Clark, Gary E. Moulton, Thomas W. Dunlay, 2002-01-01 Since the time of Columbus explorers dreamed of a water passage across the North American continent President Thomas Jefferson shared this dream He conceived the Corps of Discovery to travel up the Missouri River to the Rocky Mountains and westward along possible river routes to the Pacific Ocean Meriwether Lewis and William Clark led this expedition of 1804-6 Along the way they filled hundreds of notebook pages with observations of the geography Indian tribes and natural history of the trans Mississippi West This volume includes Lewis's and Clark's journals beginning in August 1803 when Lewis left Pittsburgh to join Clark farther down the Ohio River The two men and several recruits camped near the mouth of the Missouri River for five months of training acquiring supplies and equipment and gathering information from travelers about the trip upriver They started up the Missouri in May 1804 This volume ends in August when the Corps of Discovery camped near the Vermillion River in present day South Dakota *The Journals of the Lewis and Clark Expedition*, 1983 When the Corps of Discovery left the vicinity of St Louis in 1804 to explore the American West they had only sketchy knowledge of the terrain that they were to cross existing maps often contained large blank spaces and wild inaccuracies William Clark painstakingly mapped every mile of the journey drawing from both direct observation and from the reports of Indians and a few fur traders On their return Lewis and Clark directed the execution of new maps detailing with remarkable accuracy the features of the country that they had traversed *The U.S. Army and the Lewis and Clark Expedition*, 2003 [The U.S. Army and the Lewis and Clark Expedition](#) David W. Hogan, Charles E. White, 2010-11-29 The U S Army and the Lewis and Clark Expedition prepared as part of the Army's contribution to the observance of the Lewis and Clark Bicentennial Commemoration 2003-2006 is an engaging account of a stirring and significant event in American military heritage While most Americans have some inkling of the importance of the Lewis and Clark Expedition officially designated the Corps of Volunteers for North Western Discovery relatively few recognize that it was an Army endeavor from beginning to end Blending their fine writing skills authors David W Hogan Jr and Charles E White tell the unvarnished story of Captain Meriwether Lewis's and Captain William Clark's military mission ordered by President Thomas Jefferson Lewis and Clark with twenty seven other soldiers plus four civilians two of whom were under contract with the War Department carried out the president's intent and trekked from the mouth of the Missouri River to the Pacific Coast and back Hogan's and White's memorable study is evocative of the courage and discipline of the Army today Other related products Exploration Western Expansion resources collection can be found here <https://bookstore.gpo.gov/catalog/us/military/history/exploration/western> Other products produced by the U S Army Center of Military History CMH can be found here <https://bookstore.gpo.gov/agency/1061> [The Lewis and Clark Companion](#) Stephenie Ambrose Tubbs, Clay Straus Jenkinson, 2015-06-09 An indispensable guide to our nation's epic adventure The years 2003-2006 mark the bicentennial of Meriwether Lewis and William Clark's famous transcontinental journey between the Missouri and the Columbia River systems They never did find the fabled Northwest Passage but over twenty eight months the Corps of

Discovery traveled more than eight thousand miles through eleven future states named scores of places and rivers met with many Native American tribes and wrote the first descriptions of heretofore unknown plants and animals By the end of their trip Lewis and Clark had navigated and named two thirds of the American continent They may have had undaunted courage but the sheer volume of information related to their expedition can be more than a little daunting to the armchair historian Written by two highly regarded Lewis and Clark experts this book contains over five hundred lively and fascinating entries on everything from the members of the expedition and the places they went to the weapons and tools trade goods and medicines they carried along with the food and amusements that sustained them Highly readable and informative it s the perfect introduction for the Lewis and Clark novice and the comprehensive guide no buff will want to be without This handy volume timed for publication as the bicentennial of the Lewis and Clark expedition opens has the virtue of teaching the student while helpfully reminding the scholar Publishers Weekly *The Journals of the Lewis and Clark Expedition: March 23-June 9, 1806* Meriwether Lewis, William Clark, Gary E. Moulton, Thomas W. Dunlay, 1983-01-01 The seventh volume of this new definitive edition of Lewis and Clark s journals begins as the expedition turns homeward On March 23 1806 the Corps of Discovery left Fort Clatsop their winter quarters on the Pacific Coast for the long return journey to the United States Although they were largely retracing their outbound route their journals were still filled with descriptions of the country and its people and new discoveries were yet to be made They departed from the Columbia River at one point to take an overland shortcut between the Walla Walla and Snake rivers and reached the latter a little below the mouth of the Clearwater Detained by winter snows at the edge of the Rockies the Corps camped among the friendly Nez Perce Indians Here in modern west central Idaho the captains attended to sick Indians and continued their scientific studies while others in the party passed the time hunting and socializing By June 9 the captains decided to resume their move eastward According to the Nez Perces the snow would not be gone from the mountains along the Lolo Trail until early July but the party looking homeward left the Clearwater valley for the flats above the river Incorporating substantial new scholarship concerning all aspects of the expedition from Indian languages to plants and animals to details of geography and history this edition greatly expands and updates the annotation of the last one published in 1904 5 Venereal Disease and the Lewis and Clark Expedition Thomas Power Lowry, 2004-01-01 One of the greatest challenges faced by William Clark and Meriwether Lewis on their 1804 6 Corps of Discovery expedition was that of medical emergencies on the trail Without an attending physician even routine ailments and injuries could have tragic consequences for the expedition s success and the safety of its members Of these dangers the most insidious and potentially devastating was the slow painful and oftentimes fatal ravage of venereal disease Physician Thomas P Lowry delves into the world of nineteenth century medicine uncovering the expedition s very real fear of venereal disease Lewis and Clark knew they were unlikely to prevent their men from forming sexual liaisons on the trail so they prepared for the consequences of encounters with potentially infected people as well as the consequences of

