Black San Francisco Albert S. Broussard, 1993-04-26 By 1867 black San Franciscans had gained access to public transportation In 1869 they were granted the right to vote by the state of California In 1875 they fought for desegregated schools and won Yet in 1957 Willie Mays was initially denied the opportunity to purchase a home in an exclusive San Francisco neighborhood because he was black In Black San Francisco Albert Broussard explores race relations in a city where whites for the most part were outwardly civil to blacks while denying them employment opportunities and political power Understanding the texture of the racial caste system he argues is critical to understanding why blacks made so little progress in employment housing and politics despite the absence of segregation laws When it came to racial equality in the early twentieth century Broussard argues the liberal progressive image of San Francisco was largely a facade Illustrating how black San Franciscans struggled to achieve equality in the same manner as their counterparts in the Midwest and East he challenges the rhetoric of progress and opportunity with evidence of the reality of inequality for black San Franciscans Black San Francisco is considerably broader in scope than any previous study

of African Americans in the West It provides extensive coverage of the city's black community during the Great Depression and the New Deal details civil rights activities from 1915 to 1954 and provides extensive biographical material on local black leaders In his reconstruction of the plight of San Francisco's black citizens Broussard reveals a population that despite its small size before 1940 did not accept second class citizenship passively yet remained nonviolent into the 1960s He also shows how World War II was a watershed for Black San Francisco bringing thousands of southern migrants to the bay area to work in the war industries These migrants in tandem with native black residents formed coalitions with white liberals to attack racial inequality more vigorously and successfully than at any previous time in San Francisco's history

**Freedom North** J. Theoharis, K. Woodard, 2016-03-05 The civil rights movement occupies a prominent place in popular thinking and scholarly work on post 1945 U S history Yet the dominant narrative of the movement remains that of a nonviolent movement born in the South during the 1950s that emerged triumphant in the early 1960s only to be derailed by the twin forces of Black Power and white backlash when it sought to move outside the South after 1965 African American protest and political movements outside the South appear as ancillary and subsequent to the real movement in the South despite the fact that black activism existed in the North Midwest and West in the 1940s and persisted well into the 1970s This book brings together new scholarship on black social movements outside the South to rethink the civil rights narrative and the place of race in recent history Each chapter focuses on a different location and movement outside the South revealing distinctive forms of U S racism according to place and the varieties of tactics and ideologies that community members used to attack these inequalities to show that the civil rights movement was indeed a national movement for racial justice and liberation

**San Francisco's Queen of Vice** Lisa Riffin, 2017 San Francisco's Queen of Vice uncovers the story of one of the most skilled high priced and corrupt abortion entrepreneurs in America Even as Prohibition was the driving force behind organized crime abortions became the third

largest illegal enterprise as state and federal statutes combined with changing social mores to drive abortionists into hiding Inez Brown Burns a notorious socialite and abortionist in San Francisco made a fortune providing her services to desperate women throughout California Beginning in the 1920s Burns oversaw some 150 000 abortions until her trial and conviction brought her downfall In San Francisco s Queen of Vice Lisa Rigglin tells the story of the rise and fall of San Francisco s abortion queen and explores the rivalry between Burns and the city s newly elected district attorney Edmund G Pat Brown father of the present governor of California Pledging to clean up the graft ridden city Brown exposed the hidden yet not so secret life of backroom deals political payoffs and corrupt city cops Through the arrest prosecution and conviction of Burns Brown used his success as a stepping stone for his political rise to California s governor s mansion Featuring an array of larger than life characters Rigglin shows how Cold War domestic ideology and the national quest to return to a more traditional America quickly developed into a battle against internal decay Based on a combination of newspaper accounts court records and personal interviews San Francisco s Queen of Vice reveals how the drama played out in the life and trial of one of the wealthiest women in California history **Pioneer Urbanites** Douglas Henry Daniels,2023-11-15 The black migration to San Francisco and the Bay Area differed from the mass movement of Southern rural blacks and their families into the eastern industrial cities Those who traveled West or arrived by ship were often independent sophisticated single men Many were associated with the transportation boom following the Gold Rush others traveled as employees of wealthy individuals Douglas Daniels argues for the importance of going beyond the written record and urban statistics in examining the life of a minority community He has studied photographs from family albums and interviewed members of old black San Francisco families in his effort to provide the first nuanced picture of the lives of black San Franciscans from the 1860s to the 1940s The black migration to San Francisco and the Bay Area differed from the mass movement of Southern rural blacks and their families into the eastern industrial cities Those who traveled West or arrived by ship were often independent sophisticated singl The City Trilogy Shi Kuo Chang,2003 Forced into the war to save their remaining territory the indigenous peoples join the Huhui in their continuing struggle against the Shan The Rages of Excess David A. Carpenter,1987 **Making the Mission** Ocean Howell,2015-11-17 In the aftermath of the 1906 San Francisco earthquake residents of the city s iconic Mission District bucked the city wide development plan defiantly announcing that in their neighborhood they would be calling the shots Ever since the Mission has become known as a city within a city and a place where residents have over the last century organized and reorganized themselves to make the neighborhood in their own image In Making the Mission Ocean Howell tells the story of how residents of the Mission District organized to claim the right to plan their own neighborhood and how they mobilized a politics of place and ethnicity to create a strong often racialized identity a pattern that would repeat itself again and again throughout the twentieth century Surveying the perspectives of formal and informal groups city officials and district residents local and federal agencies Howell articulates

how these actors worked with and against one another to establish the very ideas of the public and the public interest as well as to negotiate and renegotiate what the neighborhood wanted In the process he shows that national narratives about how cities grow and change are fundamentally insufficient everything is always shaped by local actors and concerns     The Gateway to the Pacific Meredith Oda,2019-01-03 In the decades following World War II municipal leaders and ordinary citizens embraced San Francisco s identity as the Gateway to the Pacific using it to reimagine and rebuild the city The city became a cosmopolitan center on account of its newfound celebration of its Japanese and other Asian American residents its economy linked with Asia and its favorable location for transpacific partnerships The most conspicuous testament to San Francisco s postwar transpacific connections is the Japanese Cultural and Trade Center in the city s redeveloped Japanese American enclave Focusing on the development of the Center Meredith Oda shows how this multilayered story was embedded within a larger story of the changing institutions and ideas that were shaping the city During these formative decades Oda argues San Francisco s relations with and ideas about Japan were being forged within the intimate local sites of civic and community life This shift took many forms including changes in city leadership new municipal institutions and especially transformations in the built environment Newly friendly relations between Japan and the United States also meant that Japanese Americans found fresh if highly constrained job and community prospects just as the city s African Americans struggled against rising barriers San Francisco s story is an inherently local one but it also a broader story of a city collectively if not cooperatively reimagining its place in a global economy
