Carrithers, Jr.,1992-01-01 Though of diverse backgrounds and training Mumford Tate and Eiseley shared remarkably concordant and convincing views of the state of twentieth century American society All three considered America to be benighted by a dominant myth the myth of the machine in Mumford s phrase that resulted in cultural degeneration Through an examination of selected works of each critic Carrithers explains how these writers both identified and fought against this myth Carrithers asserts that Mumford Tate and Eiseley in their essays revived prophecy as a mode of expression and as a means of appraising culture in a broad historical context Like the biblical prophets the three concerned themselves not so much with the future as with the present They sought to unmask the falseness the moral emptiness of a reductive abstractive mechanized model of the world Carrithers considers Mumford as he moved from conflicted stances in the four volumes of *The Renewal of Life* to the more assured and comprehensive vision of society he portrayed in the two volume *The Myth of the Machine* He examines Tate s critique of American culture as it developed from his youthful involvement with the Fugitives and Agrarians to in later years an increasingly coherent but comber construal of the world s plight Finally he describes Eiseley s fully emergent rejection of reductive scientism and temporalism a large part of all that is crushing us Eiseley wrote evident in *The Immense Journey* and other books Mumford Tate and Eiseley these watchers in the night all wrote against the grain of most of their contemporaries posing questions about generally accepted current values

and proffering alternatives that would make the world a more humane and transcendent place Gale Carrithers thoughtful challenging analysis of their efforts will be required reading for anyone who wishes a better understanding of our age

**In Old Friendship** Frank G. Novak, Jr., 2007-05-14 Between 1928 and 1981 architectural and cultural critic Lewis Mumford exchanged nearly six hundred letters with Melville scholar and Harvard psychologist Henry A Murray In Old Friendship documents that richly rewarding interaction Covering fifty years of devoted camaraderie between two exceptional minds the book offers profound insights into the intellectual frustrations behind their significant careers and the emotional needs that framed their vibrant often dramatic lives To Mumford a writer who sought to change the course of world events iconoclastic Murray became a welcome confidant critic mentor and friend The letters reflect the wide range of public and private interests held by both men Love s entanglements are aired alongside literary labors By chronicling the private worlds of these intellectual icons this volume emerges as a crucial research tool for students of American intellectual history and culture literary criticism urbanism architecture and political arenas such as World War II and the Cold War It offers a unique prism through which to

observe the dramatic shifts in American society and culture in the twentieth century Beloved Community Casey Nelson Blake, 2000-11-09 The Young American critics Randolph Bourne Van Wyck Brooks Waldo Frank and Lewis Mumford are well known as central figures in the Greenwich Village Little Renaissance of the 1910s and in the postwar debates about American culture and politics In Beloved Community Casey Blake considers these intellectuals as a coherent group and assesses the connection between their cultural criticisms and their attempts to forge a communitarian alternative to liberal and socialist politics Blake draws on biography to emphasize the intersection of questions of self culture and society in their calls for a culture of personality and self fulfillment In contrast to the tendency of previous analyses to separate these critics cultural and autobiographical writings from their politics Blake argues that their cultural criticism grew out of a radical vision of self realization through participation in a democratic culture and polity He also examines the Young American writers interpretations of such turn of the century radicals as William Morris Henry George John Dewey and Patrick Geddes and shows that this adversary tradition still offers important insights into contemporary issues in American politics and culture Beloved Community reestablishes the democratic content of the Young Americans ideal of personality and argues against viewing a monolithic therapeutic culture as the sole successor to a Victorian culture of character The politics of selfhood that was so critical to the Young Americans project has remained a contested terrain throughout the twentieth century

*The Drawings and Watercolors of Lewis Mumford* Vincent DiMattio, Kenneth R. Stunkel, 2004 For more than half a century the distinguished critic humanist and historian Lewis Mumford accumulated sketches and watercolors that he executed while engaged in exploratory rambles through cities and landscapes He also sketched notable people associated with his early education and career as a nationally recognized writer which resulted in the National Medal of Freedom and The National Medal of Art His hundreds of drawings lay buried in folders in Amenia New York until the 1980 s

Now they can be sampled and enjoyed as a hitherto unknown extension of a literary career that lasted more than 70 years. The authors are uniquely qualified to assemble this volume. They spent many hours with Mumford and his wife Sophia until his death in 1990 and secured custody of all the drawings and watercolors for their institution Monmouth University. Dr Stunkel is a historian and has written on Mumford's thought. Professor DiMattio is an exhibiting artist and curator of the Mumford collection. This volume is focused on Mumford as a gifted but unintentional artist. The Preface was supplied by Sophia Mumford before her death in 1997. Watercolors came to light Mumford's strengths as an untrained amateur with pencil, pen and ink and watercolor and his intimate connections with art as a critic. The volume features 38 of the drawings and watercolors reproduced from the original works with two photographs of Mumford in the 1920s and 1970s. Cross-referenced pages containing commentary on each piece and apt quotations from Mumford's books accompany the images. Following the images and commentary is a catalogue raisonné of 321 drawings and 16 rare photographs. The volume concludes with works cited and a bibliographical essay.

**Book Matters** Alan Sica, 2017-07-05. Scholars have been puzzling over the future of the book since Marshall McLuhan's famous maxim: the medium is the message. In the early 1950s McLuhan famously argued that electronic media was creating a global village in which books would become obsolete. Such views were ahead of their time but today they are all too relevant as declining sales even among classic texts have become a serious matter in academic publishing. Does anyone still read long and complex works either from the past or the present? Is the role of a professional reader and reviewer of manuscripts still relevant? *Book Matters* closely analyses these questions and others. Alan Sica surmises that the concentration span required for studying and discussing complex texts has slipped away as undergraduate classes are becoming inundated by shorter, easier-to-teach scholarly and literary works. He considers such matters in part from the point of view of a former editor of scholarly journals. In an engaging style he gives readers succinct analyses of books and ideas that once held the interest of millions of discerning readers such as Simone de Beauvoir's *Second Sex* and the works of David Graham Phillips and C. Wright Mills among others. *Book Matters* is not a nostalgic cry for lost ideas but instead a stark reminder of just how aware and analytically illuminating certain scholars were prior to the Internet and how endangered the book is in this era of pixelated communication.

*Atlantic Crossings* Daniel T. RODGERS, 2009-06-30. The most belated of nations Theodore Roosevelt called his country during the workmen's compensation fight in 1907. Earlier reformers, progressives of his day and later New Dealers lamented the nation's resistance to models abroad for correctives to the backwardness of American social politics. *Atlantic Crossings* is the first major account of the vibrant international network that they constructed so often obscured by notions of American exceptionalism and of its profound impact on the United States from the 1870s through 1945. On a narrative canvas that sweeps across Europe and the United States Daniel Rodgers retells the story of the classic era of efforts to repair the damages of unbridled capitalism. He reveals the forgotten international roots of such innovations as city planning, rural cooperatives, modernist architecture for

public housing and social insurance among other reforms From small beginnings to reconstructions of the new great cities and rural life and to the wide ranging mechanics of social security for working people Rodgers finds the interconnections adaptations exchanges and even rivalries in the Atlantic region s social planning He uncovers the immense diffusion of talent ideas and action that were breathtaking in their range and impact The scope of Atlantic Crossings is vast and peopled with the reformers university men and women new experts bureaucrats politicians and gifted amateurs This long dur e of contemporary social policy encompassed fierce debate new conceptions of the role of the state an acceptance of the importance of expertise in making government policy and a recognition of a shared destiny in a newly created world
