Illustrated History Of Christianity:

The Oxford Illustrated History of Christianity John McManners, 2001-03-15 A general history of Christianity to 1800 in chronological order

The Church of the East Christoph Baumer, 2016-09-05 The so called Nestorian Church officially known as the Apostolic Assyrian Church of the East with its See in Baghdad was one of the most significant Christian communities to develop east of the Roman Empire In its heyday the Church had 8 million adherents and stretched from the Mediterranean to China Christoph Baumer is one of the very few Westerners to have visited many of the most important Assyrian sites and has written the only comprehensive history of the Church which now fights for survival in its country of origin Iraq and is almost forgotten in the West He narrates its rich and colorful trajectory from its apostolic beginnings to the present day and discusses the Church's theology christology and uniquely vigorous spirituality He analyzes the Church's turbulent relationship with other Christian churches and its dialogue with neighboring world religions such as Zoroastrianism Manichaeism Islam Buddhism and Taoism Richly illustrated with maps and over 150 full color photographs the book will be essential reading for those interested in a fascinating but neglected Christian community which has profoundly shaped the history of civilization in both East and West

The Oxford History of Christianity John McManners, 2002 A comprehensive account of Christianity in all its historical and geographical diversity This book originally published as *The Oxford Illustrated History of Christianity* traces the growth and development of Christianity from the earliest communities of believers to a world religion whose adherents number over 2000 million The first section deals with Christianity up to 1800 and includes chapters on the effects of the Reformation and the Enlightenment and on Christianity's relations with the Islamic world The second part considers Christianity in its worldwide context with chapters on Europe North America Latin America Africa Asia and the Orthodox Churches of Eastern Europe A concluding section Christianity Today and Tomorrow reflects on questions of theology conscience and belief and examines the challenges which the modern world poses for the Christian community in the future

Christianity Hans J. Hillerbrand, 2008 Christianity the Illustrated History is a powerful combination of intelligent but accessible scholarship with magnificent colour illustrations revealing how a faith founded on the teachings of a man who lived and died some 2 000 years ago has decisively shaped the modern world From philosophical ideas laws and institutions to the pursuit of rational enquiry education and traditions of charity and caring Back cover

The Illustrated History of Christianity Franklin Littell, 2003-10-14 How does one graphically portray Lutheran Sweden or Catholic Spain where 98% of the population is claimed but only 3 6% and 15% respectively are actually practicing How many Orthodox Christians are left in Russia and other states of the former USSR How to reckon the number and life of Christians persecuted in China or Indonesia Atlases are generally limited to sketching political hegemony along ethnic and national lines Indeed the first 1500 years of Christianity can be largely conveyed by graphics that are primarily geographical Yet as we approach the modern period where the creedal preferences of rulers and governments are no longer determinative and the bonds of the

old ethnic religions have slackened the geographical portrayal of religion becomes problematic Franklin Littell's method in this *Illustrated History of Christianity* is best conveyed by the term confrontation. He highlights those times and places of crisis and decision which the shape and direction of the Christian movement was determined. Particular attention is paid to the interaction of Christians and Jews and to the encounter of Christianity and Islam.

The Oxford Illustrated History of Christianity John McManners, 1990

The Christians Tim Dowley, 2008-03-01

The *Christians* An Illustrated History is an extravagantly illustrated survey of the development of Christianity from the time of Jesus to the present day. Writing in an accessible topical style, Tim Dowley covers subjects that continue to influence the church and society today. Dowley also surveys key figures such as Paul, Justin Martyr, Augustine, Innocent III, Abelard, Francis of Assisi, Luther, Moody, Barth, C. S. Lewis and others. The book is international in scope and is illustrated throughout with four color art, photographs, maps, charts and sidebar material.

Caritas Juan María Laboa, 2014

Charity is not unique to Christianity but the history of the followers of Jesus can be told in their practice of love for their neighbors. In *Caritas*, author Juan María Laboa presents a panorama of this history told through representative works of art through the centuries from early illustrations of the life of Jesus through the beauty of medieval illuminated manuscripts up to and including the teachings of Pope Francis. The importance of social justice in the teaching of the Church is highlighted by the retelling of the stories of lives of the saints and the founding of religious communities dedicated to helping the poor and sick and improving society. Finally, a chapter on the papacy of Pope Francis reemphasizes the Church's tradition of charity and the search for justice.

Christianity: A History, **The Oxford Illustrated History of the Reformation** Peter Marshall, 2015

The *Oxford Illustrated History of the Reformation* is the story of one of the truly epochal events in world history and how it helped create the world we live in today.

The Oxford Illustrated History of the Bible, 2001

The Oxford Illustrated History of the Holy Land Robert G. Hoyland, H. G. M. Williamson, 2018-09-06

The *Oxford Illustrated History of the Holy Land* covers the 3,000 years which saw the rise of Judaism, Christianity and Islam and relates the familiar stories of the sacred texts with the fruits of modern scholarship. Beginning with the origins of the people who became the Israel of the Bible, it follows the course of the ensuing millennia down to the time when the Ottoman Empire succumbed to British and French rule at the end of the First World War. Parts of the story, especially as known from the Bible, will be widely familiar. Less familiar are the ways in which modern research, both from archaeology and from other ancient sources, sometimes modify this story. Better understanding, however, enables us to appreciate crucial chapters in the story of the Holy Land such as how and why Judaism developed in the way that it did from the earlier sovereign states of Israel and Judah and the historical circumstances in which Christianity emerged from its Jewish cradle. Later parts of the story are vital not only for the history of Islam and its relationships with the two older religions but also for the development of pilgrimage and religious tourism as well as the notions of sacred space and of holy books with which we are still familiar today. From the time of Napoleon on, European powers came increasingly to develop

both cultural and political interest in the region culminating in the British and French conquests which carved out the modern states of the Middle East Sensitive to the concerns of those for whom the sacred books of Judaism Christianity and Islam are of paramount religious authority the authors all try sympathetically to show how historical information from other sources as well as scholarly study of the texts themselves enriches our understanding of the history of the region and its prominent position in the world s cultural and intellectual history **The Roman Catholic Church** Edward R.

Norman,2007 The history of the Roman Catholic Church is a gateway to understanding 2 000 years of Western civilization

Norman s lavishly illustrated incisive account tells the story of the multifarious ways in which the Church has shaped the lives and beliefs of Christians and non Christians alike *The Story of Christianity* David Bentley Hart,2013-06-06 In *The Story of Christianity* acclaimed theologian David Bentley Hart provides a sweeping and informative portrait of a faith that has shaped the western world and beyond for over 2 000 years From the persecutions of the early church to the papal imperial conflicts of the Middle Ages from the religious wars of 16th and 17th century Europe to the challenges of science and secularism in the modern era and from the ancient Christian communities of Africa and Asia to the house churches of contemporary China *The Story of Christianity* triumphantly captures the complexity and diversity of Christian history **A**
