## **Liberal Education Critical Essays On Professions Pedagogy And Structure:**

Liberal Education Frederick Stirton Weaver, 1991-01-01 Advocating modest educational reform this book seeks to define more clearly the goals of higher education through a critical appraisal of its nature and promise The four chapters in Part 1 provide an overview of the intellectual and curricular issues of liberal education beginning with a view of academic disciplines as professional organizations and an account of the political and economic challenges that structure faced during the 1970s and 1980s The author then proposes a redefinition of liberal education as critical inquiry education and discusses the curricular and pedagogical principles embodied in such an approach

General Education and the Development of Global Citizenship in Hong Kong, Taiwan and Mainland China Jun Xing, 2013 General Education has taken center stage in the greater China area Hong Kong Taiwan and mainland China because of a number of important developments First globalization has created both opportunities and challenges for college students When they graduate and enter the real world they must have the cultural sensitivities and social skills in addition to their professional training to compete in a knowledge based global economy Equally significant for institutions of higher education pressing global problems challenge traditional disciplines and demand new forms of learning that reshapes the boundaries of knowledge In response to those rapidly changing dynamics general education has taken an increasingly important role in undergraduate education As the first English publication on the subject this anthology brings together a distinguished group of General Education scholars and teachers from Hong Kong Taiwan and mainland China

Liberal Arts Education in a Changing Society You Guo Jiang, 2014-12-16 In *Liberal Arts Education in a Changing Society A New Perspective on Chinese Higher Education* You Guo Jiang S J provides a unique focus on the re emergence of liberal arts education in China This is the first book that explores in depth the development of liberal arts education in China Through the extensive use of first hand materials relating to the liberal arts and current viewpoints of Chinese scholars and higher education leaders Jiang concludes that China must implement a good liberal arts education program to form responsible global citizens

*Values in Conflict* Paul Axelrod, 2002 An impassioned defence of the liberal arts

*Cautionary Tales in the Ethics of Lifelong Learning Policy and Management* Richard G. Bagnall, 2004-05-31 This work is concerned with appraising the contemporary ethical impact of lifelong learning ideology and advocacy on education through focusing on trends in educational policy and management that flow from the ideology It has its origins in the author's concern that many of those trends are being defined and promoted or opposed without an adequate understanding of their ethical dimensions The 21 trends examined in this work are seen as defining important dimensions of the quite radical changes in educational policy and management that are flowing from the practical realisation of lifelong learning ideology and advocacy In here evaluating those trends from an ethical perspective the thesis is developed that they lead inevitably to distinctive ethical dilemmas or tensions in the lived experience of educational participants The dilemmas though are not seen as realities that can intelligently be either avoided or resolved They are

rather inescapable features of the trends although they and the experience of them may be managed intelligently to a greater or lesser extent This analysis is premised on the belief that an understanding of the dilemmas may be of practical value in assisting educators and policy makers and managers to live and work more intelligently with them and to better manage the educational changes that are defined by the trends It may thereby contribute to moderating the excesses sillinesses and inanities so often evident in the directing and managing of reforms associated with the trends and to reduce the anguish and pain associated with them      **Accountants' Use of Liberal Education in Professional Practice** Timothy C. Mulder, 1997
