Canby, 2002 The era of Safavid rule was a time of religious and political development in Iran when the arts attained new heights of brilliance and architecture flourished This volume deals with Safavid painting and the conservation of works from this period **New Perspectives on Safavid Iran** Colin P. Mitchell, 2011-03-03 Dedicated to the renowned Safavid historian Roger Savory this book brings together a collection of studies on the Safavid state of Iran 1501 1722 from the perspectives of political social literary and artistic history Savory a doyen of Safavid studies in the 1960s and 1970s was responsible for expanding and popularizing the study of Iran in the 16th and 17th century To celebrate this legacy well established scholars of medieval and early modern Iran have contributed specific studies reflecting an array of research interests and specializations which include critical re examinations of issues of gender literature art and architecture cultural and linguistic currents illustrated historical chronicles and courtly and administrative practices under the Safavid dynasty This unique compilation is indicative of a growing interest in Iran and Iranian studies in both the academic and public spheres and as such contains a number of new perspectives which will serve to supplement and re interpret the existing corpus of Safavid scholarly literature to date It will be an important text for

scholars of world history and Middle East studies as well as to historians in general The Persian Miniatures Collection of the Rijksmuseum, A Hidden Treasure Trove Forough Sajadi, 2024-12-09 The present book offers an elaborate art historical study of the collection of Persian miniatures at the Rijksmuseum in Amsterdam The collection includes detached folios which are the most significant in any Dutch collection The artworks catalogued thoroughly in this book for the first time range in date from the thirteenth century until the early twentieth century and cover diverse subject matters The Empires of the Near East and India Hani Khafipour, 2019-05-14 In the early modern world the Safavid Ottoman and Mughal empires sprawled across a vast swath of the earth stretching from the Himalayas to the Indian Ocean to the Mediterranean Sea The diverse and overlapping literate communities that flourished in these three empires left a lasting legacy on the political religious and cultural landscape of the Near East and India This volume is a comprehensive sourcebook of newly translated texts that shed light on the intertwined histories and cultures of these communities presenting a wide range of source material spanning literature philosophy religion politics mysticism and visual art in thematically organized chapters Scholarly essays by leading researchers provide historical context for closer analyses of a lesser known era and a framework for further research and debate The volume aims to provide a new model for the study and teaching of the region's early modern history that stands in contrast to the prevailing trend of examining this interconnected past in isolation *Persian Art* Yuka Kadoi, 2019-07-31 An insightful picture of the expansion of Persian visual culture across wide swathes of Asia from the Indian Ocean to the Mediterranean *Shah Abbas* David Blow, 2014-04-02 Shah Abbas 1571-1629 was shah of Iran from 1588 when he assumed power by deposing his father whom he later murdered until his death in 1629 He is of critical importance in the history of Iran restoring the power of the Safavids through war and the strategic negotiation of peace He is still acclaimed for his strong and decisive rule and the architectural achievements of his reign although he is also recognised as a tyrant whose paranoia probably justified caused him to imprison and assassinate many of his own relatives including his own son ultimately leaving the throne to his grandson Remarkably this is the first biography of Shah Abbas in English On a Persian Throne combines rigorous scholarship with a popular style to produce the definitive accessible and objective biography of this seminal figure in Iranian history The Safavid World Rudi Matthee, 2021-07-21 The Safavid World brings together thirty chapters on many aspects of the complex Safavid state 1501-1722 With the latest insights and arguments some offer overviews of the period or topic at hand and others present new interpretations of old questions based on newly found sources In addition to political history and religious life the chapters in this volume cover economic conditions commercial links and activities social relations and artistic expressions They do so in ways that stretch both the temporal and geographical perimeters of the subject and contributors also examine Safavid Iran with an eye to both its Mongol and Timurid antecedents and its long afterlife following the fall of the dynasty Unlike traditional scholarship which tended to view the country as unique sui generis and barely affected by the outside world The Safavid World situates Iran in a wider

regional or global context Examining the Safavids from their foundations in the fourteenth century to their relations with the rest of the world in the eighteenth century this study is essential reading for undergraduates postgraduates and scholars of the Safavid world and the history and culture of Iran and the Middle East *Isfahan and its Palaces* Sussan

