insights into the life of the spirit and the soul in relation to the Cosmos to re-ignite his heart and experience the deep enigmas of existence with the great thinkers of the past. Natural Science arose in the cultural setting of Christian Europe. Those first scientists at the dawn of the modern age were spiritually trained mystic Monks of the Christian Church. Natural Science is mysteriously intertwined with the riddles of the Soul and Christianity. The search for the meaning of life and the soul became bound up with debates over atoms and molecules and ended there. Times changed and the search for the soul was obscured by the uncertainty of the findings of natural science which eventually pervaded everything including the teachings of Christianity. The Spiritual Body of Man and his Christology was cast into shadow by the new Light of natural science and Eden faded into man's dreams. Is there a secret mystery teaching hidden in the discoveries of the natural sciences that relates to the search for the Soul, Man's spiritual body and the secrets of Christianity? Tazo takes up these threads of thought to reveal a concealed Teaching of the Spirit that goes back to ancient times. Follow along as Tazo shows the hidden connection of the Ancient Teachings to unlock the deepest secrets of the natural world. Our science must lead the way, must prepare for what has to happen with the bodily essence in the future. In the near future it must itself develop into something which has life in itself and recognize the life inherent in the earth. The Temple Legend. Rudolf Steiner, May 1905.
