Good Faith And Other Essays Perspective On A Sartrean Ethics:

Good Faith and Other Essays Joseph S. Catalano, 1996 Noted scholar Joseph S Catalano here brings together his new work on Sartre's ethics with five of his classic essays on Sartre's moral thought In an extended opening essay Catalano uses Sartre's notion of mediation as a means to integrate the entire range of the French philosopher's moral insights In the second half of the book Catalano attempts to delineate a viable notion of good faith and to distinguish between good and bad faith on the one hand and authenticity and inauthenticity on the other hand

Good Faith and Other Essays Joseph S. Catalano, 1996 Noted scholar Joseph S Catalano here brings together his new work on Sartre's ethics with five of his classic essays on Sartre's moral thought In an extended opening essay Catalano uses Sartre's notion of mediation as a means to integrate the entire range of the French philosopher's moral insights In the second half of the book Catalano attempts to delineate a viable notion of good faith and to distinguish between good and bad faith on the one hand and authenticity and inauthenticity on the other hand

Sartre Explained David Detmer, 2011-04-15 The French philosopher Jean Paul Sartre 1905-1980 was the major representative of the philosophical movement called existentialism and he remains by far the most famous philosopher worldwide of the post World War Two era This book will provide readers with all the help they will need to find their own way in Sartre's works Author David Detmer provides a clear accurate and accessible guide to Sartre's work introducing readers to all of his major theories explaining the ways in which the different strands of his thought are interrelated and offering an overview of several of his most important works Sartre was an extraordinarily versatile and prolific writer His gigantic corpus includes novels plays screenplays short stories essays on art literature and politics an autobiography several biographies of other writers and two long dense complicated systematic works of philosophy *Being and Nothingness* and *Critique of Dialectical Reason* His treatment of philosophical issues is spread out over a body of writing that many find highly intimidating because of its size diversity and complexity A distinctive feature of this book is that it is comprehensive The vast majority of books on Sartre including those that are billed as introductions to his work are highly selective in their coverage For example many of them deal only with his early writings and neglect the massive and difficult *Critique of Dialectical Reason* or they address only his philosophical work and ignore his novels and plays or vice versa The present book by contrast discusses works in all of Sartre's literary genres and from all phases of his career An introductory chapter provides an overview of Sartre's life and work The next chapter analyzes several of Sartre's earliest philosophical writings Each of the next six chapters is devoted to an in depth examination of a single key book Two of these chapters are devoted to philosophical works two to plays one to a biography and one to a novel These chapters also contain some discussion of other writings insofar as these are relevant to the topics under consideration there A final chapter considers important concepts and theories that are not found in the major works discussed in earlier chapters briefly introduces other important works of Sartre's and offers some final thoughts The book concludes with a short annotated bibliography with

suggestions for further reading Central to all of Sartre's writing was his attempt to describe the salient features of human existence freedom responsibility the emotions relations with others work embodiment perception imagination death and so forth In this way he attempted to bring clarity and rigor to the murky realm of the subjective limiting his focus neither to the purely intellectual side of life the world of reasoning or more broadly of thinking nor to those objective features of human life that permit of study from the outside Instead he broadened his focus so as to include the meaning of all facets of human existence Thus his work addressed in a fundamental way and primarily from the inside where Sartre's skills as a novelist and dramatist served him well the question of how an individual is related to everything that comprises his or her situation the physical world other individuals complex social collectives and the cultural world of artifacts and institutions

Ontology and Ethics in Sartre's Early Philosophy Yiwei Zheng, 2005-01-01 At the end of *Being and Nothingness* Sartre made the curious claim that his ethical views follow from his ontology and are based on it Yiwei Zheng argues that there are unbridgeable gaps between Sartre's ontology and ethics that cannot be filled in and in the process provides a careful study of some notoriously murky notions in Sartre's early philosophy Calling into question much of what has passed as received wisdom in Sartrean studies *Ontology and Ethics in Sartre's Early Philosophy* offers fresh insights to scholars of philosophy ethics and Sartre

Jean-Paul Sartre Christine Daigle, 2009-10-16 As the founding figure of existentialism Jean Paul Sartre was a key figure in twentieth century literature and philosophy whose writings changed the course of critical thought Christine Daigle sets Sartre's thought in context and considers a number of key ideas in detail charting their impact and continuing influence

