work     **The Mirage of Dignity on the Highways of Human 'Progress'** Lukman Harees, 2012-01-16 The Modern Man is hypocritically boasting of unprecedented material progress in a world where inter alia millions daily go to bed hungry die or get killed through unwanted wars and preventable causes live in inhumane conditions vulnerable being exploited with ever widening inequality and might still ruling over right in international relations even in the post UDHR era an indictment on the collective conscience of mankind Besides the flame of materialism has been devouring time tested moral values causing chaos within the basic unit in society the family and relegating Man and his dignity to the level of animals and even manipulating his identity Therefore questions arise Is Moral law fading are political economic systems and institutions like UN failing in realizing the lofty goal of affording due dignity basic rights and social justice humanity deserves Can the bystanders be mere onlookers anymore This book seeks to dispassionately survey the yawning gap between the rhetoric and the ground reality in bringing about dignity and social justice for humanity from bystanders perspective in the light of these questions and underlines the imperative need for moral progress to go hand in hand to make Man assume his due role as the trustee on earth It also exhorts bystanders to close ranks as human dignity champions rights defenders identity protectors against onslaughts from power hungry politicians mighty powers and vested interests This is the need of the times and what our future progeny demands     **The Corporate Directory of US Public Companies 1995** Elizabeth Walsh, 2016-06-11

*Mirage of Health* René Dubos, 2018-12-02 Every man dreams of a utopia in which disease is conquered and the only thing left to die of is old age In a study of the history and concepts of medicine Ren Dubos who is one of America's most distinguished scientists shows that such a utopia is neither possible nor desirable Organized species such as ants have established a satisfactory equilibrium with their environment and suffer no great waves of disease or changes in their social structure But man is essentially dynamic his way of life constantly in flux from century to century He experiments with synthetic products and changes his diet he builds cities that breed rats and infection he builds automobiles and factories which pollute the air and he constructs radioactive bombs As life becomes more comfortable and technology more complicated new factors introduce new dangers the ingredients for utopia are the agents of new disease Dr Dubois thesis may sound discouraging to a world looking for a cure all in medical research but actually it is affirmative even hopeful Once we accept the fact that complete freedom from disease and from struggle is almost incompatible with the process of living we will know that our aspirations cannot be satisfied with health and the easy life The viewpoint expressed in *Mirage of Health* has now become a dominant one in our general culture and encompasses much of current concern with improving lifestyles
