Carolyn Keene

Illusions Of Evil:

Illusions of Evil Carolyn Keene, 2014-10-28 Nancy has come to Riverfront amusement park at the invitation of famed illusionist Adriana Polidori. Having inherited the park after her uncle's tragic death, Adriana has found herself on a rollercoaster ride of terror. For Riverfront has suddenly been transformed into a world of delusion, deception, and potential disaster. The danger begins with the sabotage of Adriana's magic act and quickly spreads throughout the complex. Squeals of joy turn to shrieks of fear as the park's rides spin out of control. To rescue Riverfront, Nancy knows she'll have to work some magic of her own. A dirty trickster is on the loose, bent on making Adriana disappear permanently.

A New Earth, An Old Deception Richard Abanes, 2008-07-01 When Christians are confronted by media

with a new theology they aren't always sure what to do. It may sound spiritual almost Christian. But something isn't quite right. Richard Abanes helps believers as well as the curious understand that Eckhart Tolle's message in *A New Earth* is dangerous. He then provides a clear biblical response to this New Age message. Topics include Tolle's misuse of Scripture, false teachings on God, the Bible's teaching on evil, *A New Earth's* version of salvation compared to God's plan, and much more.

Mind, 1909. A quarterly review of philosophy. **Philosophy** British Institute of Philosophical Studies, **A Search for Truth** Ernest J. Honigmann, 2016-08-03. The genesis of this book was in 1957 when the author was rejected from a loving courtship because he did not believe in the existence of God. To quell the pain and to understand what had happened to him, he researched the evidence as to why people believe that God exists. The result was this book, a predominance of evidence in favor of atheism. Further, the author found that truth should always be held provisionally, not permanently pending discovery of new evidence and insights. For example, the author's atheism is provisional. His search also brought a tough new world. If God does not exist, we need new concepts for the meaning of life, the basis of morality, and our unalienable Rights to Life, Liberty, and the pursuit of Happiness. This book offers his solutions to those problems. And one more thing: The author's recommendation in his final chapter for a new way to search for religious truth forms the most exciting part of this book and possibly the most prophetic. Now, in 2016, 50 years after it had been offered to the world and rejected by the publishers as a threat to their own interests, our society has come of age. And this book, with its eye-opening freshness still intact, is finally yours to learn from and to enjoy.

The Nature of Existence John McTaggart, 1927. **The nature of existence** Charlie Dunbar Broad, 1927. *The Illusions of Egalitarianism* John Kekes, 2007. In this systematic and scathing attack on the dominant contemporary version of liberalism, John Kekes challenges political assumptions shared by the majority of people in Western societies. Egalitarianism, as it's widely known, holds that a government ought to treat all citizens with equal consideration. Kekes charges that belief in egalitarianism rests on illusions that prevent people from facing unpleasant truths. Kekes, a major voice in modern political thought, argues that differences among human beings in the areas of morality, reasonability, legality, and citizenship are too important for governance to ignore. In a rigorous criticism of prominent egalitarian thinkers including Dworkin, Nagel, Nussbaum, Rawls, Raz, and Singer, Kekes charges that their views present a serious threat to both morality and reason. For Kekes, certain inequalities are obvious: people should get what they deserve; those who are good and those who are evil should not be treated as if they had the same moral worth; people should not be denied what they have earned in order to benefit those who have not earned it; and individuals should be held responsible for their actions. His provocative book will compel many readers to question their faith in liberalism.

A Consideration of Adam Rutherford, 2008-05 *A Consideration of Reality Human Nature and Metaphysics* is just that a consideration of reality human nature and metaphysics Dealing with reality and more specifically how every person's perception of reality is different for numerous reasons and is the reason for an illusionary existence It is written while looking at topics from various subjects such as human emotions psychology physics and others Looking at human nature on a basis of

intelligence specifically how the intelligence level in humans has become a burden upon all mankind on an individual basis and in small and large group dynamics we look at how humans can be conflicted by discussing the conflict of the heart and mind in regards to love as well as the conflict of the main divisions of the mind from Freudian psychology And finally mathematical concepts and constructs as well as theoretical sciences especially physics from a metaphysical standpoint By looking at the big bang theory the universe expansion and contraction theory wormhole theory and even Einstein s theory of relativity we come to see how erroneous these so called accepted theories actually are by observing them logically rationally and with common sense All the while trying to keep it simple
