Finally the photography of Lee Friedlander Roni Horn and Osmond Giglia Giglia s Girls in the Windows is one of the highest grossing photographs in history are all shown to be built on repetition in the form of visual rhyme The book ends with a cognitive conjecture on why repetition has been so prominent in the arts from the Homeric epics through Duke Ellington and beyond Artists have exploited repetition throughout the ages The reason why is straightforward the brain finds the detection of repetition innately pleasurable Play It Again Sam offers experimental evidence to support this claim **The Bookman** ,1919 *Fairy Tale Comics* Chris Duffy,2013-09-24 Presents seventeen fairy tales including classics such as Puss in Boots and Little Red Riding Hood and more obscure tales such as The Prince and the Tortoise Bulletin of Bibliography and Dramatic Index ,1912
