Letters From Philippa:

Letters from Philippa Anne Graham Estern,1991 While helping convert their home into a bed and breakfast Sara and Sam uncover some old letters that change their family s fortunes **Letters to Philippa** Dorothea Brande,1937 **Letters of Royal and Illustrious Ladies of Great Britain, from the Commencement of the Twelfth Century to the Close of the Reign of Queen Mary** Mary Anne Everett Green,1846 **Letters Between Mothers and Daughters** Barbara Caine,2018-02-02 There are now many studies of family letters in Europe but most of them focus on marital letters and letters between parents especially mothers and their sons Little attention has been paid to the letters to and from daughters This volume seeks to begin filling that gap by exploring the continuities and changes evident in the letters written between mothers and daughters over several centuries Some of these changes reflect the history of letters and the ways that they were written and delivered especially the move from the use of scribes and couriers in the medieval and early modern period which made both the writing and reading of letters a public affair to the use of pens and the situation in which letters were able to be written in private and read only by the person to whom they were addressed But the letters also reveal the changing nature of the mother and daughter relationship as the formal and more distant ties evident in the early period in which dynastic and other matters were often more important to a mother than her daughter s personal happiness were replaced by closer and more intimate ties and a concern with particular personalities and individual needs This book was originally published as a special issue of Women s History Review *Letters of royal, and illustrious ladies of Great Britain, from the commencement of the twelfth century to the close of the reign of queen Mary* ,1846 **The Letters of Theodora** Adelaide L. Rouse,1905 Philippa of Lancaster and the Court Culture of Medieval Portugal Tiago Viúla de Faria,2025-01-09 This contributed volume focuses on Philippa Plantagenet 1360 1415 queen of Portugal for almost three decades and the complexion of the court Chapters thoroughly examine the Portuguese royal court in the few decades around the turn of the fourteenth century a period rich in intellectual innovations throughout Europe and of dramatic changes in Portugal The book aims to showcase current research from innovative scholars of medieval Portugal including both established and emerging academics It offers a comprehensive appraisal of the processes of transfer assimilation and exchange experienced at the royal court of later medieval Europe under given conditions of patronage and direction This is accomplished through a multidisciplinary and comparative framework that takes together the history architecture music art and literature of the Portuguese royal court and the involvement of Philippa as queen consort **Early Modern Women's Letter Writing, 1450-1700** J. Daybell,2001-05-17 This landmark book of essays examines the development of women s letter writing from the late fifteenth to the early eighteen century It is the first book to deal comprehensively with women s letter writing during the Late Medieval and Early Modern period and shows that this was a larger and more socially diversified area of female activity than has generally been assumed The essays contributed by many of the leading
