[Illustrated History of the University of California, 1868-1895](#) William Carey Jones, 1895.

[Empire of the Scalpel](#) Ira Rutkow, 2023-02-14. From the sixteenth century saga of Andreas Vesalius and his crusade to accurately describe human anatomy while appeasing the clergy who clamored for his burning at the stake to the story of late nineteenth century surgeons' apathy to Joseph Lister's innovation of antisepsis and how this indifference led to thousands of unnecessary surgical deaths, *Empire of the Scalpel* is both a history and a uniquely American tale. Readers will learn how the United States achieved surgical leadership in the twentieth century, heralded by Harvard's Joseph Murray and his Nobel Prize-winning seemingly impossible feat of transplanting a kidney, which ushered in a new era of transplants that continues to make procedures once thought insurmountable into achievable successes.
