Evaluation Practice for Collaborative Growth highlights the approaches, tools, and techniques that are most useful for evaluating educational and social service programs. This book walks the reader through a process of creating answerable evaluation questions, designing evaluation studies to answer those questions, and analyzing, interpreting, and reporting the evaluation's findings so they are useful and meaningful for key stakeholders. The text concludes with a chapter devoted to the shifting landscape of evaluation practice as it faces complex systems and issues that are shaped by society. Additionally, the author provides a list of knowledge and skills needed to adapt to a changing landscape and encourages organizations to use evaluation as a mechanism for learning and adapting to change. Her orientation toward community-based approaches and social justice prevail throughout the book's content and align well with a reader's desire to be inclusive and accountable in programming efforts. Nonprofit leaders, social science professionals, and students will find this book helpful for understanding basic program evaluation concepts, methods, and strategies. **Behold, I AM** Joyce Lynn Wulf, 2023-11-13

It was a childlike question but the answer was as stunning as it was profound. If God is light, what do the primary colors of the rainbow's spectrum signify? The Gospel of John declares in eight mysterious signs that God is light and Jesus Christ in the flesh was God sent to bring the light of true life to us. These enigmatic signs of light and semeion imply the eight signs' significance pointed to something other than what they appeared. The themes of John's eight signs match the themes of the Feasts given to ancient Israel at Mount Sinai and a sequence of YHWH's covenant names. Behold, I AM is a rich in-depth study into God's Holyday appointed times. His eight Festivals of Light: what they meant then, what they mean today, and how they are fulfilling prophecy.
