Aged Young Adults Anita Wohlmann, 2014-04-15 When Toulas father in My Big Fat Greek Wedding says to his daughter age 30 you look so old or when Don DeLillo's protagonist age 28 feels old in Cosmopolis these young characters are attributed an age awareness that has received little attention in age studies so far Leaving aside chronological or biological dimensions of age this study approaches age as a metaphoric practice suggesting that feeling old is not to be taken literally but metaphorically The book examines the cultural meanings of age and aging for characters who are in their twenties and thirties and challenges often quoted labels such as late coming of age story or perpetual adolescence

Age Discrimination John Macnicol, 2006-01-12 Age discrimination is a highly topical issue in all industrialised societies against a background of concerns about shortening working lives and ageing populations in the future Based upon detailed research and adopting an interdisciplinary approach this unique study traces the history of the age discrimination debate in Britain and the USA since the 1930s It critically analyses the concepts of ageism in social relations and age discrimination in employment Case studies on generational equity and health care rationing by age are followed by an analysis of the British government's initiatives against age discrimination in employment The book then traces the history of the debate on health status and old age addressing the question of whether working capacity has improved sufficiently to justify calls to delay retirement and extend working lives It concludes with a detailed examination of the origins and subsequent working of the USA's 1967 Age Discrimination in Employment Act

Mills, Jean Helms Mills, 2017-08-16 This book explores critical perspectives on ageing in organisations and offers both managerial and workplace practices for dealing with this prominent issue The collection provides cross disciplinary research on the discursive and mythological aspects of ageing at work as well as recent studies of the relationship between age and innovation talent careers and workplace transitions The book brings together authors from Europe North America and Australia By addressing current societal challenges and offering insights on ageing at work this book will be of interest to those involved in human resource management workplace organisation and the sociology of work

Aging Concepts and Controversies Ninth Edition encourages students to become involved and take an informed stand on the major aging issues we face as a society Not simply a summary of research literature Harry R Moody and Jennifer R Sasser's text focuses on controversies and questions rather than on assimilating facts or arriving at a single correct view about aging and older people Drawing on their extensive expertise the authors first provide an overview of aging in three domains aging over the life course health care and the socioeconomic aspects of aging Each section is followed by a series of edited readings offering different perspectives from experts and specialists on that subject New readings focus on whether current federal spending on the elderly is sustainable and fair to other groups how older consumers are reshaping the business landscape and the

challenges of marketing and selling to customers 60 and over More emphasis is placed on how social class and inequality earlier in life can shape our final years and the number of older Americans living in poverty The section on Aging and Health Care has been thoroughly updated to reflect the latest data about chronic diseases that affect the elderly government spending on health care and policy changes to programs like Medicaid and Medicare The section on the Social and Economic Outlook for an Aging Society gives the most current picture of the racial and ethnic diversity of older Americans their participation in the labor force and their income and wealth

Old Age and Agency Emmanuelle Tulle, 2004 This book is about rethinking the ways in which we make sense of social action or agency in later life The contributions in this collection challenge traditional academic approaches to the study of later life which arguably often deny older people agency Social gerontology and the wider society should be more reflexive and rather than contribute to the continued marginalisation of older people should draw attention to the extent to which the latter's actions may be understood within the set of normalising discourses which people have to manage and negotiate as they get old The purpose of this collection is to continue this process by providing philosophical theoretical conceptual and empirical direction for a reflexive social gerontology This book argues that the management of later life has become complex caught as it is within a broad discourse which continues to construct old age as a time of decline and dependency but has shifted the burden of responsibility for the avoidance of decline on individuals

Feminism and the Body Catherine Kevin, 2009-12-14 By definition feminism is concerned with the historical social and political meanings of sexual difference in the human body and the spectrum of experiences those meanings produce At the beginning of the twenty first century gendered forms of violence persist abortion remains a political issue reproductive and cosmetic technologies and their concomitant ethical questions are proliferating and the presence of women's bodies in public spaces and for public consumption produces a range of anxieties about women's well being and the common good Feminist scholars from across the disciplines grapple with these issues in *Feminism and the Body* In so doing they continue a history of intellectual endeavor that for centuries has striven to identify the interplay between corporeal differences and relationships of power This collection will take the reader on a journey into myriad domains in which a variety of discursive effects come to life in the embodied subject from the theatres of medical surgery and law to the discussion fora of sex therapy and marriage guidance experts from Peruvian villages of the late twentieth century to African American plays of the 1920s and 1930s from explicitly feminist novels and films to the mainstream press and right into feminist scholarship that theorises the female body In so doing this collection restates and reinvigorates feminism's long standing necessary and emphatic engagement with the female body

Ellis,2016-05-23 Disability Obesity and Ageing offers an engaging account of a new area of pressing concern analysing the way in which spurned identities are depicted and reacted to in televisual genres and online forums Examining the symbolic power of the media this book presents case studies from drama situation comedies reality and documentary television programmes popular in the UK USA and Australia to shed light on the representation of disability obesity and ageing and the manner in which their status as unwanted and unwelcome identities is perpetuated A theoretically sophisticated exploration of television as a translator of identity and the exploration of identity categories in allied virtual spaces this book will be of interest to sociologists as well as scholars of popular culture and cultural and media studies *Serializing Age* Maricel

Oró-Piqueras,Anita Wohlmann,2015-12-15 Serialized storytelling provides intriguing opportunities for critical representations of age and aging In contrast to the finite character of films television narratives can unfold across hundreds of episodes and multiple seasons Contemporary viewing practices and new media technologies have resulted in complex television narratives in which experimental temporalities and revisions of narrative linearity and chronological time have become key features As the first of its kind this volume investigates how TV series as a powerful cultural medium shape representations of age and aging such as in *Orange Is The New Black* *The Wire* or *Desperate Housewives* to understand what it means to live in time
