Aldous Huxley Annual Bernfried Nugel, Jerome Meckier, 2008-07-14 Aldous Huxley Annual is the official organ of the Aldous Huxley Society at the Centre for Aldous Huxley Studies in Munster Germany It publishes essays on the life times and interests of Aldous Huxley and his circle It aspires to be the sort of periodical that Huxley would have wanted to read and to which he might have contributed This issue continues the previous volume's collection of Aldous Huxley's early essays in art criticism for the most part published anonymously It focuses on Huxley's critical approach to architecture applied arts and sculpture Other contributions deal with Lady Chatterley's Lover with myth history and utopianism as well as with Huxley's literary remains

Therapy with Tough Clients George Gafner, 2014-01-08 Whether you're fairly new to therapy or you've practiced for many years no doubt at times you've found yourself stumped with certain clients who leave you feeling perplexed and discouraged with that I just don't know what to do next feeling George Gafner has been there and that's precisely why he wrote this book The reality is that today's cookie cutter treatment mentality presupposes that all people with say depression can be treated essentially the same way which virtually ignores the established fact that a good deal of a person's mental functioning is governed not by conscious choice but instead by automatic or unconscious forces that lie outside voluntary control

Tripping on Utopia Benjamin Breen, 2024-01-16 A Los Angeles Times Bestseller One of The New Yorker's best books of 2024 A bold and brilliant revisionist take on the history of psychedelics in the twentieth century illuminating how a culture of experimental drugs shaped the Cold War and the birth of Silicon Valley It was not the Baby Boomers who ushered in the first era of widespread drug experimentation It was their parents Far from the repressed traditionalists they are often painted as the generation that survived the second World War emerged with a profoundly ambitious sense of social experimentation In the 40s and 50s transformative drugs rapidly entered mainstream culture where they were not only legal but openly celebrated American physician John C Lilly infamously dosed dolphins and himself with LSD in a NASA funded effort to teach dolphins to talk A tripping Cary Grant mumbled into a Dictaphone about Hegel as astronaut John Glenn returned to Earth At the center of this revolution were the pioneering anthropologists and star crossed lovers Margaret Mead and Gregory Bateson Convinced the world was headed toward certain disaster Mead and Bateson made it their life's mission to reshape humanity through a new science of consciousness expansion but soon found themselves at odds with the government bodies who funded their work whose intentions were less than pure Mead and Bateson's partnership unlocks an untold chapter in the history of the twentieth century linking drug researchers with CIA agents outsider sexologists and the founders of the Information Age As we follow Mead and Bateson's fractured love affair from the malarial jungles of New Guinea to the temples of Bali from the espionage of WWII to the scientific revolutions of the Cold War a new origin story for psychedelic science emerges

Psychobiology of Gene Expression Ernest Lawrence Rossi, 2002-09-24 The new understanding of the relationships between gene expression and human experience emerging from the Human Genome Project is setting the stage for a profound expansion of our understanding of life The new neuroscience discoveries about enriching life experiences neurogenesis and gene expression are poised to profoundly expand our understanding of psychotherapy and the holistic healing arts We are just beginning to learn how the brain the body and our genes interact in ordinary everyday life to create our lives Here acclaimed author and pioneer of new approaches to mindbody communication Ernest Rossi introduces the new science of psychosocial genomics and explores how it will profoundly change our understanding of the pathways of communication among mind body and spirit Integrating modern molecular medicine with traditional holistic healing art and spiritual rites Rossi documents dramatically new approaches to optimize creativity in

psychotherapy and therapeutic hypnosis with both individuals and groups Part I reviews significant leading edge neuroscience research on the psychobiology of gene expression and neurogenesis that leads to a new vision of the role of consciousness and creativity in the humanities and the healing arts Part II explores how to creatively facilitate the psychodynamics of gene expression neurogenesis and healing in therapeutic hypnosis psychotherapy and human relationships in general The Psychobiology of Gene Expression illustrates step by step how to facilitate the natural four stage creative process on all levels from mind to molecule in our daily work of building a better brain The book demonstrates how we can use our consciousness and our perception of free will to co create ourselves in cooperation with nature Rossi proposes practical approaches to optimize the natural cycles of gene expression in normal consciousness sleep dreaming meditation and the arts of daily living that are experienced by everyone A case study spanning two chapters containing dialog and explanatory commentary brings the author s work to life and gives readers a deeper appreciation of its clinical application Rossi s lucid writing style and vivid illustrations inspire this text with a new vision of the creative arts humanities and culture in facilitating the optimal development of health performance and consciousness *Annual Report of the Michigan Academy of Science, Arts, and Letters* Michigan Academy of Science, Arts, and Letters.