preexisting disease by stocking themselves with medicine and the latest scientific knowledge from the best minds in America Lewis and Clark's expedition encountered Native peoples who experienced venereal disease as a result of liaisons with French British Spanish and Canadian travelers and had their own methods for curing its victims or at least for easing the pain it inflicted Lowry's careful study of the explorers' journals sheds new light on this neglected aspect of the expedition showing in detail how sex and venereal disease affected the men and their mission and describes how diverse peoples faced a common threat with the best knowledge and tools at their disposal **The Lewis and Clark Expedition** Harry W.

Fritz, 2004-04-30 Fritz demonstrates how a series of unrelated events converged to make the Lewis and Clark expedition and America's dream of westward expansion a reality Maps guide the reader along the routes taken by Lewis and Clark and a detailed timeline gives readers an easy to use resource for looking up important dates and events Biographical sketches of major figures conclude the work An extensive bibliography and index make this an ideal first stop for anybody interested in learning more about this truly remarkable expedition William Clark and Meriwether Lewis are widely credited with exploring the American West and paving the way for settlement Yet if Thomas Jefferson's bid for president in 1800 had failed the expedition probably would not have ventured west Furthermore if Napoleon had not been dealt a severe blow by a Haitian slave rebellion France might never have sold the Louisiana Territory to the United States The expedition also relied heavily on the goodwill of Native Americans peopling the explored territory Fritz demonstrates how a series of unrelated events converged to make the Lewis and Clark expedition and America's dream of westward expansion a reality Maps guide the reader along the routes taken by Lewis and Clark and a detailed timeline gives readers an easy to use resource for looking up important dates and events Biographical sketches of major figures conclude the work An extensive bibliography and index make this an ideal first stop for anybody interested in learning more about this truly remarkable expedition **Highwood**

Generation Station, 2006 **The Only True America** David R. Hauser, 2000-08-14 Probing the Journals of Lewis and Clark far more closely than other works the book develops the understanding that these Enlightenment gentlemen from Virginia gradually entered the unfamiliar world of the West and Native American animism and magic and they responded differently Clark adapted and learned from the Indians whereas Lewis resisted them as savages Clark returned after having envisioned a landscape of hope and lives a long life of service to native tribes Lewis saw a landscape of despair and in the three remaining years of his life encountered conflict and disappointment Both perspectives on the West are still alive Some find in the virtual obliteration of Native American cultures and the despoiling of the land itself the loss of the West But another impulse toward energy inventiveness and community spirit seems alive especially evident in the smaller cities and larger towns along the route of the explorers In such places the landscape of hope is very much alive The experience of Lewis and Clark then parallels our experience today Lewis and Clark Trail, Yesterday and Today, **Our Destiny Entwined**, 2006 Along the Trail with Lewis and Clark Barbara Fifer, Vicky Soderberg, 2001 This edition contains no advertising and

is stitch bound It covers the whole story of the expedition beginning east of the Mississippi River as Thomas Jefferson and Meriwether Lewis planned and Lewis trained and traveled Then follows Lewis and Clark and company to the Pacific and back to St Louis Accessible history text combines with tourism information on following their path today and maps combine both then and now **The Journals of the Lewis & Clark Expedition** Meriwether Lewis,1996
