Social Media Land John Faithful Hamer, 2020-04-19 The promise of Social Media Land was always to some extent an imperialistic dream The geeks who created this online world were all to a man urban liberals who hoped the Internet would bring the light of civilization to Sameville a mythological small town where everybody's white and wrong The enlightened minds of the multicultural metropolis were going to bring the true gospel of diversity and tolerance and freedom to the benighted citizens of Sameville If these guys had a theme song it would be a cover of Walter Donaldson's Jazz Era classic How Ya Gonna Keep em Down on the Farm After They've Seen Paree 1919 entitled How Ya Gonna Keep em Down in Stupidlandia After They've Seen Portlandia The dream came true Well sort of When I was a kid there were still people in my working class neighborhood who believed that if you scared a pregnant woman her baby would be born with a tail Ignorance like this of shockingly medieval proportions was everywhere to be found Few of my friends had a working twentieth century knowledge of human anatomy much less the natural world But I'm happy to report that the Internet and especially Wikipedia has cleared up much of this ignorance My children have access to far more accurate knowledge about things like how a woman gets pregnant than most of my friends did at their age What's more to the best of my knowledge none of their friends believe in babies with tails To some extent then the Internet has indeed been a force of enlightenment in our world But its enlightenment has been limited in scope in part because the geeks who dreamed of conquering small town ignorance failed to anticipate how much online communities would in fact empower ignorance of all kinds These days any simpleminded partisan with a political ax to grind can find an online community of like minded whack jobs who'll happily Facebook like every stupid thing he says Communities of this kind aren't just safe spaces for stupid they're boot camps for bullshit that provide budding ideologues with plenty of rhetorical ammunition e.g. bogus stats pre-fab arguments etc Before long what was once a more or less harmless single issue troll has morphed into something far more monstrous and formidable a veritable Swiss army knife of bullshit a perfect storm of bad ideas a walking Wikipedia of stupid There are those who see this as a kind of progress as a perfect example of the democratization of knowledge in the Information Age But I think it's more like giving nuclear weapons to a failed state run by coked up child soldiers
