Leveling The Playing Field Vol 74 Promoting Academic Success For Students Of Color:

Minority Student Retention Alan Seidman, 2019-05-23 Student retention continues to be a vexing problem for all colleges and universities. In spite of the money spent on creating programs and services to help retain students until they achieve their academic and personal goals, the figures have not improved over time. This is particularly true for minority students who have a greater attrition rate than majority students. Demographic information shows that the minority population in the United States is growing at a faster rate than the majority. It is imperative that educational institutions find ways to help improve retention rates for all students but particularly minority students. Retention rates should not differ appreciably among different racial/ethnic groups. The Journal of College Student Retention: Research, Theory, and Practice is the only scholarly peer-reviewed journal devoted solely to college student retention. It has published many articles on minority student retention, and this topic continues to garner much attention. This book is a compilation of the very best of these articles, selected on the basis of reviews by a cadre of experts in the education field. The articles discuss African American, Latino, Latina, Asian, and Asian Pacific, Native American, and biracial students and institutional commitments to retaining a diverse student population. For those interested in this vital area, the collection will teach and inspire them to achieve greater heights and pay additional attention to retaining minority students in our colleges and universities.

Leveling the Playing Field: Promoting Academic Success for Students of Color Irene Harris Johnson, 1996-08-05 Much of the retention literature has focused on at-risk students of color, especially freshmen whose admission has been facilitated by attenuated entrance requirements. Of course, this population of students has needs that urgently beg to be addressed, however, regularly or traditionally admitted students of color face college attrition rates that approach or exceed those of their at-risk peers. Comparatively less attention has been paid to the academically able students of color who are avidly recruited but for whom programs and services are noticeably lacking. This volume is intended to fill a conspicuous void, to provide ideas, narratives, and learnings that have relevance for the retention of all students of color but that can be particularly applied to the retention of regularly admitted students of color. The authors have tried to bring to the fore the work of individuals who are building state-of-the-art programs. Student affairs professionals need to learn from these practitioners' successes and insights how retention programs can become established and institutionally supported rather than remain peripheral efforts run on paltry budgets. This is the 74th issue of *New Directions for Student Services*. For more information on the series, please see the Journals and Periodicals page. [Racial and Ethnic Minority Student Success in STEM Education](#) Samuel D. Museus, Robert T. Palmer, Ryan J. Davis, 2011-03-08 An indispensable resource for teachers, administrators, and researchers involved with STEM education. This book distills the findings of more than three hundred published works concerned with minority students in STEM education. It gives the most complete picture possible of what is known about ethnic and racial minorities in STEM education and provides valuable guidance on how readers can apply those

insights to enhance their efforts to facilitate student success in STEM learning In addition the authors develop a rigorous model to help facilitate and direct research policy and practices in minority STEM education

Advancing Equity and Diversity in Student Affairs Jerlando F. L. Jackson, LaVar J. Charleston, Cornelius Gilbert, 2017-03-01 This Festschrift has a dual purpose a highlight how student affairs has grown as a field of practice in response to the growth of student diversity on college campuses and b honor the remarkable career of Melvin C Terrell As one of the unique contributions to higher education attributed to the United States the practice of student affairs has played a significant role in supporting students as access to college has broadened In turn key principles of practice had to evolve to appropriately take into consideration diverse student development theory and needs The span of Melvin C Terrell s legendary accomplishments neatly aligned with the professional evolution of student affairs Each of the chapters in this Festschrift artfully straddle the dual purpose of this volume Researchers practitioners and key decision makers will equally be empowered to employ the lessons and approaches informed by the evolution of student affairs over the past 30 years Presents cutting edge and thought provoking chapters on the evolution of student affairs practice shaped by the diversification of the student body and practitioners Contributions from some of the best minds and practitioners in the field Includes curated chapters that capture advancements in student affairs practice informed by equity and diversity while

honoring the unique contribution of Melvin C Terrell to the field *Higher Education in the United States* James J. F. Forest, Kevin Kinser, 2002-06-21 Surveys the changing landscape of American higher education from academic freedom to virtual universities from campus crime to Pell Grants from the Student Privacy Act to student diversity In the years following World War II college and university enrollment doubled students revolted faculty unionized and community colleges evolved Tuition and technology soared as did the number of first generation minority and women students These changes radically transformed the American system of postsecondary education Today that system is in trouble Its aging professoriate prepares for retirement but low academic salaries can no longer attract the best minds to replace them A flood of corporate dollars funds commercial research but money for basic research the seedbed of American scientific preeminence has dried up Colleges and universities also face heated competition with for profit education providers for students faculty and external financial support along with the costs of providing remedial education to growing numbers of students who are unprepared for postsecondary education *Higher Education in the United States* provides a comprehensive analysis of these issues and others that scholars and practitioners of higher education study discuss and grapple with on a daily basis *From Diplomas to Doctorates* V. Barbara Bush, Crystal Renee Chambers, Mary Beth Walpole, 2023-07-12 This volume is designed to illuminate the educational experiences of Black women from the time they earn their high school diplomas through graduate study with a particular focus on their doctoral studies by exploring the commonalities and the uniqueness of their individual paths and challenges The chapters of this volume newly identify key factors and experiences that shape Black women s engagement or disengagement with higher education The original research presented here using an array of theoretical lenses as well as qualitative and quantitative methods not only deepens our understanding of the experiences of African American women in the academy but also seeks to strengthen the academic pipeline not only for the benefit of those who may have felt disenfranchised in the past but for all students The contributors eschew the deficit focused approach that implies a lack of social and cultural capital based on prior educational experiences adopted by many studies of non dominant groups in education and instead focus on the strengths and experiences of their subjects Among their findings is the identification of the social capital that Black women are given and actively acquire in their pre collegiate years that enable them to gain greater returns on their educational investments than their male peers The book further describes the assistance and the interference African American women receive from their peers during their transition to college and how peer interactions shape their early college experiences and influence subsequent persistence decisions Whether studying how Black women in the social and natural sciences navigate through this often rocky terrain or uncovering the extent to which African American women doctoral students access postsecondary education through community colleges and their special needs for more mentoring and advising support this book provides researchers and graduate students with rich information on how to successfully engage and succeed in the doctoral process It also demonstrates to women faculty and administrators how they

can become better navigators guides and advocates for the African American women who come after them