Gesturing Toward Reality: David Foster Wallace and Philosophy Robert K. Bolger, Scott Korb, 2014-06-19 Asked in 2006 about the philosophical nature of his fiction the late American writer David Foster Wallace replied If some people read my fiction and see it as fundamentally about philosophical ideas what it probably means is that these are pieces where the characters are not as alive and interesting as I meant them to be *Gesturing Toward Reality* looks into this quality of Wallace's work when the writer dons the philosopher's cap and sees something else With essays offering a careful perusal of Wallace's extensive and heavily annotated self help library re considerations of Wittgenstein's influence on his fiction and serious explorations into the moral and spiritual landscape where Wallace lived and wrote this collection offers a perspective on Wallace that even he was not always ready to see Since so much has been said in specifically literary circles about Wallace's philosophical acumen it seems natural to have those with an interest in both philosophy and Wallace's writing address how these two areas come together

New Perspectives on Sartre Adrian van den Hoven, Adrian Mirvish, 2010-05-11 This volume deals with a number of topics that have not previously been specifically addressed before in a single text A chapter on Sartre and religion talks about his thought in relation to Christianity Judaism and Buddhism while one on Sartre and children discusses his work in relation to the issues of freedom pregnancy and autism Beyond this there are an additional seven chapters covering a wide variety of topics by leading scholars in the fields of philosophy literature

psychology history and political thought While prior publications on Sartre have generally divided his work into two periods pre and post Marxist this volume deliberately stresses a middle and final period as well As representative of the middle period there is an emphasis on Notebooks for an Ethics while Sartre s last work Hope Now is also treated as being philosophically significant in its own right This approach helps to cast a new light on what Sartre has to say about authenticity childhood and consciousness as embodied among other subjects The volume also addresses many and diverse issues of current interest including those of freedom Marxism and Sartre s relation to ethics There are sections of the book that deal with history and the historical situations that helped to shape Sartre s thought as well as articles that deal with Sartre as a specifically French thinker A chapter deals with Sartre s relation to women and here the issues of maternity as problematic plus authentic adult relationships are discussed Finally in addition to authors in philosophy and literature there are articles by a child psychiatrist and a clinical psychologist to help to provide new insights on Sartre s work Even as an academic philosopher Sartre always remained an iconoclast and the aim of this book is at least partially to capture and provide the reader with insight into this spirit

The Saint & the Atheist Joseph S. Catalano,2021-02-16 It is hard to think of two philosophers less alike than St Thomas Aquinas and Jean Paul Sartre Aquinas a thirteenth century Dominican friar and Sartre a twentieth century philosopher and atheist are separated by both time and religious beliefs Yet for philosopher Joseph S Catalano the two are worth bringing together for their shared concern with a fundamental issue the uniqueness of each individual person and how this uniqueness relates to our mutual dependence on each other When viewed in the context of one another Sartre broadens and deepens Aquinas s outlook updating it for our present planetary and social needs Both thinkers as Catalano shows bring us closer to the reality that surrounds us and both are centrally concerned with the place of the human within a temporal realm and what stance we should take on our own freedom to act and live within that realm Catalano shows how freedom for Sartre is embodied and that this freedom further illuminates Aquinas s notion of consciousness Compact and open to readers of varying backgrounds this book represents Catalano s efforts to bring a lifetime of work on Sartre into an accessible consideration of philosophical questions by placing him in conversation with Aquinas and it serves as a primer on key ideas of both philosophers By bringing together these two figures Catalano offers a fruitful space for thinking through some of the central questions about faith conscience freedom and the meaning of life

Encyclopedia of Ethics Lawrence C. Becker,Charlotte B. Becker,2013-10-18 The editors working with a team of 325 renowned authorities in the field of ethics have revised expanded and updated this classic encyclopedia Along with the addition of 150 new entries all of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features New entries include Cheating Dirty hands Gay ethics Holocaust Journalism Political correctness and many more

Ecology and Existence Matthew C. Ally,2017-07-20 This study explores the increasingly troubled relationship

