Good Catholic:

Good Catholic Girls Angela Bonavoglia, 2023-12-15 The widely exposed transgressions of priests within the Catholic Church stunned the faithful and sent a new surge of energy through the progressive church reform movement in the United States Despite the movement's growing profile the world has only recently learned that Catholic women are the driving force behind reform Good Catholic Girls is a lively account of these courageous women as seen through the eyes of an impassioned journalist Angela Bonavoglia They include Joan Chittister the Benedictine nun who refused to obey a Vatican order not to speak at an international conference for women's ordination groups Mary Ramerman ordained a Catholic priest before 3 000 jubilant supporters Frances Kissling whose fight for women's reproductive rights has shaken the Church at its highest levels Barbara Blaine a priest abuse survivor who created the nation's most powerful voice for victims and Sister Jeannine Gramick who built a pioneering ministry to gays and lesbians despite Vatican orders to silence her and ban her work Backed by supporters worldwide these and other women are rethinking Catholic theology changing the face of ministry and resurrecting the lost lives of female church leaders As Bonavoglia shows the hierarchy ignores them at its peril *How to Raise Good Catholic Children* Mary Reed Newland, 2006-09 First published 50 years ago this is a treat for today's parents an excellent commonsense approach to raising good Catholic children *Documents of the Assembly of the State of New York* New York (State). Legislature. Assembly, 1899 **Catholicism at a Crossroads** Maureen K. Day, James C. Cavendish, Paul M. Perl, Michele Dillon, Mary L. Gautier, William V. D'Antonio, 2025-02-04 Offers a big picture analysis of American Catholicism The Catholic Church is at a crossroads In the United States alone there are many challenges facing the church that are both internal and external to the institution With the rise of the growing Gen Z population and the diminishing of the pre Vatican II generation gone are the days of a patriarchal father knows best religious obedience Indeed as issues of gender race reproductive rights and non nuclear families have risen in prominence the Catholic Church has had to adapt to keep pace with the times The latest in a series of important sociological overviews drawing on nation wide surveys administered every six years Catholicism at a Crossroads charts this new era of Catholic worship belonging and identity in America today Augmenting the survey data for the first time with over fifty interviews with lay and ordained US Catholic leaders the book illustrates how the church has adapted to Pope Francis's modern papacy the rise of religious non affiliation and various demographic changes including an increasing Hispanic population Addressing how the church is responding to recent cultural challenges presented by political polarization racial unrest and threats to democracy Catholicism at a Crossroads offers an up to date nuanced and definitive portrait of American Catholicism in the twenty first century while also providing discussions of how the findings may be relevant for the study of American religion more broadly [American Catholics](#) William V. D'Antonio, 2001 How much do American Catholics still identify with the Catholic Church Do they agree with the Church's teachings and how often do they participate in its sacraments What do they think it takes to be a good Catholic

What do they consider to be the Church's core teachings? How do they believe issues of faith and morals should be decided by the hierarchy, the laity, or some combination of the two? How are they coping with the priest shortage, and what do they believe the Church should do to solve the problem? How do they feel about social issues such as capital punishment and increased military spending? In *American Catholics*, four distinguished sociologists use national surveys from 1999, 1993, and 1987 to examine these issues. They show that Catholic beliefs and practices are changing. They also demonstrate how differences in gender, generation, and commitment to the Church influence attitudes on all of these issues. Balanced and clear, filled with useful tables and charts, and unique in its ability to compare results over time, *American Catholics* makes essential reading for anyone interested in the future of Catholicism in the United States.

