Smith,2022-12-28 This book explores the literate and advanced cultures of two very separate groups in the Book of Mormon 1 the Jaredites

described in the book of Ether and 2 the members of tribal Manasseh who dominate the remainder of the Book of Mormon. The first group flourished during the millennia before the arrival of the second group in a nearby area and became extinct as a civilization not long after the arrival of that second group. Within the New World only one complex culture arose which was literate, built great cities and had a large population, namely the Olmec of southern Mexico, the mother culture of the five subsequent advanced cultures of Mesoamerica. This book demonstrates how the Mesopotamian Jaredites brought with them a Sumero-Akkadian culture to the New World. The linguistics of Sumero-Akkadian are not only found systematically within the Jaredite onomasticon but a comparison of Sumero-Akkadian with reconstructed ancient Olmec Proto-Mixe-Zoque strongly suggests the ultimate origin of that people in Mesopotamia at least 5 thousand years ago. In the second section of the book an offshoot of tribal Manasseh, Clan Lehi, demonstrates its pervasive influence through an onomasticon almost exclusively showing derivation from Manassite names known from the Bible and archeology and which are collocated geographically with each other and with a set of names known biblically to be associated with transjordanian tribes and southern areas such as Midian where Clan Lehi first goes to make good its escape from Judah.
