Leuven Mark Derez,1991 *Leuven* Mark Derez,Hugo Maertens,2001-05-01 **Through the Day, Through the Night** Jan Vansina,2014-05-20 One of twelve children in a close knit affluent Catholic Belgian family Jan Vansina began life in a seemingly sheltered environment But that cocoon was soon pierced by the escalating tensions and violence that gripped Europe in the 1930s and 1940s In this book Vansina recalls his boyhood and youth in Antwerp Bruges and the Flemish countryside as the country was rocked by waves of economic depression fascism competing nationalisms and the occupation of first Axis and then Allied forces Within the vast literature on World War II a much smaller body of work treats the everyday experiences of civilians particularly in smaller countries drawn into the conflict Recalling the war in Belgium from a child s eye perspective Vansina describes pangs of hunger so great as to make him crave the bitter taste of cod liver oil He vividly remembers the shock of seeing severely wounded men on the grounds of a field hospital the dangers of crossing fields and swimming in ponds strafed by planes and his family s interactions with occupying and escaping soldiers from both sides After the war he recalls emerging numb from the cinema where he first saw the footage of the Nazi death camps and he describes a new phase of unrest marked by looting vigilante justice and the country s efforts at reunification Vansina a historian and anthropologist best known for his insights into oral tradition and social memory draws on his own memories and those of his siblings to reconstruct daily life in Belgium during a tumultuous era Best Special Interest Books selected by the American Association of School Librarians Best Books for General Audiences selected by the Public Library Reviewers Student Revolt, City, and Society in Europe Pieter Dhondt,Elizabethanne Boran,2017-07-06 Due to the strong sense among the student community of belonging to a specific social group student revolts have been an integral part of the university throughout its history Ironically since the Middle Ages the advantageous position of students in society as part of the social elite undoubtedly enforced their critical approach This edited collection studies the role of students as a critical mass within their urban context and society through examples of student revolts from the foundation period of universities in the Middle Ages until today covering the whole European continent A dominant theme is the large degree of continuity visible in student revolts across space and time especially concerning the rebellious attitudes of and criticisms directed towards students Too often each generation thinks they are the first Moreover student revolts are definitely not always of a progressive kind but instead they are often characterized by a tension between conservative ambitions e g the protection of their own privileges or nostalgia for the good old days and progressive ideas Particular attention is paid to the use of symbols like flags caps etc rituals and special traditions within these revolts in order to bring the students voice back to the fore **History of Universities** Mordechai Feingold,2002-09-12 Volume XVII of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter

of the city as a milieu that affects the university's functioning. There were theoretical and historical papers and a series of case studies, some of them comparative as well as proposals and descriptions of efforts to improve city-university relations. It was a fruitful occasion for many on account of the diversity of experience brought together for the purpose of a debate on a matter of common interest. The various university settings within Amsterdam were visited during a guided tour that provided food for thought on the matters under discussion by means of a living example.

The Banishment of Beverland Karen Eline Hollewand, 2019-03-19. In 1679 Hadriaan Beverland (1650-1716) was banished from the province of Holland. Why was this humanist scholar exiled from one of the most tolerant parts of Europe in the seventeenth century? To answer this question, this book places Beverland's writings on sex, sin, and scholarship in their historical context for the first time. Beverland argued that sexual lust was the original sin and highlighted the importance of sex in human nature, ancient history, and his own society. His audacious works hit a raw nerve: Dutch theologians accused him of atheism; he was abandoned by his humanist colleagues, and he was banished by the University of Leiden. By positioning Beverland's extraordinary scholarship in the context of the seventeenth-century Dutch Republic, this book examines how his radical studies challenged the intellectual, ecclesiastical, and political elite, providing a fresh perspective upon the Dutch Republic in the last decades of its Golden Age.

Urban Design Jon Lang, 2017-03-31. *Urban Design: A Typology of Procedures and Products*, 2nd Edition, provides a comprehensive and accessible introduction to urban design, defining the field and addressing the controversies and goals of urban design. Including over 50 updated international case studies, this new edition presents a three-dimensional model with which to categorize the processes and products involved: product type, paradigm type, and procedural type. The case studies not only illuminate the typology but provide information that designers can use as precedents in their own work. Uniquely, these case study projects are framed by the design paradigm employed, categorized by procedural type instead of instrumental or land use function. The categories used here are Total Urban Design, All of a Piece, Urban Design Plug, In Urban Design, and Piece by Piece Urban Design. Written for both professionals and those encountering urban design in their day-to-day life, *Urban Design* is an essential introduction to the field and practice, considering the future direction of the field and what can be learned from the past.
