Young,2017-02-23 The Internet brings opportunity and peril for media freedom and freedom of expression It enables new forms of publication and extends the reach of traditional publishers but its power increases the potential damage of harmful speech and invites state regulation and censorship as well as manipulation by private and commercial interests In jurisdictions around the world courts lawmakers and regulators grapple with these contradictions and challenges in different ways with different goals in mind The media law reforms they are adopting or considering contain crucial lessons for those forming their own responses or who seek to understand how technology is driving such rapid change in how information and opinion are distributed or restricted In this book many of the world s leading authorities examine the emerging landscape of reform in nations with variable political and legal contexts They analyse developments particularly through the prisms of defamation and media regulation but also explore the impact of technology on privacy law and national security Whether as jurists lawmakers legal practitioners or scholars they are at the front lines of a story of epic change in how and why the Internet is changing the nature and raising the stakes of 21st century communication and expression Reactions to Revolutions Ulrich Broich,2007 The outbreak of revolution in Paris in 1789 forced Britain into a political and military conflict that had a profound impact on politics economy public discourse and cultural life well into the 19th century The essays collected here examine the various responses to the revolution and the significant changes wrought within Britain by the events Some essays discuss the ideological divisions within Britain and Ireland Others take a closer look at the media and the debate on the press and reinvestigate responses to the revolution by prominent contemporaries such as William Godwin Dugald Stewart and William Wordsworth **Comparative Defamation and Privacy Law** Andrew T. Kenyon,2016-04-21 Defamation and privacy are now two central issues in media law While defamation law has long posed concerns for media publications the emergence of privacy as a legal challenge has been relatively recent in many common law jurisdictions outside the US A number of jurisdictions have seen recent defamation and privacy law reforms which have often drawn on or reacted against developments elsewhere This timely book examines topical issues in defamation and privacy law focused on media journalism and contemporary communication Aimed at a wide legal audience it brings together leading and emerging analysts of media law to address current and proposed reforms and the impact of changes in communication environments and to re examine basic principles such as harm and free speech This book will be of interest to all those working on commonwealth or US law as well as comparative scholars from wider jurisdictions Imagining the Public in Modern South Asia Brannon Ingram,J. Barton Scott,SherAli K Tareen,2018-02-02 In South Asia as elsewhere the category of the public has come under increased scholarly and popular scrutiny in recent years To better understand this current conjuncture we need a fuller understanding of the specifically South Asian history of the term To that end this book surveys the modern Indian public across multiple historical contexts and sites with contributions from leading scholars of South Asia in anthropology history literary studies and religious studies As a whole this volume highlights the complex genealogies of the public in the

Indian subcontinent during the colonial and postcolonial eras showing in particular how British notions of the public intersected with South Asian forms of publicity Two principal methods or approaches the genealogical and the typological have characterised this scholarship This book suggests more in the mode of genealogy that the category of the public has been closely linked to the sub continental history of political liberalism Also discussed is how the studies collected in this volume challenge some of liberalism s key presuppositions about the public and its relationship to law and religion *The International Encyclopedia of Digital Communication and Society, 3 Volume Set* Charles Steinfield, Shenja van der Graaf, Pieter Ballon, Aphra Kerr, James D.
