Images of the Untouched Joanne Stroud, Gail Thomas, 1982 [Sexual Revolutions](#) Gottfried Heuer, 2010-11-17 The ideas of psychoanalyst Otto Gross 1877 1920 have had a seminal influence on the development of the psychoanalytic discipline and yet his work has been largely overlooked Sexual Revolutions introduces the work of Otto Gross to the academic and clinical fields of psychoanalysis and Jungian Analysis **An Image Darkly Forming** Bani Shorter, 2015-08-11 Originally published in 1987 a well known Jungian analyst the late Bani Shorter writes here about how women are initiated into becoming themselves Her book was an important contribution to the field of analytical psychology at the time as well as to the increasingly popular study of women's spirituality In former times transitions from one stage of life to another were prepared for and marked by ritual initiation in modern times this necessity is overlooked and women's natural development is made more difficult as a consequence Through working in close therapeutic relationships with women Bani Shorter found that when challenged by crises and transitions in their lives today's women instinctively create rituals nevertheless to mark their journey towards maturation wholeness and meaning In this process they discover something of who they are and recognise dimensions of themselves which have been previously repressed and undreamed of The stories unfolded here can be a guide for all women through their own rites of passage **Virgin Territory** Tamar Jeffers McDonald, 2010 A critical investigation of how virginity is represented in film It considers virginity as it is produced and marketed in film With chapters that span a range of periods genres and performances it intends to prove that although it seems like an obvious quality at first glance virginity in film is anything but simple [Wisdom of the Psyche](#) Ginette Paris, 2013-12-16 In the quest for identity and healing what belongs to the humanities and what to clinical psychology Ginette Paris uses cogent and passionate argument as well as stories from patients to teach us to accept that the human psyche seeks to destroy relationships and lives as well as to sustain them This is very hard to accept which is why so often the body has the painful and dispiriting job of showing us what our psyche refuses to see In jargon free language the author describes her own story of taking a turn downwards and inwards in the search for a metaphorical personal death If this kind of mortality is not attended to then more literal bodily ailments and actual death itself can result Paris engages with one of the main dilemmas of contemporary psychology and psychotherapy how to integrate findings and insights from neuroscience and medicine into an approach to healing founded upon activation of the imagination At present she demonstrates what is happening is damaging to both science and imagination [Jung and the Native American Moon Cycles](#) Michael Owen, 2002 Jung and the Native American Moon Cycles describes the life of C G Jung as seen through the lens of the Moon Cycles a Native American teaching about the archetypal influences and forces that affect us at different times in our lives Through this lens we see how the rhythm of Jung's life coincided with the great events of the 20th century This book offers new insights into Jung's life and death and provides a fascinating perspective on some of Jung's more important dreams It also unexpectedly casts new light on Jung's fateful

associations with Freud and Picasso and the controversial areas of his life particularly his relationships with women and his supposed anti-Semitism Michael Owen also shows how readers will be able to place the events of their own lives on the Moon Cycles of the Native American Medicine Wheel gaining a new perspective into the births and deaths in their life inner and outer They will see what learning periods are ahead of them and understand the critical importance of the nine month and three year cycles Some of the patterns of time and other insights revealed Both Jung's parents were the thirteenth and youngest in their families Freud died twenty seven years almost to the day after he fainted in Jung's presence and said How sweet it must be to die Jung dreamt of the firebombing of Dresden twenty seven years before it happened Jung's writings about Picasso and its relationship to Jung's death
