Illustrated History of Furniture Frederick Litchfield, 2016-09-14 Excerpt from *Illustrated History of Furniture* From the Earliest to the Present Time It will be obvious that within the limits of a single volume of moderate dimensions it is impossible to give more than an outline sketch of many periods of design and taste which deserve far more consideration than is here bestowed upon them the reader is therefore asked to accept the first chapter which refers to Ancient Furniture and covers a period of several centuries as introductory to that which follows rather than as a serious attempt to examine the history of the Furniture during that space of time The fourth chapter which deals with a period of some hundred and fifty years from the time of King James the First until that of Chippendale and his contemporaries and the last three chapters are more fully descriptive than some others partly because trustworthy information as to these times is more accessible and partly because It IS probable that English readers will feel greater interest in the Furniture of which they are the subject The French meubles de luxe from the latter half of the seventeenth century until the Revolution are also treated more fully than the Furniture of other periods and countries on account of the interest which has been manifested in this description of the cabinet maker s and metal mounter s work during the past fifteen or twenty years There is evidence of this appreciation in the enormous prices realised at notable auction sales when such Furniture has been offered for competition to wealthy About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