Babaie,2008-07-14 Winner of the Houshang Pourshariati Iranian Studies Book Award 2009This beautifully illustrated history of Safavid Isfahan 1501 1722 explores the architectural and urban forms and networks of socio cultural action that reflected a distinctly early modern and Perso Shi i practice of kingship An immense building campaign initiated in 1590 91 at the millennial threshold of the Islamic calendar 1000 A H transformed Isfahan from a provincial medieval and largely Sunni city into an urban centered representation of the first Imami Shi i empire in the history of Islam The historical process of Shi ification of Safavid Iran and the deployment of the arts in situating the shifts in the politico religious agenda of the imperial household informs Sussan Babaie s study of palatial architecture and urban environments of Isfahan and the earlier capitals of Tabriz and Qazvin Babaie argues that since the Safavid claim presumed the inheritance both of the charisma of the Shi i Imams and of the aura of royal splendor integral to ancient Persian notions of kingship a ceremonial regime was gradually devised in which access and proximity to the shah assumed the contours of an institutionalized form of feasting Talar palaces a new typology in Islamic palatial designs and the urban spatial articulation of access and proximity are the architectural anchors of this argument Cast in the comparative light of urban spaces and palace complexes elsewhere and earlier in the Timurid Ottoman and Mughal realms as well as in the early modern European capitals Safavid Isfahan emerges as the epitome of a new architectural urban paradigm in the early modern age *Safavid Iran* Andrew J. Newman,2012-04-11 The Safavid dynasty which reigned from the late fifteenth to the eighteenth century links medieval with modern Iran The Safavids witnessed wide ranging developments in politics warfare science philosophy religion art and architecture But how did this dynasty manage to produce the longest lasting and most glorious of Iran s Islamic period eras Andrew Newman offers a complete re evaluation of the Safavid place in history as they presided over these extraordinary developments and the wondrous flowering of Iranian culture In the process he dissects the Safavid story from before the 1501 capture of Tabriz by Shah Ismail 1488 1524 the point at which Shiism became the realm s established faith on to the sixteenth and early seventeenth century dominated by Shah Abbas 1587 1629 whose patronage of art and architecture from his capital of Isfahan embodied the Safavid spirit and culminating with the reign of Sultan Husayn reg 1694 1722 Based on meticulous scholarship Newman offers a valuable new interpretation of the rise of the Safavids and their eventual demise in the eighteenth century Safavid Iran with its fresh insights and new research is the definitive single volume work on the subject

Twelver Shiism Andrew J. Newman,2013-11-20 Charts the history and development of Twelver Shi ismAs many as 40 different Shi i groups existed in the 9th and 10th centuries only 3 forms remain Why is Twelver Shi ism one of them As the established faith in modern Iran the majority faith in Iraq and areas in the Gulf and with its adherents forming sizeable

minorities elsewhere in the region it is arguably the most successful branch of Shi'ism. Andrew Newman charts the history of Twelver Shi'ism, uncovering the development of the key distinctive doctrines and practices which ensured its survival in the face of repeated challenges. He argues that the key to the faith's endurance has been its ability to institutionalise responses to the changing, often localised circumstances in which the community has found itself, thereby remaining remarkably resilient in the face of both internal disagreements and external opposition.

Music Theory in the Safavid Era Owen Wright, 2018-10-25 The Safavid era 1501-1722 is one of the most important in the history of Persian culture, celebrated especially for its architecture and art, including miniature paintings that frequently represent singers and instrumentalists. Their presence reflects a sophisticated tradition of music-making that was an integral part of court life, yet it is one that remains little known. For the musicological literature of the period is rather thin. There is, however, a significant exception: the text presented and analysed here, a hitherto unpublished and anonymous theoretical work, probably of the middle of the sixteenth century. With a Sufi background inspiring the use of the *nay* as a tool of theoretical demonstration, it is exceptional in presenting descriptive accounts of the modes then in use and suggesting how these might be arranged in complex sequences. As it also gives an account of the corpus of rhythmic cycles, it provides a unique insight into the basic structures of art music during the first century of Safavid rule.

