Ned Vizzini,2012-02-29 In Teen Angst Naaah Ned Vizzini offers an authentic and raw portrayal of the crushing anxiety many teens experience and which often is dismissed as simple angst In this classic testament to high school Ned invites you into his world of school parents cool and almost cool music the good and bad friends fame camp sex sort of Canc n almost prom beer video games and more With wit irony and honesty Vizzini presents the weird funny and sometimes mortifying moments that made up his teen years From the author of Broadway musical sensation Be More Chill and It s Kind of a Funny Story this is a quasi autobiographical examination of one high schooler s battle with social anxiety written when the author was just nineteen Fiercely intelligent and introspective Insightful and thoroughly charming SLJ *Rocket Mom* Carolina Fernandez,2003 **Psychotic Phantasmagoria Divulgence** James Hendershot,2024-11-06 This analysis attempts to bridge the gap between the conscious mind and the unconscious mind through personal dream feedback The normal quickly becomes the abnormal as well as the abnormal floating into the grasps of the normal The boundaries of time and space melt as does what is up and what is down All laws of reality are broken only to become slaves to an entirely new set of laws which the universe obeys leaving those who walk upon the Earth hiding in their consciousness as the lone exception Without the law of time some of these visions may last for centuries Many challenges the fabric which holds our mind together as it fights to explode to join with the true reality of the unconscious This work which has no scientific basic in reality is a giant among the unconscious domains and alternate realities that each night rushes into our minds appropriating us to places and achieving entities deemed impossible No event in our dreams can be proved to be invalid as most events

that happen in this questionable reality cannot be proven genuine and if falsely proven to be authentic may very well be declared false in our future

Help for the Helper Babette Rothschild, 2020-12-04 How empathy can jeopardize a therapist's well-being Therapist burnout is a pressing issue and self-care is possible only when therapists actively help themselves The authors examine the literature from neurobiology social psychology and folk psychology in order to explain how therapists suffer from an excess of empathy for their clients and then they present strategies for dealing with burnout and stress

Personal Velocity Rebecca Miller, 2024-09-17 The first Picador edition of Rebecca Miller's debut book reminds us that good material is everywhere The Washington Post The vibrantly fresh and lustrous stories in Miller's collection explore the multifaceted lives of women in seven arresting portraits Modern and diverse these women of different classes and ages struggle with sexuality fate motherhood infidelity desperation and an overriding will to survive We meet Greta a cookbook editor who is chosen by Tavi the hottest writer of his generation to edit his new book The book becomes a best seller and Greta is propelled out of her marriage by her own ambition and success Other characters include Paula a pregnant twenty-one-year-old who is on the run from the horror of a man who was hit by a car and died while walking her home from a nightclub Delia an abused working-class wife who goes into hiding with her children and Louisa a painter who moves rapidly from one lover to the next acting out a self-perpetuating drama over which she has no control Rebecca Miller who also adapted *Personal Velocity* for the screen has crafted an edgy fearless and beautifully spare collection of short fiction

Women's Sexual Experience Martha Kirkpatrick, 2012-12-06 This book like its companion volume *Women's Sexual Development* is a potpourri of ideas not campaign literature to promote a particular point of view The editor agrees with some of her authors and strongly disagrees with others The facts are few the questions many The intent of both books is to evoke questions delay convictions invite controversy and plead for opening minds The examination and explanation of women's sexual experience has long been the province of men The is and the oughts have been hopelessly confused by the investigators or exhorters' biases and limited experience as well as by the use of the male sexual experience as the model for all human sexual experience Women at long last are talking not only to each other in personal journals and letters but also in the more formal worlds of academic and scientific publications The papers in this book come from many sources Some are academic some are experiential journalistic or personal Several emphasize the lack of adequate research and data but address an issue that is just appearing on the surface of contemporary controversy and concern Many topics and sources of information are missing

Rock-a-Bye Bones Carolyn Haines, 2016-05-17 One bitterly cold night at her family's ancestral home in Zinnia Sarah Booth hears what sounds like a kitten as she passes the front door She opens the door to find a newborn baby in a basket on her front porch with bloody footsteps leading up to the door and back down the driveway After rushing the baby to the hospital and calling the police Sarah Booth and Tinkie Richmond her partner at the Delaney Detective Agency know they need to do everything they can to find the baby's mother even if they are starting to fall in love

with the baby themselves But as she tracks the baby s mother Sarah Booth soon begins to suspect the woman might be in danger And following in the woman s footsteps Sarah Booth might be next **From Here to Maternity** Oakley, Ann,2019-09-11 Ann Oakley is a pioneer in the field of sociological research In this classic re issue she interviewed 60 women to find out what it s really like to have a baby Covering pregnancy birth and child care she relies on the stories mothers tell to discuss whether and why women want to become pregnant how they imagine motherhood to be the experience of birth post natal depression feeding and caring routines and the challenges for the domestic division of labour and to fathers She shows that most women are unprepared for the birth or the work of caring for a baby but also for the joys that a baby can bring As topical today as the day it was written this important book was the first to examine first time motherhood in the words of those experiencing it and it continues to influence generations of researchers today A to Zoo Rebecca L.