between humankind and the Earth with the help of a simple example and a complicated interlocutor The example is a pond which it turns out is not so simple as it seems The interlocutor is Jean Paul Sartre novelist playwright biographer philosopher and despite his several disavowals doyen of twentieth century existentialism Standing with the great humanist at the edge of the pond the author examines contemporary experience in the light of several familiar conceptual pairs nature and culture fact and value reality and imagination human and nonhuman society and ecology Earth and world The theoretical challenge is to reveal the critical complementarity and experiential unity of this family of ideas The practical task is to discern the heuristic implications of this lived unity in diversity in these times of social and ecological crisis Interdisciplinary in its aspirations the study draws upon recent developments in biology and ecology complexity science and systems theory ecological and Marxist economics and environmental history Comprehensive in its engagement of Sartre s oeuvre the study builds upon his best known existentialist writings and also his critique of colonialism voluminous ethical writings early studies of the imaginary and mature dialectical philosophy In addition to overviews of Sartre s distinctive inflections of phenomenology and dialectics and his unique theories of praxis and imagination the study also articulates for the first time Sartre s incipient philosophical ecology In keeping with Sartre s lifelong commitment to freedom and liberation the study concludes with a programmatic look at the relative merits of pragmatist prefigurative and revolutionary activism within the burgeoning global struggle for social and ecological justice We learn much by thinking with Sartre at the water s edge surprising lessons about our changing humanity and how we have come to where we are timely lessons about the shifting relation between us and the broader community of life to which we belong difficult lessons about our brutal degradation of the planetary system upon which life depends and auspicious lessons too about a participatory path forward as we work to preserve a habitable planet and build a livable world for all earthlings

Sartre, Foucault, and Historical Reason, Volume Two Thomas R. Flynn, 2010-01-15 Sartre and Foucault were two of the most prominent and at times mutually antagonistic philosophical figures of the twentieth century And nowhere are the antithetical natures of their existentialist and poststructuralist philosophies more apparent than in their disparate approaches to historical understanding In Volume One of this authoritative two volume study Thomas R Flynn conducted a pivotal and comprehensive reconstruction of Sartrean historical theory This long awaited second volume offers a comprehensive and critical reading of the Foucauldian counterpoint A history theorized Foucault should be a kind of map a comprehensive charting of structural transformations and displacements over time Contrary to other Foucault scholars Flynn proposes an axial rather than a developmental reading of Foucault s work This allows aspects of Foucault s famous triad of knowledge power and the subject to emerge in each of his major works Flynn maps existentialist categories across Foucault s quadrilateral the model that Foucault proposes as defining modernist conceptions of knowledge At stake is the degree to which Sartre s thought is fully captured by this mapping whether he was as Foucault claimed a man of the nineteenth century trying to think in the twentieth

Jean-Paul Sartre Steven Churchill, Dr. Jack Reynolds, 2014-09-11 Most readers of Sartre focus only on the works written at the peak of his influence as a public intellectual in the 1940s notably *Being and Nothingness* Jean Paul Sartre Key Concepts aims to reassess Sartre and to introduce readers to the full breadth of his philosophy Bringing together leading international scholars the book examines concepts from across Sartre's career from his initial views on the inner life of conscious experience to his later conceptions of hope as the binding agent for a common humanity The book will be invaluable to readers looking for a comprehensive assessment of Sartre's thinking from his early influences to the development of his key concepts to his legacy

Sartre Thomas R. Flynn, 2014-12-29 Jean Paul Sartre 1905 1980 was one of the most influential thinkers of the twentieth century Regarded as the father of existentialist philosophy he was also a political critic moralist playwright novelist and author of biographies and short stories Thomas R Flynn provides the first book length account of Sartre as a philosopher of the imaginary mapping the intellectual development of his ideas throughout his life and building a narrative that is not only philosophical but also attentive to the political and literary dimensions of his work Exploring Sartre's existentialism politics ethics and ontology this book illuminates the defining ideas of Sartre's oeuvre the literary and the philosophical the imaginary and the conceptual his descriptive phenomenology and his phenomenological concept of intentionality and his conjunction of ethics and politics with an egoless consciousness It will appeal to all who are interested in Sartre's philosophy and its relation to his life

Sartre's Existential Psychoanalysis Mary Edwards, 2022-10-20 Western philosophical orthodoxy places many aspects of other people's lives outside the scope of our knowledge Demonstrating an alternative to this view however this book argues that Jean Paul Sartre's application of his unique psychoanalytic method to Gustave Flaubert is the culmination of his project to show that it is possible to know everything there is to know about another person It examines how Sartre aims to revolutionize our way of thinking about others by presenting his existential psychoanalysis as the means to knowledge of both ourselves and others By so doing it highlights how his determination to solve the longstanding philosophical conundrum about other minds drives him not only to incorporate insights from Descartes Hegel Husserl Freud Marx and Beauvoir into his philosophy but also to supplement and enhance his philosophy through the development and application of a new form of psychoanalysis Sartre's Existential Psychoanalysis integrates for the first time Sartre's psychoanalysis into his overarching philosophical project By offering a critical interrogation of the role his psychoanalytical studies played in the development of his existentialism Mary Edwards uncovers the overlooked philosophical significance of his existential psychoanalysis and brings it into a new and productive dialogue with current research in the fields of philosophy psychology and psychotherapy