Catholic Social Thought Jonathan Boswell, Francis P. McHugh, Johan Verstraeten, 2000. These essays are an attempt to recover something of the form, style, and force of Catholic non-official social thinking in the face of contemporary social thought and contemporary injustice in advanced societies. After an opening essay by the doyen of Catholic writers in this field, Jean Yves Calvez, SJ, the book is divided into three sections. The first and largest group of essays discusses patterns and predicaments of Catholic social thought in general terms and from different points of view. The context here is partly the debate on modernity, high modernity, and post-modernity, partly the issue of how far and in what ways Catholic Social Thought can claim to be distinctive relative to contemporary secular thought. The second section of the book focusses on relationships between Catholic social thought and its restatement and a number of contemporary debates on public issues. Particular attention is given in successive essays to issues of anti-poverty, human rights, economic theory, and international finance. A third and shorter section describes a number of institutional projects which attempt to carry Catholic social values forward into concrete action, focussing on work in health and welfare, grass roots economic co-operation, anti-poverty, and international peace and justice. Final contributions by the reputed international scholar in this field, John Coleman, SJ, and the book editors respectively evaluate the collection as a whole and discuss further steps.

Chicago Catholics and the Struggles within Their Church Andrew M. Greeley, 2011-12-31. What might one expect to learn from a probability sample study of the Archdiocese of Chicago? Can one form a national portrait of Catholics in the United States from data about Chicago? Certainly, Chicago is unique in its judgments about its clergy. As the eminent Catholic sociologist Andrew M. Greeley argues, it is this very difference that makes rigorous comparisons between Chicago Catholics and other Catholic subpopulations possible. He suggests that history and geography provide a basis for understanding the development of the Catholic Church, not just in this specific area but also in the entire United States. The Catholic Archdiocese of Chicago is composed of two counties, Lake and Cook. At the same time, the Catholic population has been pushed up against the boundary of DuPage County by racial change in the city, so that much of the west and south side Catholic population of the city has moved into the southern and western suburbs. In this research area, half of the Catholics have attended college, and half of those have attended graduate school. Thus, the conventional image of Chicago

as a mix of ethnic immigrant neighborhoods has to be modified although there are still many new immigrants attending special immigrant parishes Greeley argues that the official church in Chicago and by inference elsewhere has not recognized the community structures that permeate the neighborhoods that it does not grasp the religious stories that shape its peoples identity and it does not understand the intense if selective loyalty of the archdiocese to its leadership As part of this argument Greeley includes transcriptions of in depth interviews with former Catholics This study provides a fascinating window into the world of Catholicism in twenty first century urban America Annual Review of the Sociology of Religion. Volume 9 (2018) Solange Lefebvre,Alfonso Pérez-Agote Poveda,2018-09-11 Catholicism is generally over institutionalized and over centralized in comparison to other religions However it finds itself in an increasingly interrelated and globalized world and is therefore immersed in a great plurality of social realities The Changing Faces of Catholicism assembles an international cast of contributors to explore the consequent decline of powerful Catholic organisations as well as to address the responses and resistance efforts that specific countries have taken to counteract the secularization crisis in both Europe and the Americas It reveals some of the strategies of the Catholic Church as a whole and of the Vatican centre in particular to address problems of the global era through the dissemination of spiritually progressive writing World Youth Days and the transformation of Catholic education to become a forum for intercultural and interreligious dialogue The volume also reflects on the adaptation of Catholic institutions and missions as sponsored by religious communities and monastic orders

Religious Change and Continuity Across Generations Merril Silverstein, Christel Gärtner, Maria T. Brown, 2024-09-23 Religious Change and Continuity Across Generations Passing on Faith in Families of Six European and North American Nations brings together scholars of religious studies secularism and family science to examine how religion is passed down the generations in six European and North American nations Taking a social change perspective within the context of family socialization theory the authors treat intergenerational change and continuity in religion and spirituality as occurring under specific national and historical conditions As such they consider the social forces that variously reinforce or inhibit transmission of religiosity across successive generations within families The volume provides a nuanced view of the role that societal context plays in religious transitions and transformations Chapters consider the strong influence of the Roman Catholic church in Italy Communist suppression of religion in Hungary aversion to religious discussions in Finland the East West Catholic Protestant divide in Germany and rapid religious deculturation in Canada and the U S Further each chapter takes a mixed methods approach using quantitative survey data to describe the strength and pattern of intergenerational transmission and interview data to clarify family dynamics by which parents and oftentimes grandparents influence the religious beliefs and practices of younger generations taking care to consider how the absence of religion is also conveyed to the next generation
