James Ronald Stanfield

Liberal Economics Democracy Keynes Galbraith Thurow Reich:

Liberal Economics and Democracy Conrad Waligorski, 1997 Waligorski shows why there is such resilience and viability to this brand of liberalism The chapter on Keynes is as good a short piece on the economist as can be found anywhere Kenneth M Dolbeare author of *American Political Thought* A coherent and insightful book by a sagacious thinker Charles E Lindblom author of *Politics and Markets* John Kenneth Galbraith James Ronald Stanfield, 2016-04-30 This book examines the life and work of John Kenneth Galbraith a truly iconic figure in progressive modern liberalism and a seminal influence in the rise of heterodox political economy It emphasizes his continuing relevance to the current research of today and to the multifaceted crisis of democratic capitalism *Dialectical Democracy through Christian Thought* D. Brockman, 2016-04-29 *Dialectical Democracy through Christian Thought* offers an accessible yet theologically groundbreaking intervention into the battle over the role of government in the market This book shows that the fight over policy involves a fundamental disagreement about who we are as human beings independent individuals or essentially social creatures *John Kenneth Galbraith* Conrad Waligorski, 2006-06-08 This work examines the economist John Kenneth Galbraith through the unique lense of political theory Waligorski illustrates the continuing link between politics and economics in American political discourse by locating Galbraith in a framework of liberal and conservative theo **Liberalism Versus Conservatism** François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what to these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title an author **Comparative Perspectives on the Substance of EU Democracy Promotion** Anne Wetzel, Jan Orbie, Fabienne Bossuyt, 2017-10-02 This book examines the substance of European Union EU democracy promotion by comparing it with norms of governance that other international actors promote among them the United Nations the United States the Central and East European EU member states Russia China and non governmental organizations It aims is to gain a better understanding of the EU s democracy promotion agenda and to learn more about the in distinctiveness of the norms diffused by the EU Building on a common conceptual chapter the contributions follow different theoretical approaches and research designs and focus on a diversity of case studies The book concludes that in comparison with other international actors the EU s conceptual approach to democracy promotion is diffuse which in turn makes the EU a particularly flexible but also technical democracy promoter when it comes to implementation At the same time there are limits to flexibility at the level of concepts and frames This

indicates a distinct character of the substance of EU democracy promotion which can be linked to the nature of the EU polity

This book was published as a special issue of the Cambridge Review of International Affairs **The Neoliberal Revolution**

Richard Robison, 2006-03-28 The book examines the rise of the amalgam of economic and political ideas we know as neo liberalism and how these became the defining orthodoxy of our times It investigates the inexorable global spread of market economies and how neo liberal agendas are accommodated or hijacked in collisions with authoritarian states and populist oligarchies **Democratic Futures** Milja Kurki, 2013 This text explains the different models of democracy and the varied approaches taken by a number of international actors to promote or impose democratic and economic reform **Capitalist Development and Economism in East Asia** Kui-Wai Li, 2003-08-29 Taking a conceptual approach this book studies the economic development of the four East Asian economies since 1950 The author summarizes and reconsiders many of the arguments and findings that supported and explained the economic miracles of Hong Kong Singapore Taiwan and South Korea analysing the relationship between economic development growth and political economy This pioneering book will stimulate further analysis of East Asian development It will be of essential interest to scholars in East Asian economics and all those interested in modern economic development **More** Robert M. Collins, 2002-04-04 James Carville famously reminded Bill Clinton throughout 1992 that it s the economy stupid Yet for the last forty years historians of modern America have ignored the economy to focus on cultural social and political themes from the birth of modern feminism to the fall of the Berlin Wall Now a scholar has stepped forward to place the economy back in its rightful place at the center of his historical narrative In **More** Robert M Collins reexamines the history of the United States from Franklin Delano Roosevelt to Bill Clinton focusing on the federal government s determined pursuit of economic growth After tracing the emergence of growth as a priority during FDR s presidency Collins explores the record of successive administrations highlighting both their success in fostering growth and its partisan uses Collins reveals that the obsession with growth appears not only as a matter of policy but as an expression of Cold War ideology both a means to pay for the arms build up and proof of the superiority of the United States market economy But under Johnson this enthusiasm sparked a crisis spending on Vietnam unleashed runaway inflation while the nation struggled with the moral consequences of its prosperity reflected in books such as John Kenneth Galbraith s *The Affluent Society* and Rachel Carson s *Silent Spring* **More** continues up to the end of the 1990s as Collins explains the real impact of Reagan s policies and astutely assesses Clinton s disciplined growthmanship which combined deficit reduction and a relaxed but watchful monetary policy by the Federal Reserve Writing with eloquence and analytical clarity Robert M Collins offers a startlingly new framework for understanding the history of postwar America
