North Conway, 2019-07-01 The SS Portland was a solid and luxurious ship and its loss in 1898 in a violent storm with some 200 people aboard was later remembered as New England s Titanic The Portland was one of New England s largest and most luxurious paddle steamers and after nine years solid performance she had earned a reputation as a safe and dependable vessel In November 1898 a perfect storm formed off the New England coast Conditions would produce a blizzard with 100 miles per hour winds and 60 foot waves that pummeled the coast At the

time there was no radio communication between ships and shore no sonar to navigate by and no vastly sophisticated weather forecasting capacity The luxurious SS Portland a sidewheel steamer furnished with chandeliers red velvet carpets and fine china was carrying more than 200 passengers from Boston to Portland Maine over Thanksgiving weekend when it ran headlong into a monstrous violent gale off Cape Cod It was never seen again All passengers and crew were lost at sea More than half the crew on board were African Americans from Portland Their deaths decimated the Maine African American community Before the storm abated it became one of the worst ever recorded in New England waters The storm now known as The Portland Gale killed 400 people along the coast and sent more than 200 ships to the bottom including the doomed Portland To this day it is not known exactly how many passengers were aboard or even who many of them were The only passenger list was aboard the vessel As a result of this tragedy ships would thereafter leave a passenger manifest ashore The disaster has been blamed on the hubris of the captain of the Portland Hollis Blanchard who decided to leave the safety of Boston Harbor despite knowing that a severe storm was hurtling up the coast Blanchard a long time mariner had been passed over for a promotion for a younger captain He decided he wanted to show the steamship company that they had made a mistake by getting the Portland safely into port ahead of the imminent storm Author J North Conway has created here a personal visceral account of the sinking and the times and the people involved with stories to bring readers onto the Portland that day Here is Eben Heuston the chief steward onboard the ill fated ship More than half of the crew of the ship were African Americans Hueston was an African American who lived in the Portland community of Munjoy Hill and was a member of the Abyssinian Church After the sinking of the Portland the African American community disappeared and the church closed And Emily Cobba nineteen year old singer from Portland s First Parish Church who was scheduled to give her first recital at the church on that Sunday And Hope Thomas who came to Boston to shop for Christmas and because she decided to exchange some shoes she purchased missed taking the ill fated Portland Because of the lack of communications from Maine to Cape Cod it was days before anyone was able to get word about the fate of the ship or survivors Author J North Conway has painstakingly recreated the events using first hand sources and testimonies to weave a dramatic can t put it down narrative in the tradition of Erik Larson s *Isaac s Storm* and Walter Lord s *Enduring Classic A Night to Remember* He brings the tragedy to life with contemporaneous accounts the Coast Guard from Boston newspapers such as the *Globe Herald and Journal* and from *The New York Times* and the *Brooklyn Daily Eagle* *Yankees & Rebels on the Upper Missouri: Steamboats, Gold and Peace* Ken Robison, 2016 During the 1860s the Missouri River served as a natural highway through snags and rapids from St Louis to Fort Benton for steamboats bringing Yankees and Rebels and their families to the remote Montana territory The migration transformed the Upper Missouri region from the isolation of the fur trade era to the raucous gold rush days that would keep the region in turmoil for decades The influx of newcomers involved its share of dramatic episodes including the explosion of the Chippewa triggered by a drunken crew member the mystery of the fugitive James

Younger gang and Colonel Everton Conger's journey from capturing John Wilkes Booth to the Montana Supreme Court  
 Acclaimed historian Ken Robison reveals the thrilling history behind this war weary wave of migration seeking opportunity on Montana's wild and scenic frontier *The Impact of Technological Change* John Armstrong, David M. Williams, 2017-10-18  
 This book presents an in depth study of the impact of the steamship on Britain during its first forty years roughly between 1810 and 1850 It relates the early steamship to several industrial themes including diffusion construction modernisation the role of government particularly the difficult attempt to align laissez faire politics with the greater need for public safety measures due to technological advance business and finance plus public reaction and tourism The aim is to establish the significance of the steamship as a conduit of modernisation and societal change It consists of a foreword introduction and fourteen chapters devoted to specific themes structured to ensure each chapters build on the preceding chapter's progress Collectively they demonstrate that the development of both experience and enterprise with steam power both gained and refined during this period made the mid century expansion of steamship technology across Britain possible Ultimately it establishes that steamship services began to adapt to oceanic routes steam began to integrate into the world economy and the age of sail began to draw to a close **The Engineering Index** John Butler Johnson, Henry Harrison Supplee, Johannes H. Cuntz, Charles Buxton Going, 1901 **The Engineering Index Annual for ...**, 1910 Red River Steamboats Eric J. Brock, Gary Joiner, 1999 Known by the French settlers of the eighteenth century as the Fleuve Rouge the Red River boasts a fascinating history in Louisiana It is the state's historic highway along which plantations were built and upon which their wares went to the great markets of New Orleans and the rest of the world In this captivating collection of vintage images the history of navigation on the Red River unfolds Flowing some 1 300 miles through four states the Red River is the eighth longest river in the continental United States Despite numerous disasters regular navigation occurred on the river for over a century Huge craft loaded with North Louisiana cotton plied the river between Shreveport and New Orleans and packet steamers carried mail and passengers to dozens of stops along the river's path The showboats traveling along the river brought a new form of entertainment to the cities and towns that lined its banks Included in this volume are views spanning the Great Raft the opening of the river to navigation and commerce the role the river played in the Civil War and the twilight of commercial steam navigation The first photographic tribute to the river ever published Red River Steamboats captures a bygone era in Louisiana's history
