Golden Arches East:

Golden Arches East James L. Watson, 2006-03-13 McDonald's restaurants are found in over 100 countries serving tens of millions of people each day. What are the cultural implications of this phenomenal success? The widely read and widely acclaimed *Golden Arches East* argues that McDonald's has largely become divorced from its American roots and become a local institution for an entire generation of affluent consumers in Hong Kong, Beijing, Taipei, Seoul, and Tokyo. In the second edition, James L. Watson also covers recent attacks on the fast food chain as a symbol of American imperialism and the company's role in the obesity controversy currently raging in the U.S. food industry, bringing the story of East Asian franchises into the twenty-first century. Praise for the First Edition: *Golden Arches East* is a fascinating study that explores issues of globalization by focusing on the role of McDonald's in five Asian economies and concludes that in many countries McDonald's has been absorbed by local communities and become assimilated so that it is no longer thought of as a foreign restaurant and in some ways no longer functions as one. Nicholas Kristof, New York Times Book Review. This is an important book because it shows accurately and with subtlety how transnational culture emerges. It must be read by anyone interested in globalization. It is concise enough to be used for courses in anthropology and Asian studies. Joseph Bosco, China Journal. The strength of this book is that the contributors contextualize not just the food side of McDonald's but the social and cultural activity on which this culture is embedded. These are culturally rich stories from the anthropology of everyday life. Paul Noguchi, Journal of Asian Studies. Here is the rare academic study that belongs in every library. Library Journal. *Golden Arches East* James L. Watson, 1997. **Fleet Management and Logistics** Teodor G. Crainic, Gilbert Laporte, 1998-06-30. TEODOR GABRIEL CRAINIC, DIRECTOR. The Centre for Research on Transportation (C.R.T.) was founded in 1971 by the Université de Montréal. From 1988 on, it is jointly managed by the Université de Montréal and its affiliated schools, the École des Hautes Études Commerciales and École Polytechnique. Professors, students, and researchers from many institutions in the Montréal area join forces at the C.R.T. to analyze transportation logistics and telecommunication systems from a multidisciplinary perspective. The C.R.T. pursues three major complementary objectives: training of high-level specialists, the advancement of knowledge and technology, the transfer of technology towards industry and the public sector. Its main field of expertise is the development of quantitative and computer-based models and methods for the analysis of urban, regional, and intercity transportation networks as well as telecommunication systems. This applies to the study of passenger and commodity flows as well as to the socioeconomic aspects of transportation policy, regulation, economics. The twenty-fifth anniversary of the C.R.T. offered the opportunity to evaluate past accomplishments and to identify future trends and challenges. Five colloquia were thus organized on major research and application themes that also reflected our main research areas. They gathered together internationally renowned researchers who linked recent scientific and technological advances to modeling and methodological challenges waiting to be tackled, particularly concerning new problems and applica-

tions and the increasingly widespread use of new technologies The McDonaldization of Society 6 George Ritzer, 2011 As one of the most noteworthy and popular sociology books of all time The McDonaldization of Society 6 demonstrates the power of the sociological imagination to 21st century undergraduates in a way that few other books have This engaging work of social criticism is praised for sparking debate in and out of the classroom and for allowing students to read in depth on a small number of fascinating topics and it vividly demonstrates the relevance of Weber's discussion of rationalization the basis of McDonaldization to the everyday life of today's student New and Retained Features Links a large number of social phenomena to McDonaldization some which are directly impacted by the principles of the fast food chain and others where the effect is more tenuous A new final chapter 10 on The DeMcDonaldization of Society examines the processes of deMcDonaldization and concludes that while it is occurring on the surface McDonaldization is alive and well for example in the structures that underlie Web 2.0 Many new and updated examples are from the digital world keeping the text ultimately relevant for the contemporary student reader Addresses the advantages of McDonaldization then focuses on the problems and dangers it poses and looks at efforts to deal with those challenges Examines the link between McDonaldization and globalization Challenges the reader to rethink McDonaldization as part of the structure of society and to act to reverse the trend towards it **The Disneyization of Society** Alan Bryman, 2004-05-18 Alan Bryman has expanded on his

internationally well known work on Disney theme parks and Disneyization to create a fascinating and highly readable book It should prove of interest to beginning students in a number of different courses and fields as well as to scholars interested in culture and consumption There is no question that the model created by Disney and emulated in whole or in part by many organizations and in many settings will continue to influence social structure and culture well into the future This is an important book about a significant social process And it manages to be a fun read as well George Ritzer author of McDonaldization and Professor of Sociology University of Maryland Bryman's analysis of contemporary consumption is full of detail and provides a host of examples ranging from restaurants and hotels to theme parks zoos and sports stadia Without doubt students will find it an accessible text one that should allow them to think about consumption familiar consumer products settings and activities sociologically Barry Smart Professor of Sociology University of Portsmouth Bryman's dissection of Disneyization is a timely and significant contribution to the growing literature on Disney In fact his excellent analysis of the extension of Disneyization throughout society explains why we should care about the Disney phenomenon at all This is not only an important book for Disney scholars but for any one interested in the future of modern society Janet Wasko Professor of Communication Studies University of Oregon This is an agenda setting new work in the sociology of culture and modern society It argues that the contemporary world is increasingly converging towards the characteristics of the Disney theme parks This process of convergence is revealed in the growing influence of themed environments in settings like restaurants shops hotels tourism and zoos the growing trend towards social environments that are driven by

combinations of forms of consumption shopping eating out gambling visiting the cinema watching sports the growth in cachet awarded to brands based on licensed merchandise and the increased prominence of work that is a performance in which the employees have to display certain emotions and generally convey impressions as though working in a theatrical event This insightful book demonstrates the importance of control and surveillance in consumer culture Of interest to a wide variety of students studying in business sociology cultural studies media studies and leisure studies courses this will also be of interest to anybody interested in understanding the intricacies of modern society **Globalization and American**

