Spreading And Defending the Faith Catholics United for the Faith Staff,1993-06-30 *Gregory of Nyssa: On the Human Image of God* John Behr,2023-02-22 This book presents the first modern critical edition of the work of Gregory of Nyssa *On the Human Image of God* formerly known as *On the Making of Man* De hominis opificio and the first English translation since the nineteenth century This treatise is one of the most important of Gregory s texts Paralleling the structure of Plato s Timaeus Gregory s work begins by offering two analyses of the human being The first presents the human being as the culmination of the ascent made by nature through the various levels of life and as made body and soul in the image of God The second considers why this is not immediately apparent the need for time to be able to grow individually and collectively to this status as the body of Christ the image of God and the role of sexuality within this growth The third part of the work brings both analyses together to see the same movement in the life span of each person The extensive introduction provided in this volume examines the philosophical and theological background of Gregory s text beginning with Anaxagoras Plato the Timaeus Philo and Origen and also compares aspects of Gregory s work with that of Irenaeus of Lyons and Maximos the Confessor **Image of God Confirmation Preparation Teacher's Guide** Catholics United for the Faith Staff,

Woo,2011 Is there a perfect being Is everything in the universe a creation of God the so called Intelligent Designer Is there a providential divinity watching over the human drama and occasionally revealing information to us supernaturally Writing about God and religious issues can attract adverse reactions from people and one can never be sure of the kind of reception that may ensue even if one s arguments appear to be nothing less than logical I hope this book will imbue in you a realization that there are no logical arguments for the existence of God or any god apart from wishy washy propositions that say little or nothing and that no empirical evidence has ever been offered in support Arguments must be decided on the basis of their being factual or non factual persuasive or unpersuasive logical or illogical Reason is a far more reliable or effective tool than a mountain of faith especially if faith means adhering blindly to one s religious teachings or dogma Arguably whether life is meaningful whether there is a purpose to the universe or whether there is a paradise waiting for us after we are buried or cremated are questions that will have to rest with each individual Thus if there are any truths to be found in this book it is for you the reader to decide Before he retired Richard Woo was in international banking Today he lives in Singapore and is an avid reader on topics concerning science politics and religion Publisher s website <http://www.strategicpublishinggroup.com/title/GodOrAllahTruthOrBull.html>

The Communistic Societies of the United States From Personal Visit and Observation Charles Nordhoff,2020-09-28 Though it is probable that for a long time to come the mass of mankind in civilized countries will find it both necessary and advantageous to labor for wages and to accept the condition of hired laborers or as it has absurdly become the fashion to say employees every thoughtful and kind hearted person must regard with interest any device or plan which promises to enable at least the more intelligent enterprising and determined part of those who are not capitalists to become such and to cease to labor for hire Nor can any one doubt the great importance both to the security of the capitalists and to the intelligence and happiness of the non capitalists if I may use so awkward a word of increasing the number of avenues to independence for the latter For the character and conduct of our own population in the United States show conclusively that nothing so stimulates intelligence in the poor and at the same time nothing so well enables them to bear the inconveniences of their lot as a reasonable prospect that with industry and economy they may raise themselves out of the condition of hired laborers into that of independent employers of their own labor Take away entirely the grounds of such a hope and a great mass of our poorer people would gradually sink into stupidity and a blind discontent which education would only increase until they became a danger to the state for the greater their intelligence the greater would be the dissatisfaction with their situation just as we see that the dissemination of education among the English agricultural laborers by whom of all classes in Christendom independence is least to be hoped for has lately aroused these sluggish beings to strikes and a struggle for a change in their condition *International Sunday School Evangel* ,1903

Re-thinking Dionysius the Areopagite Sarah Coakley, Charles M. Stang, 2009-03-30 Dionysius the Areopagite the early sixth century Christian writer bridged Christianity and neo Platonist philosophy. Bringing together a team of international scholars this volume surveys how Dionysius's thought and work has been interpreted in both East and West up to the present day. One of the first volumes in English to survey the reception history of Dionysian thought both East and West. Provides a clear account of both modern and post modern debates about Dionysius's standing as philosopher and Christian theologian. Examines the contrasts between Dionysius's own pre modern concerns and those of the post modern philosophical tradition. Highlights the great variety of historic readings of Dionysius and also considers new theories and interpretations. Analyzes the main points of hermeneutical contrast between East and West.

Against Pure Reason Johann G. Herder, 2005-01-26 The figure of Johann Gottfried Herder looms increasingly important not only for his prescient contributions to many fields: biblical criticism, philosophy of language, literary criticism, philosophy of history, but also for his pivotal position between the impulses of the Enlightenment and Romanticism. Many of Herder's questions and concerns are more pressing at the end of the modern era than they were at its inception. Bunge's lucid and engaging translations of signal texts from Herder most appearing here for the first time in English are arranged thematically: human nature, language and history, myth and religion, God and nature, literature and the Bible, and Christianity and theology. Along with her extensive Introduction and Bibliography they constitute an essential resource for coming to terms with the checkered legacy of the Enlightenment.

Anglican Confirmation Phillip Tovey, 2016-04-15 Confirmation was an important part of the life of the eighteenth century church which consumed a significant part of the time of bishops and clergy in their preparation of candidates and of the candidates themselves in terms of a transition in their Christian life. Yet it has been almost entirely overlooked by scholars. This book aims to fill this void in our understanding and offers an important contribution and correction of our understanding of the life of the church during the long eighteenth century in both Britain and North America. Tovey addresses two important historical debates: the pessimist/optimist debate on the character and condition of the Church of England in the eighteenth century and the debate on the re-enchantment of the eighteenth century which challenges the secular nature of society in the age of the Enlightenment. Drawing on new developments of the study of visitation returns and episcopal life and on primary research in historical records, Anglican Confirmation goes behind the traditional Tractarian interpretations to uncover the understanding and confidence of the eighteenth century church in the rite of confirmation. The book will be of interest to eighteenth century church historians, theologians and liturgists alike.
