a range of purposes and perspectives such as the seventh century Chinese Buddhist who goes west to India the missionary from Baghdad who travels up the Volga in the tenth century and meets the Vikings and the Egyptian imam who in 1826 is sent to Paris to study the French The accounts variously express critique adoration admiration and fear and are sometimes humorous occasionally disturbing at times controversial and always enlightening With informative introductions to each of the selections Laura Nader initiates conversations about the power of representational practices *Changing Meanings of Citizenship in Modern China* Merle Goldman,Elizabeth J. Perry,2002-06-30 This collection of essays addresses the meaning and practice of political citizenship in China over the past century raising the question of whether reform initiatives in citizenship imply movement toward increased democratization After slow but steady moves toward a new conception of citizenship before 1949 there was a nearly complete reversal during the Mao regime with a gradual reemergence beginning in the Deng era of concerns with the political rights as well as the duties of citizens The distinguished contributors to this volume address how citizenship has been understood in China from the late imperial era to the present day the processes by which citizenship has been fostered or undermined the influence of the government the different development of citizenship in mainland China and Taiwan and the prospects of strengthening citizens rights in contemporary China Valuable for its century long perspective and for placing the historical patterns of Chinese citizenship within the context of European and American experiences *Changing Meanings of Citizenship in Modern China* investigates a critical issue for contemporary Chinese society **Signposts of Self-Realization** Xinmin Liu,2014-02-20 In *Signposts of Self Realization* Xinmin Liu offers an ontological study of education

and development of the individual self through the prisms of ethical progress and social evolution in the context of modern Chinese literature and film Did self realization in the Chinese modern follow the law of Social Darwinism the biggest ego always won out Is individualism always self regarding never other regarding How did the Greater I evolve out of the Lesser I socially and ethically Confronting these questions the author navigates through the terrains of paraphrastic translation Buddhist nonself lyrical epiphany redemptive memory and ethnic orality to map out an alternative path for the growth of a modern Chinese self

A Chinese Reformer in Exile Robert L. Worden,Jane Leung Larson,2025-01-27 A Chinese Reformer in Exile is an encyclopaedic reference work documenting the exile years of imperial China s most famous

reformer Kang Youwei and the political organization he mobilized in North America and worldwide to transform China's autocratic empire into a constitutional monarchy. Chinese in Canada, the United States, and Mexico formed at least 160 Chinese Empire Reform Association chapters incorporating schools, newspapers, military academies, women's associations, businesses, and political pressure campaigns. Based on Robert Worden's 1972 Georgetown University Ph.D. dissertation, a multinational team of historians contribute new insights from 50 years of additional scholarship and previously unknown archival materials.

The Middle Kingdom Under the Big Sky Mark T. Johnson, 2022-05-2023 Caroline Bancroft History Prize from the Denver Public Library 2023 WHA W Turrentine Jackson Award. From the earliest days of non-Native settlement of Montana, when Chinese immigrants made up more than 10 percent of the territory's population, Chinese pioneers played a key role in the region's development. But this population so crucial to Montana's history remains underrepresented in historical accounts, and popular attention to the Chinese in Montana tends to focus on sensational elements, exoticizing Chinese Montanans and distancing their lived experiences from our modern understanding. *The Middle Kingdom under the Big Sky* seeks to recover the stories of Montana's Chinese population in their own words and deepen understanding of Chinese experiences in Montana by using a global lens. Mark T. Johnson has mined several large collections of primary documents left by Chinese pioneers, translated into English here for the first time. These collections, spanning the 1880s through the 1950s, provide insight into the pressures the Chinese community faced from family members back in China and from non-Chinese Montanans, as economic and cultural disturbances complicated acceptance of Chinese residents in the state. Through their own voices, Johnson reveals the agency of Chinese Montanans in the history of the American West and China.

Ethnic Relations and Nation-Building in Southeast Asia Leo Suryadinata, 2004. Ethnic racial relations have been a perennial theme in Southeast Asian studies. Current events have highlighted the tensions among ethnic groups and the need to maintain ethnic racial harmony for national unity. This book analyses ethnic race relations in Singapore, Malaysia, and Indonesia, with special reference to the roles of ethnic Chinese in nation building. It brings together a group of established Southeast Asian scholars to critically examine some of the important issues, such as ethnic politics, nation building, state policies, and conflict resolution. These scholars, of different ethnic origins, present their own ethnic perspectives and hence make the book unique. This is the most up-to-date book on ethnic racial relations, with special reference to the ethnic Chinese in three Southeast Asian countries.

Contemporary Studies on Modern Chinese History III Zeng Yeying, 2021-03-14. The study of modern Chinese history has developed rapidly in recent decades and has seen increased exploration of new topics and innovative approaches. Resulting from a special issue of *Modern Chinese History Studies*, this volume is devoted to showcasing the healthy development of Chinese modern history studies and has already been revised twice in the original language. This three-volume set exhibits major achievements in the study of modern Chinese history and shows how the role of history has been in debate, transformation, and re-evaluation throughout this tortuous yet prosperous

period This volume investigates the critical movements such as the Taiping Heavenly Kingdom Movement and the Chinese People's War of Resistance against Japanese aggression that contribute to the establishment of the People's Republic of China In addition it includes valuable summaries of various perspectives in modern Chinese history studies such as the translation of overseas studies and pioneering topics that historians have examined between 2009 and 2019 This book will benefit scholars and students of Chinese history especially those who are interested in modern Chinese history **Framed for Posterity** Ralph Ketcham,1993 Ketcham delves not only into the meaning of the documents but also into the

Davidann,2018-07-11 The goal of this project is to locate the origins and development of modern thought in the United States and East Asia in the late nineteenth and early twentieth century While a strong literature on post war modernization exists there is a gap in the pre war origins and development of modern ideas This book re evaluates the influence of the United States on East Asia in the twentieth century and gives greater voice to East Asians in the construction of their own ideas of modernity **Cultural Transfers in Dispute** Jörg Feuchter,Friedhelm Hoffmann,Bee Yun,2011-08-08 Kulturen sind keine

voneinander isolierten Gebilde sie durchdringen und beeinflussen sich gegenseitig Beschreibungen solchen Kulturtransfers sind dabei immer wertend geschehen sie doch stets selbst von einem kulturellen Standpunkt aus Anhand konkreter Beispiele untersucht der Band kontroverse Wahrnehmungen und Darstellungen von Kulturtransfer in und zwischen Asien Europa und der arabischen Welt In allen drei Weltregionen spielen die behandelten Repräsentationen eine bedeutende Rolle bei der Bestimmung von eigener und fremder Kultur Confucian Liberalism Roy Tseng,2023-01-01 Does Confucianism conflict

with liberalism Confucian Liberalism sheds new light on this long standing debate entwined with the discourse of Chinese modernity Focusing on the legacy of Mou Zongsan the book significantly recasts the moral character and political ideal of Confucianism accompanied by a Hegelian retreatment of the multiple facets of Western modernity and its core values such as individuality self realization democracy civilized society citizenship public good freedom and human rights The book offers a culturally sensitive way of reevaluating liberal language and forges a reconciliation between the two extremes of anti Confucian liberalism and anti liberal Confucianism The result Confucian liberalism is akin to civil liberalism in that it rests the form of liberal democracy on the content of Confucian democratic civility It is also comparable to perfectionist liberalism endorsing a nondominant concept of the common good surrounded by a set of Confucian governing and civic virtues
