The Enchantments of Mammon Eugene McCarraher, 2019-11-12 An extraordinary work of intellectual history as well as a scholarly tour de force a bracing polemic and a work of Christian prophecy McCarraher challenges more than 200 years of post Enlightenment assumptions about the way we live and work The Observer At least since Max Weber capitalism has been understood as part of the disenchantment of the world stripping material objects and social relations of their mystery and magic In this magisterial work Eugene McCarraher challenges this conventional view Capitalism he argues is full of sacrament whether one is prepared to acknowledge it or not First flowering in the fields and factories of England and brought to America by Puritans and evangelicals whose doctrine made ample room for industry and profit capitalism has become so thoroughly enmeshed in the fabric of our society that our faith in the market has become sacrosanct Informed by cultural history and theology as well as management theory The Enchantments of Mammon looks to nineteenth century Romantics whose vision of labor combined reason creativity and mutual aid for salvation In this impassioned challenge to some of our most firmly held assumptions McCarraher argues that capitalism has hijacked our intrinsic longing for divinity and urges us to break its hold on our souls A majestic achievement It is a work of great moral and spiritual intelligence and one that invites contemplation about things we can't afford not to care about deeply Commonweal More brilliant more capacious and more entertaining page by page than his most ardent fans dared hope The magnitude of his accomplishment an account of American capitalism as a religion will stun even skeptical readers Christian Century

The Century's Midnight Clive Bush, 2010 The Century's Midnight is an exploration of the literary and political relationships between a number of ideologically sophisticated American and European writers during a mid twentieth century dominated by the Second World War Clive Bush offers an account of an intelligent and diverse community of people of good will transcending national ideological and cultural barriers Although structured around five central figures the novelist Victor Serge the editors Dwight Macdonald and Dorothy Norman the cultural critic Lewis Mumford and the poet Muriel Rukeyser the book examines a wealth of European and American writers including Hannah Arendt Simone de Beauvoir Walter Benjamin John Dos Passos Andr Gide Henry Miller Ana's Nin George Orwell Boris Pilniak Albert Camus Jean Paul Sartre Ignacio Silone and Richard Wright The book's central theme relates politics and literature to time and narrative The author argues that knowledge of the writers of this period is of inestimable value in attempting to understand our contemporary world

Back to the Future Karl Besel, Viviana Andreescu, 2013-07-19 Back to the Future explores new urbanism and urban revitalization within the context of

public policy trends such as regional governance and the role of nonprofits The purpose of this book is to provide students and professionals alike with a context for examining the beginnings of new urbanism as well as to illustrate how this movement has become a nationwide trend in response to changing demographics and the real estate crisis The book primarily utilizes comparative case studies within both inner city and suburban areas While a growing number of articles have been written on both suburban and inner city new urbanist communities few books have connected new urbanism to its roots in historical preservation communities This book distinguishes itself from other works by assessing the commonalities between greenfield suburban new urbanist development and inner city redevelopment projects

The Big Roads Earl Swift, 2011-06-09 Discover the twists and turns of one of America's great infrastructure projects with this engrossing history of the creation of the U S interstate system Los Angeles Times It's become a part of the landscape that we take for granted the site of rumbling eighteen wheelers and roadside rest stops a familiar route for commuters and vacationing families But during the twentieth century the interstate highway system dramatically changed the face of our nation These interconnected roads over 47 000 miles of them are man made wonders economic pipelines agents of sprawl uniquely American symbols of escape and freedom and an unrivaled public works accomplishment Though officially named after President Dwight D Eisenhower this network of roadways has origins that reach all the way back to the World War I era and The Big Roads the first thorough history of the expressway system The Washington Post tells the full story of how they came to be From the speed demon who inspired a primitive web of dirt auto trails to the largely forgotten technocrats who planned the system years before Ike reached the White House to the city dwellers who resisted the concrete juggernaut when it bore down on their neighborhoods this book reveals both the massive scale of this government engineering project and the individual lives that have been transformed by it A fast paced history filled with fascinating detours the book is a road geek's treasure and everyone who travels the highways ought to know these stories Kirkus Reviews

Modern Architectural Theory Harry Francis Mallgrave, 2009-07-13 Modern Architectural Theory is the first book to provide a comprehensive survey of architectural theory primarily in Europe and the United States during three centuries of development In this synthetic overview Harry Mallgrave examines architectural discourse within its social and political context He explores the philosophical and conceptual evolution of its ideas discusses the relation of theory to the practice of building and most importantly considers the words of the architects themselves as they contentiously shaped Western architecture He also examines the compelling currents of French rationalist and British empiricist thought radical reformation of the theory during the Enlightenment the intellectual ambitions and historicist debates of the nineteenth century and the distinctive varieties of modern theory in the twentieth century up to the profound social upheaval of the 1960s Modern Architectural Theory challenges many assumptions about architectural modernism and uncovers many new dimensions of the debates about modernism

The End of American Exceptionalism David M. Wrobel, 1993 A lucid and rewarding synthesis of

cultural and western history Richard W Etulain author of Writing Western History Wrobel makes a fine contribution to the study of myth by analyzing the anxiety or angst Americans felt about the frontier in the half century after 1890 This is an excellent book on a big subject executed with much skill Western Historical Quarterly Direct admirably brief and crisply written Journal of American History Encyclopedia of the Essay Tracy Chevalier,1997 A hefty one volume reference addressing various facets of the essay Entries are of five types 1 considerations of different types of essay e g moral travel autobiographical 2 discussions of major national traditions 3 biographical profiles of writers who have produced a significant body of work in the genre 4 descriptions of periodicals important for their publication of essays and 5 discussions of some especially significant single essays Each entry includes citations for further reading and cross references Annotation copyrighted by Book News Inc Portland OR **An artist in values** Rodger Lewis Dunn,1993 Atlantic Crossings Daniel T. Thinking through Technology Carl Mitcham,2024-05-31 What does it mean to think about technology philosophically Why try These are the issues that Carl Mitcham addresses in this work a comprehensive critical introduction to the philosophy of technology and a discussion of its sources and uses Tracing the changing meaning of technology from ancient times to our own Mitcham identifies the most important traditions of critical analysis of technology the engineering approach which assumes the centrality of technology in human life and the humanities approach which is concerned with its moral and cultural boundaries Mitcham bridges these two traditions through an analysis of discussions of engineering design of the distinction between tools and machines and of engineering science itself He looks at technology as it is experienced in

everyday life as material objects from kitchenware to computers as knowledge including recipes rules theories and intuitive know how as activity design construction and use and as volition knowing how to use technology and understanding its consequences By elucidating these multiple aspects Mitcham establishes criteria for a more comprehensive analysis of ethical issues in applications of science and technology This book will guide anyone wanting to reflect on technology and its moral implications

The Organic Machine Richard White,2011-04-01 The Hill and Wang Critical Issues Series concise affordable works on pivotal topics in American history society and politics In this pioneering study White explores the relationship between the natural history of the Columbia River and the human history of the Pacific Northwest for both whites and Native Americans He concentrates on what brings humans and the river together not only the physical space of the region but also and primarily energy and work For working with the river has been central to Pacific Northwesterners competing ways of life It is in this way that White comes to view the Columbia River as an organic machine with conflicting human and natural claims and to show that whatever separation exists between humans and nature exists to be crossed

Moral Energy in America Rebecca K. Wright,2025-04-29 This book offers an illuminating exploration of how the concept of energy shaped American thought culture and politics throughout the first half of the twentieth century This essential history traces how politicians sociologists geographers urban planners economists and intellectuals adopted the idea of energy to bolster their social programs and visions of the future through distinctive energy imaginaries
