The Revival of Atumism: The Ancient Egyptian Religion Part 1 Mostafa Elshamy, 2021-09-19 The word Atumism derives from Atum the manifestation of the All Lord in creating the sphere of earth and the creature Adam The words Atumian and Atumianity addressed here by the meaning of Human and Humanity are derived from Atum who is Adam In the Egyptian literature there is a thin line that differentiates Atum and Atum Why denominate the Egyptian Religion by the term Atumism The answer is found in multitude of diverse notions embedded in the Egyptian speech and makes the term in its profoundness the most right for a religion that has been of divine revelation millennia ahead of A D This book is a fusion of the earlier research titled *Ancient Egypt The Primal Age of Divine Revelation Volume I and II*

Massey,2008-11-01 When roughly classed the myths and legends generally show two points of departure for migrations of the human race as these were rendered in the stellar and solar mythology One is from the summit of the celestial mount the other from the hollow underworld beneath the mount or inside the earth The races that descended from the mount were people of the pole whose starting point in reckoning time was from one or other station of the pole star determinable by its type whether as the tree the rock or other image of a first point of departure Those who ascended from the nether world were of the solar race who came into existence with the sun as it is represented in the legendary lore from The Exodus from Egypt and the Desert of Amenta It goes unappreciated by modern Egyptologists but it is embraced by those who savor the concept of a hidden history of humanity and those who approach all human knowledge from the perspective of the esoteric Gerard Massey s massive Ancient Egypt The Light of the World first published in 1907 and the crowning achievement of the self taught scholar redefines the roots of Christianity via Egypt proposing that Egyptian mythology was the basis for Jewish and Christian beliefs Here Cosimo proudly presents Book 8 of Ancient Egypt in which Massey roots the story of the Hebrew exodus deep in Egyptian legend From wilderness deserts and promised lands of plenty to magical rods and twelve tribes Massey explains how the Hebrew tale descended from the story of Ra Peculiar and profound this work will intrigue and delight readers of history religion and mythology British author GERALD MASSEY 1828 1907 published works of poetry spiritualism Shakespearean criticism and theology but his best known works are in the realm of Egyptology including A Book of the Beginnings and The Natural Genesis **A Guide to the Fourth, Fifth and Sixth Egyptian Rooms, and the Coptic Room** British Museum. Department of Egyptian and Assyrian Antiquities,Sir Ernest Alfred Wallis Budge,1922 **Third and fourth Egyptian rooms. Predynastic antiquities, mummied birds and animals, portrait statues, figures of gods, tools, implements and weapons, scarabs, amulets, jewelry, and other objects** British Museum. Department of Egyptian and Assyrian Antiquities,1922 *The Reliefs of the Chapel of Nebhepetra Mentuhotep at Gebelein* Elisa Fiore Marochetti,2009-12-14 In 1910 Ernesto Schiaparelli along with the Italian Archaeological Mission on behalf of the Regio Museo di Antichit Egizie excavated the area where during the Eleventh Dynasty King Nebhepetre Mentuhotep erected a chapel to the goddess Hathor at the site of Gebelein Some of the blocks belonging to this chapel had already been moved to

the Cairo Museum during the nineteenth century and finds during Schiaparelli's campaign were taken to the Egyptian Museum at Turin. In this work Elisa Fiore Marochetti presents documents from these two museums and gives an architectonic and decorative reconstitution of an unknown monument. The mostly unpublished blocks and fragments presented here as the General Catalogue of the Turin Museum follow a general introduction to the geographical, religious and historical setting of Gebel el-Siwi and of the chapel before Mentuhotep's reunification of the land. The dating of the chapel is formulated on the basis of the iconographical style of the reliefs and of the titulary borne by Mentuhotep. The publication therefore not only presents a valuable reference to the Egyptian antiquities housed in Turin's Egyptian Museum. It also presents a valuable addition to literature on Egyptian temple decoration and development, royal iconography, kingship and the course of events on the verge of the Middle Kingdom.

Ramesseide Inscriptions, Setnakht, Ramesses III and Contemporaries K. A. Kitchen, 2008-05-27 Based on the hieroglyphic texts of the Ramesses Age of Ancient Egypt c 1300-1100 BC, the books in this series present a modern English translation of the vast majority of historical sources for this important epoch of Egyptian history. This volume covers a period of great change in the early twelfth century BC c 1185-1155 BC. The latest in a respected series of translations of the hieroglyphic texts of the Ramesseide Age of Ancient Egypt c 1300-1100 BC. This fifth volume covers a period of great change in the early twelfth century BC c 1185-1155 BC. Coverage includes the epic wars with the Sea Peoples from the Aegean and the first mention of the Philistines. Many texts included have been translated into English for the first time in this volume.

Between Two Worlds László Török, 2009 The Egyptological literature usually belittles or ignores the political and intellectual initiative and success of the Nubian Twenty-Fifth Dynasty in the reunification of Egypt while students of Nubian history frequently ignore or misunderstand the impact of Egyptian ideas on the cultural developments in pre and post Twenty-Fifth Dynasty Nubia. This book reassesses the textual and archaeological evidence concerning the interaction between Egypt and the polities emerging in Upper Nubia between the Late Neolithic period and 500 AD. The investigation is carried out however from the special viewpoint of the political, social, economic, religious and cultural history of the frontier region between Egypt and Nubia and not from the traditional viewpoint of the direct interaction between Egypt and the successive Nubian kingdoms of Kerma, Napata and Meroe. The result is a new picture of the bipolar acculturation processes occurring in the frontier region of Lower Nubia in particular and in the Upper Nubian centres in general. The much debated issue of social and cultural Egyptianization is also reassessed.

The Jesus Phenomenon Greg Rigby, 2016-03-18 The Jesus Phenomenon examines the likely possibilities for the existence of the person who became known as Jesus Christ. The book looks at his most likely ancestry, the link with David and why that might have been important, the bloodline that led to his conception, the implications after his death and the possibility that there are direct descendants. The author examines the evidence and investigates the various possibilities for a credible and realistic basis of the Jesus Christ story and the claim that Jesus was the Son of God.
