*Liberalism and the Origins of European Social Theory* Steven Seidman, 1983-01-01     [Liberalism and the Origins of European Social Theory](#) Steven Seidman, 1983-01-01     *Liberalism and the Origins of European Social Theory* Steven Seidman, 1983-01-01     *Alienation and Emancipation in the Work of Karl Marx* George C. Comninel, 2018-08-18 This book considers Karl Marx's ideas in relation to the social and political context in which he lived and wrote. It emphasizes both the continuity of his commitment to the cause of full human emancipation and the role of his critique of political economy in conceiving history to be the history of class struggles. The book follows his developing ideas from before he encountered political economy through the politics of 1848 and the Bonapartist farce, the maturation of the critique of political economy in the *Grundrisse* and *Capital* and his engagement with the politics of the First International and the legacy of the Paris Commune. Notwithstanding errors in historical judgment largely reflecting the influence of dominant liberal historiography, Marx laid the foundations for a new social theory premised upon the historical consequences of alienation and the potential for human freedom.     *Classical and Contemporary Social Theory* Tim Delaney, 2016-01-08 Classical and Contemporary Social Theory: Investigation and Application 1 e is the most comprehensive informative social theory book on the market. The title covers multiple schools of thought and applies their ideas to society today. Readers will learn the origins of social theory and understand the role of myriad social revolutions that shaped the course of societies around the world.     *A History and Theory of the Social Sciences* Peter Wagner, 2001-07-17 Divided into two parts, this book examines the train of social theory from the 19th century through to the organization of modernity in relation to ideas of social planning and as contributors to the rationalistic revolution of the golden age of capitalism in the 1950s and 60s. Part two examines key concepts in the social sciences. It begins with some of the broadest concepts used by social scientists: choice, decision, action, and institution, and moves on to examine the collectivist alternative, the concepts of society, culture, and polity, which are often dismissed as untenable by postmodernists today. This is a major contribution to contemporary social theory and provides a host of essential insights into the task of social science today.     *The Lost History of Liberalism* Helena Rosenblatt, 2020-02-04 *The Lost History of Liberalism* challenges our most basic assumptions about a political creed that has become a rallying cry and a term of derision in today's increasingly divided public square. Taking readers from ancient Rome to today, Helena Rosenblatt traces the evolution of the words liberal and liberalism, revealing the heated debates that have taken place over their meaning. In this timely and provocative book, Rosenblatt debunks the popular myth of liberalism as a uniquely Anglo-American tradition centered on individual rights. It was only during the Cold War and America's growing world hegemony that liberalism was refashioned into an American ideology focused so strongly on individual freedoms.     **The World Come of Age** Lilian Calles Barger, 2018-07-02 On November 16, 2017, Pope Francis tweeted: "Poverty is not an accident. It has causes that must be recognized and removed for the good of so many of our brothers and sisters." With this statement and others like

it the first Latin American pope was associated in the minds of many with a stream of theology that swept the Western hemisphere in the 1960s and 70s the movement known as liberation theology Born of chaotic cultural crises in Latin America and the United States liberation theology was a trans American intellectual movement that sought to speak for those parts of society marginalized by modern politics and religion by virtue of race class or sex Led by such revolutionaries as the Peruvian Catholic priest Gustavo Guti rrez the African American theologian James Cone or the feminists Mary Daly and Rosemary Radford Ruether the liberation theology movement sought to bridge the gulf between the religious values of justice and equality and political pragmatism It combined theology with strands of radical politics social theory and the history and experience of subordinated groups to challenge the ideas that underwrite the hierarchical structures of an unjust society Praised by some as a radical return to early Christian ethics and decried by others as a Marxist takeover liberation theology has a wide raging cross sectional history that has previously gone undocumented In *The World Come of Age* Lilian Calles Barger offers for the first time a systematic retelling of the history of liberation theology demonstrating how a group of theologians set the stage for a torrent of new religious activism that challenged the religious and political status quo
