**Identity in Professional Wrestling** Aaron D. Horton, 2018-03-04 Part sport part performance art professional wrestling's appeal crosses national racial and gender boundaries in large part by playing to national racial and gender stereotypes that resonate with audiences. Scholars who study competitive sports tend to dismiss wrestling with its scripted outcomes as fake yet fail to recognize a key similarity both present athletic displays for maximized profit through live events television viewership and merchandise sales. This collection of new essays contributes to the literature on pro wrestling with a broad exploration of identity in the sport. Topics include cultural appropriation in the ring, gender non conformity, national stereotypes, and wrestling as transmission of cultural values. **The Road to Rocroi** Fernando González de León, 2009-02-23 The Eighty Years War 1567-1659 has been the subject of important monographs but the high command of the Army of Flanders which played a decisive role in the making of Spanish strategy and was in charge of its tactics has eluded detailed scrutiny. This work the first study of an early modern officer corps examines the culture, class structure and combat effectiveness of the largest army of its day. Combining approaches and insights from social, cultural and military history it traces the evolution of the leading cadres of the legendary tercios in relation to major trends such as aristocratization and military modernization while revising recent perspectives on Spain's war against the Dutch and the French in the Low Countries. Architectural emblems and ornaments were symbols that conveyed concise and immediate meaning; they were also a crucial element in realizing the Romantic ideal of the synthesis of the arts. Through the lens of Constant Dufaux's work *Ornament and Symbol in French Romantic Architecture* explores the sudden proliferation of ornamental motifs in France challenging the understanding that the twentieth-century modernist avant-garde developed in direct opposition to ornament. Ralph Hoche examines architectural ornament from the July Monarchy to the Second Empire revealing its connections to Romantic theories of symbolism and ideas about the power of form to elicit emotional responses. Hoche repositions Constant Dufaux as a pivotal figure in developing new forms of symbolic signification in architecture establishing him as one of Romanticism's key

theoreticians Ornament and Symbol in French Romantic Architecture reconstructs vibrant debates surrounding theories of the symbol the public function of architecture and the quest for the synthesis of the arts revealing architectural ornamentation to be part of a process of modernization that continued into the next generation of architects and artists ultimately culminating in the advent of art nouveau