Sartre , Starting with Sartre Gail Linsenbard, 2010-04-01 This is a new introduction to Sartre guiding the student through the key concepts on his work by examining the overall development of his ideas Jean Paul Sartre is widely regarded as one of the most important and influential philosophers and writers of the twentieth century His enduring influence in philosophy and literature is immense

and his contributions to theories of human freedom and responsibility creative agency existence bad faith and good faith human possibility anguish and authenticity the self morality and the problems of evil and injustice fascinate students scholars and general readers alike Starting with Sartre provides an accessible introduction to the life and work of this hugely significant thinker Clearly structured according to Sartre's central ideas the book leads the reader through a thorough overview of the development of his thought resulting in a more thorough understanding of the roots of his philosophical concerns Crucially it also introduces the major philosophical thinkers whose work proved influential in the development of his thought including Plato Descartes Kant Hegel Kierkegaard Nietzsche Heidegger Husserl and Freud This is the ideal introduction for anyone coming to the work of this challenging thinker for the first time Continuum's Starting with series offers clear concise and accessible introductions to the key thinkers in philosophy The books explore and illuminate the roots of each philosopher's work and ideas leading readers to a thorough understanding of the key influences and philosophical foundations from which his or her thought developed Ideal for first year students starting out in philosophy the series will serve as the ideal companion to study of this fascinating subject

Phenomenology World-Wide Anna-Teresa Tymieniecka, 2014-11-14 Phenomenology is the philosophy of our times Through the entire twentieth century this philosophy unfolded and flourished following stepwise the intrinsic logic and dynamism of its original project as proposed by its founder Edmund Husserl Now its seminal ideas have been handed over to a new era The worldwide contributors to this volume make it manifest that phenomenological inspiration knows no cultural barriers It penetrates and invigorates not only philosophical disciplines but also most of the sectors of knowledge transforming our way of seeing the world our actions toward others and our lives Phenomenology's universal spread has however oftentimes diluted its original sense even beyond recognition and led to a weakening of its dynamics There is at present an urgent need to retrieve the original understanding of phenomenology to awaken its dormant forces and redirect them This is the aim of the present book resourcement and reinvigoration It is meant to be not only a reference work but also a guide for research and study To restore the authentic vision of phenomenology we propose returning to its foundational source in Husserl's project of a universal science unpacking all its creative capacities In the three parts of this work there are traced the stages of this philosophy's progressive uncovering of the grounding levels of reality ideal structures constitutive consciousness the intersubjective lifeworld and beyond The key concepts and phases of Husserl's thought are here exfoliated Then the thought of the movement's classical figures and of representative thinkers in succeeding generations is elucidated Phenomenology's geographic spread is reviewed We then proceed to the culminating work of this philosophy to the phenomenological life engagements so vigorously advocated by Husserl to the life significant issues phenomenology addresses and to how it has enriched the human sciences Lastly the phenomenological project's new horizons on the plane of life are limned horizons with so powerful a draw that they may be said not to beckon but to summon Here is the movement's vanguard This collection

has 71 entries Each entry is followed by a relevant bibliography There is a helpful Glossary of Terms and an Index of Names

Feminist Interpretations of Jean-Paul Sartre Julien S. Murphy, 2010-11-01 While Sartre was committed to liberation struggles around the globe his writing never directly addressed the oppression of women Yet there is compatibility between his central ideas feminist beliefs In this first feminist collection on Sartre philosophers reassess the merits of Sartre's radical philosophy of freedom for feminist theory Contributors are Hazel E Barnes Linda A Bell Stuart Z Charme Peter Diers Kate Edward Fullbrook Karen Green Sarah Lucia Hoagland Sonia Kruks Guillermine de Lacoste Thomas Martin Phyllis Sutton Morris Constance Mui Iris Marion Young *The Edinburgh Encyclopedia of Continental Philosophy* Simon Glendinning, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company Thinking Matter Joseph S. Catalano, 2002-06 First published in 2000 Routledge is an imprint of Taylor Francis an informa company

Reviewing **Good Faith And Other Essays Perspective On A Sartrean Ethics**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence.