Popular Culture Lane Crothers,2013 Now in a fully revised and updated edition this concise and insightful book explores the ways American popular products such as movies music television programs fast food sports and even clothing styles have molded and continue to influence modern globalization Lane Crothers offers a thoughtful examination of both the appeal of American products worldwide and the fear and rejection they induce in many people and nations around the world

Concluding with a projection of the future impact of American popular culture this book makes a powerful argument for its central role in shaping global politics and economic development **Fast Food/slow Food** Richard R. Wilk,2006 Wilk and

his colleagues draw upon their own international field experience to examine how food systems are changing around the globe The authors offer a cultural perspective that is missing in other economic and developmental studies and provide rich ethnographic data on markets industrial production and food economies This new book will appeal to professionals in economic and environmental anthropology economic development agricultural economics consumer behavior nutritional sciences environmental sustainability and globalization studies *Labour Relations in the Global Fast-Food Industry* Tony

Royle,Brian Towers,2004-08-02 The fast food industry is one of the few industries that can be described as truly global not least in terms of employment which is estimated at around ten million people worldwide This edited volume is the first of its kind providing an analysis of labour relations in this significant industry focusing on multinational corporations and large national companies in ten countries the USA Canada the UK the Netherlands Germany Australia New Zealand Singapore and Russia The extent to which multinational enterprises impose or adapt their employment practices in differing national industrial relations systems is analysed Results reveal that the global fast food industry is typified by trade union exclusion high labour turnover unskilled work paternalistic management regimes and work organization that allows little scope for developing workers participation in decision making let alone advocating widely accepted concepts of social justice and workers rights *Cries of Joy, Songs of Sorrow* Marc L. Moskowitz,2009-11-24 Since the mid 1990s Taiwan s unique brand

of Mandopop Mandarin Chinese language pop music has dictated the musical tastes of the mainland and the rest of Chinese speaking Asia Cries of Joy Songs of Sorrow explores Mandopop s surprisingly complex cultural implications in Taiwan and the PRC where it has established new gender roles created a vocabulary to express individualism and introduced transnational culture to a country that had closed its doors to the world for twenty years In his early chapters Marc L

Moskowitz provides the historical background necessary to understand the contemporary Mandopop scene beginning with the birth of Chinese popular music in the East Asian jazz Mecca of 1920s Shanghai. A brief overview of alternative musical genres in the PRC such as Beijing rock and revolutionary opera is included. The section concludes with a look at the manner in which Taiwan's musical ethos has influenced the mainland's music industry and how Mandopop has brought Western music and cultural values to the PRC. This leads to a discussion of Taiwan pop's exceptional hybridity beginning with foreign influences during the colonial period under the Dutch and Japanese and continuing with the country's political, cultural, and economic alliance with the U.S. Moskowitz addresses the resulting wealth of transnational musical influences from the rest of East Asia and the U.S. and Taiwan pop's appeal to audiences in both the PRC and Taiwan. In doing so, he explores how Mandopop's songs of sorrow with their ubiquitous themes of loneliness and isolation engage a range of emotional expression that resonates strongly in the PRC. Later chapters examine the construction of male and female identities in Mandopop and look at the widespread condemnation of the genre by critics. Drawing on analyses and data from earlier chapters, including interviews with dozens of performers, songwriters, and lay people in Taipei and Shanghai, Moskowitz attempts to answer the question: Why, if the music is as bad as some assert, is it so central to the lives of the largest population in the world? To answer, he highlights Mandopop's important contribution as a poetic lament that simultaneously embraces and protests modern life. *Cries of Joy: Songs of Sorrow* is a highly readable introduction to an important but understudied East Asian phenomenon. It will find a ready audience among scholars and students of Chinese and Taiwanese popular culture as well as musicologists studying transnational music flows and non-Western popular music.

Global Advertising, Attitudes, and Audiences

Tony Wilson, 2013-09-05. *Global Advertising: Attitudes and Audiences* is a post-McDonaldization view of marketing power, consumer pleasure, and audience protest. The psychological process wherein consumers actively make sense of advertising and branding and integrate them with living is fundamentally important in thinking about their responses to products sold on screen. This wide-ranging book draws on forty years of media and marketing theory to present a precise perception of that process: a seven-stage model of moments in media marketing reception. Local understandings of global branding and marketing content traveling often from West to East is the main focus of *Global Advertising: Attitudes and Audiences*. Drawing from diverse reception studies of creative consumption, Tony Wilson develops a philosophical psychology of purchasing, testing theory against shared consumer responses in online blogospheres and offline interviews. Successive chapters interpret reception of banking, fast food, national telecommunications, and university global branding by Chinese, Indian, and Islamic Malay consumers in multi-cultural Malaysia, an Anglophone gateway to S.E. Asia. These studies are used to illustrate how people view the worlds constructed by product branding.