Rediscovering Objects from Islamic Lands in Enlightenment Europe Isabelle Dolezalek, Mattia Guidetti, 2021-12-30 This book argues that the provenance of early modern and medieval objects from Islamic lands was largely forgotten until the long eighteenth century, when the first efforts were made to reconnect them with the historical contexts in which they were produced. For the first time, these Islamicate objects were read, studied, and classified, and given a new place in history. Freed by scientific interest, they were used in new ways and found new homes, including in museums. More generally, the process of rediscovery opened up the prehistory of the discipline of Islamic art history and had a significant impact on conceptions of cultural boundaries, differences, and identity. The book will be of interest to scholars working in the history of art, the art of the Islamic world, early modern history, and art historiography.

Collecting Inspiration: Edward C. Moore at Tiffany & Co. Medill Higgins Harvey, Andrea Achi, Deniz Beyazit, Monika Bincsik, John Byck, Sheila R. Canby, Maryam Ekhtiar, Moira Gallagher, Kyriaki Karoglou, Christopher S. Lightfoot, Pengliang Lu, Amy McHugh, Iris Moon, Annamarie Sandeck, Karen Stamm, Catherine D. Stergar, 2021-07-06 Edward C. Moore (1827-1891) was the creative leader who brought Tiffany & Co. to unparalleled originality and success during the late nineteenth century. A silversmith, designer, and prodigious collector, Moore sought out exceptional objects from around the world, which he then used as inspiration for Tiffany's innovative silver designs. This informative, richly illustrated volume, the first study of Moore's life, collection, and influence, presents more than 170 examples from his vast collection, ranging from Greek and Roman glass to Spanish vases, Islamic metalwork, and Japanese textiles. These are juxtaposed with sixty magnificent silver objects created

by the designers and artisans at Tiffany who were inspired by Moore's acquisitions. Included among them are the world famous Bryant Vase drawing upon Greek examples a love cup featuring ornate Saracenic decoration and a chocolate pot incorporating novel techniques influenced by Japanese ceramics and lacquerware. The illuminating texts have been enriched by groundbreaking research into contemporary sources such as newspapers and periodicals the Tiffany Co Archives and a newly identified technical manual and supervisor's diaries all of which provide an intimate look at the firm's design processes and Moore's role in shaping them. A valuable contribution to the history of American decorative arts. *Collecting Inspiration* illuminates both the legendary Tiffany aesthetic and the legacy of a significant collector designer and entrepreneur of the Gilded Age. *The Grove Encyclopedia of Islamic Art and Architecture: Mosul to Zhirid* Jonathan M. Bloom, Sheila Blair, 2009 Deals with all aspects of Islamic art and architecture ranging from the Middle East to Africa to Central South and East Asia and includes entries on artists rulers writers ceramics sculpture metalwork painting calligraphy textiles and more. Provided by publisher. *Islam* Cenap Çakmak, 2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity. One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world. With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force. *Islam A Worldwide Encyclopedia* provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time. The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition. Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion. Each entry also features a further readings list for readers. In addition to supplying a comprehensive authoritative overview of Islam this work also specifically addresses many controversial related issues including jihad violence in Islam polygamy and apostasy. *Arts of Asia*, 2006 **The Art of the Shoe** Marie-Josèphe Bossan, 2019-12-09 What is more common than a pair of shoes. In a world where shoes have become an object of mass consumption these accessories are now rid of any significance. The industry has accomplished its duty producing a large quantity at a low price. But there was a time when the shoe symbolised the strength of the Roman legion the power of the Medieval lords or the oppression of the Chinese woman. Its history is both vast and enthralling as revealed by the author Marie Jos phe Bossan. Supporting her analysis with an outstanding iconography the author gives these commonplace objects a universal quality that sheds light on the whole of civilisation and elevates them to the rank of a work of art.
