The Quality of Life Richard Kraut,2018-08-23 The Quality of Life Aristotle Revised presents a philosophical theory about the constituents of human well being The principal idea is that what Aristotle calls external goods wealth reputation power have at most an indirect bearing on the quality of our lives Starting with Aristotle s thoughts about this topic Kraut increasingly modifies and occasionally rejects that stance He argues that the way in which we experience the world is what well being consists in A good internal life comprises in part pleasure but far more valuable is the quality of our emotional intellectual social and perceptual experiences These offer the potential for a richer and deeper quality of life than that which is available to many other animals A good human life is immeasurably better than that of a simple creature that feels only the pleasures of nourishment even if it felt pleasure for millions of years human life would be superior In opposition to contemporary discussions of well being which often appeal to a thought experiment devised by Robert Nozick Kraut concludes that the quality of our lives consists entirely in the quality of our experiences While others hold that we must live in the real world to live well and that one s interior life has little or no value on its own Kraut s interpretation of this thought experiment supports the opposite conclusion

motive for the murders **Purloined Letters** Mark H. Silver, 2008-04-07 This engaging study of the detective story's arrival in Japan and of the broader cross cultural borrowing that accompanied it argues for a reassessment of existing models of literary influence between unequal cultures Because the detective story had no pre existing native equivalent in Japan the genre's formulaic structure acted as a distinctive cultural marker making plain the process of its incorporation into late nineteenth and early twentieth century Japanese letters Mark Silver tells the story of Japan's adoption of this new Western literary form at a time when the nation was also remaking itself in the image of the Western powers His account calls into question conventional notions of cultural domination and resistance demonstrating the variety of possible modes for cultural borrowing the surprising vagaries of intercultural transfer and the power of the local contexts in which imitation occurs *Purloined Letters* considers a fascinating range of primary texts populated by wise judges faceless corpses wily confidence women desperate blackmailers a fetishist who secrets himself for days inside a leather armchair and a host of other memorable figures The work begins by analyzing Tokugawa courtroom narratives and early Meiji biographies of female criminals *dokufu mono* or poison woman stories which dominated popular crime writing in Japan before the detective story's arrival It then traces the mid Meiji absorption of French British and American detective novels into Japanese literary culture through the quirky translations of muckraking journalist Kuroiwa Ruiko Subsequent chapters take up a series of detective stories nostalgically set in the old city of Edo by Okamoto Kido a Kabuki playwright inspired by Arthur Conan Doyle's Sherlock Holmes and the erotic grotesque and macabre works of Edogawa Ranpo whose pen name punned on Edgar Allan Poe
