From Rousseau To Lenin Studies In Ideology And Society:

From Rousseau to Lenin Lucio Colletti, 1972 *From Rousseau to Lenin. Studies in ideology and society. Transl. by J. Merrington and J. White*, 1972 From Rousseau to Lenin Lucio Colletti, 1972 This collection of Colletti's 1924 2001 principal Marxist essays will be welcomed by non Italian readers Colletti's concern as a Marxist was twofold to interpret Marxism as profoundly and as flexibly as possible and to investigate the relationships between Marx's thought and that of a number of other thinkers as widely separated in time as Rousseau and Marcuse His thought ranges widely through philosophy history sociology politics and economics without pausing at boundaries Colletti's work from his Marxist period attempted to place the work of Marx in a line of descent that de-emphasizes Hegel while giving a novel focus to the relationship between Marxism and Kant *From Rousseau to Lenin; Studies in Ideology and Society* [Translated from the Italian by John Merrington and Judith White] Lucio Colletti, **Lenin and the Logic of Hegemony** Alan Shandro, 2014-07-10 In *Lenin and the Logic of Hegemony* by means of a careful textual and contextual analysis of the writings of Lenin and his Marxist contemporaries Alan Shandro traces the contours of the anti-metaphysical event identified by Gramsci in Lenin's political practice and theory the emergence of the philosophical fact of hegemony In so doing he effectively disputes conventional caricatures of Lenin's role as a political actor and thinker and unearths the underlying parameters of the concept of hegemony in the class struggle He thereby clarifies the conceptual status of this pervasive but now increasingly elusive notion and the logic of theory and practice at work in it Philosophy after Marx Christoph Henning, 2014-04-17 Christoph Henning writes a concise history of misreadings of Marx in the 20th century Focussing on German philosophy from Heidegger to Habermas he also addresses the influence of Rawls and Neopragmatism subsequently scrutinizing a previous history of Marx interpretations that had served as the premises upon which these later works were based Henning sketches a historical trajectory in which a theory of socialist politics enters the fields of economics sociology critical theory and theology before finally overloaded with intellectually dead freight entering into philosophy In so doing he takes a hermeneutic approach to how misreadings in a specific field proliferate into further misreadings across a variety of fields leading to an accumulation of questionable preconceptions With the recent resurgence of interest in Marx Henning's historical recursions make evident where and how academic Anti-Marxism had previously got it wrong English translation of *Philosophie nach Marx 100 Jahre Marxrezeption und die normative Sozialphilosophie der Gegenwart in der Kritik* Transcript Verlag Bielefeld 2005 **Liberalism and Human Suffering** A. The SAGE Handbook of the Philosophy of Social Sciences Ian C. Jarvie, Jesus Zamora-Bonilla, 2011-02-17. What is the relationship between the social sciences and the natural sciences? Where do today's dominant approaches to doing social science come from? What are the main fissures and debates in contemporary social scientific thought? How are we to make sense of seemingly contrasting approaches to how social scientists find out about the world and justify their claims to have knowledge of it? In this exciting handbook, Ian Jarvie and Jesus Zamora Bonilla have put together a wide-ranging and authoritative overview of the main philosophical currents and traditions at work in the social sciences today. Starting with the history of social scientific thought, this handbook sets out to explore that core fundamentals of social science practice from issues of ontology and epistemology to issues of practical method. Along the way, it investigates such notions as paradigm, empiricism, postmodernism, naturalism, language, agency, power, culture, and causality. Bringing together in one volume leading authorities in the field from around the world, this book will be a must-have for any serious scholar or student of the social sciences.

Social Institutions and the Politics of Recognition: From the Reformation to the French Revolution Tony Burns, 2020-08-19. This second volume continues the story told in the first by focusing on the writings of a selection of seminal thinkers in the seventeenth and eighteenth centuries in England, the German-speaking world, and in France, ending with the debate around the French Revolution of 1789. Tony Burns discusses the work of Thomas Hobbes, John Selden, Sir Matthew Hale, John Locke, Samuel Clarke, Johannes Althusius, Samuel Pufendorf, Gottfried Wilhelm Leibniz, Jean Barbeyrac, the anonymous author of *Militaire philosophe*, Claude Buffier, l'abbé de Saint Pierre, Jean Jacques Burlamaqui, Montesquieu, Jean Jacques Rousseau, l'abbé de Sieyès, Jeremy Bentham, Immanuel Kant, Mary Wollstonecraft, and Claude Henri de Saint-Simon. The author concludes with an analysis of the concept of administration in the writings of Saint-Simon as a point of transition to the discussion of the themes of bureaucracy, technocracy, and managerialism in the third volume.

[Marx and Nature](#) P. Burkett, 1999-02-14. With *Marx and Nature*, Paul Burkett reconstructs Marx's approach to nature, society, and environmental crisis. While recognizing that production is structured by historically developed relations among producers, Marx also insists that production as a social and material process is shaped and constrained by natural conditions, including the natural condition of human bodily existence. Marx's value analysis places him squarely in the camp of the growing number of ecological theorists questioning

the ability of monetary and market based calculations to adequately represent the natural conditions of human production and development Marx, the Young Hegelians, and the Origins of Radical Social Theory Warren Breckman, 2001-02-19 This is the first major study of Marx and the Young Hegelians in twenty years The book offers a new interpretation of Marx's early development the political dimension of Young Hegelianism and that movement's relationship to political and intellectual currents in early nineteenth century Germany Warren Breckman challenges the orthodox distinction drawn between the exclusively religious concerns of Hegelians in the 1830s and the sociopolitical preoccupations of the 1840s He shows that there are inextricable connections between the theological political and social discourses of the Hegelians in the 1830s The book draws together an account of major figures such as Feuerbach and Marx with discussions of lesser known but significant figures such as Eduard Gans August Cieszkowski Moses Hess F W J Schelling as well as such movements as French Saint Simonianism and positive philosophy Wide ranging in scope and synthetic in approach this is an important book for historians of philosophy theology political theory and nineteenth century ideas *The Hegel-Marx Connection* T. Burns, I. Fraser, 2000-07-19 A major and timely re-examination of key areas in the social and political thought of Hegel and Marx The editors' extensive introduction surveys the development of the connection from the Young Hegelians through the main Marxist thinkers to contemporary debates Leading scholars including Terrell Carver Chris Arthur and Gary Browning debate themes such as the nature of the connection itself scientific method political economy the Hegelian basis to Marx's Doctoral Dissertation human needs history and international relations History of Economic Thought E. K. Hunt, Mark Lautzenheiser, 2015-01-28 The new edition of this classroom classic retains the organizing theme of the original text presenting the development of thought within the context of economic history Economic ideas are framed in terms of the spheres of production and circulation with a critical analysis of how past theorists presented their ideas
