you can from each My hope is that whoever purchases this book will learn that all weeds are not weeds and that some medicine can come from your own back yard One instructor that I had on herbal medicine says that she believes that for whatever ailment that you have at the time that you will find the cure in your backyard and I have found that plants will change location from year to year This book covers 105 medicinal plants with color photographs with a space on the back of each page for notes I have provided information on weights measures dosages gathering and drying of herbs type of preparations herbal properties plant terms a list of symptoms and what herb to use for them plant usage location when to harvest parts to harvest when to gather and when it blooms by month
