revisionist history shows how Wilde's tumultuous early life embodies the story of the Victorian era as it tottered towards modernity Riveting and original Making Oscar Wilde is a masterful account of a life like no other *The Oxford Handbook of Transcendentalism* Joel Myerson, Sandra Harbert Petrulionis, Laura Dassow Walls, 2010-04-16 The Oxford Handbook of Transcendentalism offers an eclectic comprehensive interdisciplinary approach to the immense cultural impact of the movement that encompassed literature art architecture science and politics *Harriet Tubman* Milton C. Sernett, 2007-11-05 An exploration of the way history meaning and memory have interacted in the process of transforming Harriet Tubman into an American icon and a figure of inspiration like Abraham Lincoln or Frederick Douglass **The Romance of Reunion** Nina Silber, 2000-11-09 The reconciliation of North and South following the Civil War depended as much on cultural imagination as on the politics of Reconstruction Drawing on a wide range of sources Nina Silber documents the transformation from hostile sectionalism to sentimental reunion rhetoric Northern culture created a notion of reconciliation that romanticized and feminized southern society In tourist accounts novels minstrel shows and popular magazines northerners contributed to a mythic and nostalgic picture of the South that served to counter their anxieties regarding the breakdown of class and gender roles in Gilded Age America Indeed for many Yankees the ultimate symbol of the reunion process and one that served to reinforce Victorian values as well as northern hegemony was the marriage of a northern man and a southern woman Southern men also were represented as affirming traditional gender roles As northern men wrestled with their nation's increasingly global and aggressive foreign policy the military virtues extolled in Confederate legend became more admired than reviled By the 1890s concludes Silber northern whites had accepted not only a newly resplendent image of Dixie but also a sentimentalized view of postwar reunion *Women and Reform in a New England Community, 1815-1860* Carolyn J. Lawes, 2021-10-21 Interpretations of women in the antebellum period have long dwelt upon the notion of public versus private gender spheres As part of the ongoing reevaluation of the prehistory of the women's movement Carolyn Lawes challenges this paradigm and the primacy of class motivation She studies the women of antebellum Worcester Massachusetts discovering that whatever their economic background women there publicly worked to remake and improve their community in their own image Lawes analyzes the organized social activism of the mostly middle class urban white women of Worcester and finds that they were at the center of community life and leadership Drawing on rich local history collections Lawes weaves together information from city and state documents court cases medical records church collections newspapers and diaries and letters to create a portrait of a group of women for whom constant personal and social change was the norm Throughout *Women and Reform in a New England Community* conventional women make seemingly unconventional choices A wealthy Worcester matron helped spark a women led rebellion against ministerial authority in the town's orthodox Calvinist church Similarly a close look at the town's sewing circles reveals that they were vehicles for political exchange as well as social gatherings that included men but intentionally restricted them to a

subordinate role By the middle of the nineteenth century the women of Worcester had taken up explicitly political and social causes such as an orphan asylum they founded funded and directed Lawes argues that economic and personal instability rather than a desire for social control motivated women even relatively privileged ones into social activism She concludes that the local activism of the women of Worcester stimulated and was stimulated by their interest in the first two national women s rights conventions held in Worcester in 1850 and 1851 Far from being marginalized from the vital economic social and political issues of their day the women of this antebellum New England community insisted upon being active and ongoing participants in the debates and decisions of their society and nation *Writing for Immortality* Anne E.

Boyd,2010-01-01 Before the Civil War American writers such as Catharine Maria Sedgwick and Harriet Beecher Stowe had established authorship as a respectable profession for women But though they had written some of the most popular and influential novels of the century they accepted the taboo against female writers regarding themselves as educators and businesswomen During and after the Civil War some women writers began to challenge this view seeing themselves as artists writing for themselves and for posterity *Writing for Immortality* studies the lives and works of four prominent members of the first generation of American women who strived for recognition as serious literary artists Louisa May Alcott Elizabeth Stuart Phelps Elizabeth Stoddard and Constance Fenimore Woolson Combining literary criticism and cultural history Anne E Boyd examines how these authors negotiated the masculine connotation of artist imagining a space for themselves in the literary pantheon Redrawing the boundaries between male and female literary spheres and between American and British literary traditions Boyd shows how these writers rejected the didacticism of the previous generation of women writers and instead drew their inspiration from the most prominent literary writers of their day Emerson James Barrett Browning and Eliot Placing the works and experiences of Alcott Phelps Stoddard and Woolson within contemporary discussions about genius and the American artist Boyd reaches a sobering conclusion Although these women were encouraged by the democratic ideals implicit in such concepts they were equally discouraged by lingering prejudices about their applicability to women *Bret*

Harte Axel Nissen,2000 *The Nation* ,1921 **American Radicals** Holly Jackson,2019-10-08 A dynamic timely history of nineteenth century activists free lovers and socialists abolitionists and vigilantes and the social revolution they sparked in the turbulent Civil War era In the tradition of Howard Zinn s people s histories *American Radicals* reveals a forgotten yet inspiring past Megan Marshall Pulitzer Prize winning author of *Margaret Fuller A New American Life* and Elizabeth Bishop *A Miracle for Breakfast* NAMED ONE OF THE TEN BEST HISTORY BOOKS OF THE YEAR BY SMITHSONIAN On July 4 1826 as Americans lit firecrackers to celebrate the country s fiftieth birthday both John Adams and Thomas Jefferson were on their deathbeds They would leave behind a groundbreaking political system and a growing economy as well as the glaring inequalities that had undermined the American experiment from its beginning The young nation had outlived the men who made it but could it survive intensifying divisions over the very meaning of the land of the free A new network of dissent

connecting firebrands and agitators on pastoral communes in urban mobs and in genteel parlors across the nation vowed to finish the revolution they claimed the founding fathers had only begun. They were men and women black and white fiercely devoted to causes that pitted them against mainstream America even while they fought to preserve the nation's founding ideals. The brilliant heiress Frances Wright whose shocking critiques of religion and the institution of marriage led to calls for her arrest. The radical Bostonian William Lloyd Garrison whose commitment to nonviolence would be tested as the conflict over slavery pushed the nation to its breaking point. The Philadelphia businessman James Forten who presided over the first mass political protest of free African Americans. Marx Lazarus a vegan from Alabama whose calls for sexual liberation masked a dark secret. Black nationalist Martin Delany the would be founding father of a West African colony who secretly supported John Brown's treasonous raid on Harpers Ferry only to ally himself with Southern Confederates after the Civil War. Though largely forgotten today these figures were enormously influential in the pivotal period flanking the war. Their lives and work entwined with reformers like Frederick Douglass Elizabeth Cady Stanton and Henry David Thoreau as well as iconic leaders like Abraham Lincoln. Jackson writes them back into the story of the nation's most formative and perilous era in all their heroism outlandishness and tragic shortcomings. The result is a surprising panoramic work of narrative history one that offers important lessons for our own time.
